Jones, 2006 An introductory look at the principles of biblical Christian counseling this book is sure to find a wide and enduring audience through the American Association of Christian Counselors over 50 000 members Care for the Soul Mark R. McMinn, Timothy R. Phillips, 2001-04-10 Edited by Mark R McMinn and Timothy R Phillips this collection of essays is a multidisciplinary dialogue on the interface between psychology and theology that takes seriously the long rich tradition of soul care in the church The Challenges of Integrating Religion and Spirituality into Psychotherapy Francis A. Martin, 2024-04-23 This book examines personal and professional understandings of religion in psychotherapy and advocates for integrity competency and cultural pluralism in clinical practice A major feature of this book is that it confirms the massive proliferation of religion oriented approaches to counseling and therapy in recent years It attributes this rise to opportunism and exaggerated individualism among therapists and to the frequent failures of professional associations clinical preparation programs and other influences In response to these influences it identifies the need for guiding principles for integrating religion into therapy discusses the religious issues that clients bring to therapy and advocates for major changes in clinical practice with

emphasis on integrity and competence Building on a large volume of research and using evidence based conclusions it clarifies how these two major features of contemporary life can be integrated with integrity and competence The author maintains that religion should be a feature of the practice of counseling and therapy so long as it addresses the clinically relevant needs of clients However it also explores how the religion of counselors and therapists often expresses the needs of counselors and therapists instead of addressing the needs of their clients In the context of these questions and discussion of contentious challenges this book provides guidelines for relating religion with clinical practice and recommends needed actions by clinical preparation programs professional associations individual therapists state legislatures licensing boards social service agencies and corporations All of this stands on the conspicuous need for professional accountability in the delivery of mental health care

Therapy Thieves Francis A. Martin, 2020-03-13 Why are we practicing counselors and psychotherapists committed to failure This is the question that has haunted Dr Francis Martin as he has cataloged well over 20 000 distinct psychotherapy approaches advertised on the websites of licensed mental health professionals No doubt some of these are harmful most of them ineffective and many simply made up but the sheer volume of such techniques and practices advertised by licensed professionals holding advanced degrees whose services are billed to clients and insurance companies calls the credibility of the entire mental health profession into question Based on significant original research that joins research from others this book describes a near universal crisis in mental health care and recommends ways to rescue the field from itself The crisis is caused by declining competence among counselors and psychotherapists who have failed to regulate themselves and who therefore deliver inadequate if not harmful services The book calls for major specific and urgently needed reforms

After the Blue Light: One Soul's Healing Journey Margaret-Ann Hall, 2019-09-24 As humans we are composed of mind body and soul spirit In order to lead healthy happy and fulfilling lives these three aspects of our human experience must be in balance For most of us it is the soul that we pay the least attention to and know least about Similar to our minds and bodies our souls can become ill particularly after we experience emotional trauma Our mainstream health and wellness systems have plenty of resources to help us treat our bodies when they are ill and resources to treat the mind are becoming more acceptable and available all the time However treatments for the soul are still relatively unknown and not readily available in most areas After the Blue Light One Soul's Healing Journey takes a soul conscious approach to dealing with some of today's more prevalent mental health issues including anxiety and depression Author Margaret Ann Hall blends light hearted personal anecdotes easy to understand explanations and relatable advice introducing a comprehensive spiritual belief system for coping with and healing emotional pain caused by traumatizing life experiences such as childhood abuse divorce and suicide She identifies resources both within and outside mainstream health and wellness systems to help process emotional pain providing empowering and enlightening ways to heal from the devastating effects of trauma and to find fulfillment in the aftermath This self help guide is for anyone who has been impacted by traumatizing life experiences

and is searching for deeper meaning and healing than more traditional e.g. anti-depressants techniques can provide
