Grawemeyer Award for Music Composition Karen R. Little, Julia Graepel, Scott R. Adams, 2007-01-16 The University of Louisville's annual Grawemeyer Award for Music Composition is the largest monetary award offered in its field. The international prize is offered for outstanding achievement by a living composer in a large musical genre such as choral, orchestral, chamber, electronic, song cycle, dance, opera, musical theater, or extended solo work. Since the award was first offered in 1985, the Dwight Anderson Memorial Music Library, one of the largest new music collections in North America, has housed the competition submissions. In order to keep an accurate listing detailing the holdings of this collection, this catalog was developed. Grawemeyer Award for Music Composition: The First Twenty Years catalogs every submission for this prestigious award, offering complete information on all the competition submissions, including title, composer, format, length, instrumentation, and information on where to find or purchase the composition. The bulk of the catalog is listed alphabetically by composer so that users can learn whose works were submitted over the 20 years covered by the award. The additional appendixes provide the opposite perspective: a year-by-year glance at the award and those who submitted works each year. Concluding with an index, this catalog increases awareness of this collection and acknowledges the work of these important composers and their consequence to recent music history. *New York Magazine*, 1992-11-23. *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. [Recent American Art Song](#) Keith E. Clifton, 2008-09-05. *Recent American Art Song: A Guide* is a reference source devoted to songs with English texts by American composers written for solo voice and piano. The book focuses exclusively on art song since 1980, a substantial period largely ignored by scholars. This is the first study to examine this repertory in detail, and many of the songs and composers are discussed in print for the first time. Keith E. Clifton has examined approximately 1000 songs by nearly 200 composers. Many songs employ musical idioms well beyond traditional classical styles, including references to jazz, musical theater, rap, and rock roll, and several songs blur the boundaries between recital and stage works. Organized
