Fuzzy Logic and the Internet Masoud Nikravesh, Lofti A. Zadeh, 2012-11-02 With the daily addition of million documents and new users there is no doubt that the World Wide Web WWW or Web shortly is still expanding its global information infrastructure Thanks to low cost wireless technology the Web is no more limited to homes or offices but it is simply everywhere The Web is so large and growing so rapidly that the 40 million page WebBase repository of Inktomi corresponds to only about 4% of the estimated size of the publicly indexable Web as of January 2000 and there is every reason to believe these numbers will all swell significantly in the next few years This unrestrainable explosion is not bereft of troubles and drawbacks especially for inexperienced users Probably the most critical problem is the effectiveness of Web search engines though the Web is rich in providing numerous services the primary use of the Internet falls in emails and information retrieval activities Focusing in this latter any user has felt the frustrating experience to see as result of a search query

overwhelming numbers of pages that satisfy the query but that are irrelevant to the user

This guide is published in two volumes. Volume 1, *Histories, Theories, and Genres*, covers overviews, historical surveys, theory, and criticism studies of film genres and case studies of individual films. Volume 2, *People, Cultures, and Contexts*, covers individual people, social and cultural studies, studies of musical genre, pedagogy, and the industry. A complete index is included in each volume.

Architects' Data Ernst Neufert, 2019-08-05 An indispensable tool for the beginning stages of designing and planning a building project. This new edition of a classic bestselling text provides in one concise volume the essential information needed to form the framework for the more detailed design and development of any building project. Organized largely by building type, it covers planning criteria and considerations of function and siting, and with over 6200 diagrams, it provides a mass of data on spatial requirements. Most of the featured illustrations are dimensioned, and each building type includes plans, sections, site layouts, and design details. The book also includes an extensive bibliography and detailed set of metric/imperial conversion tables. *Architects' Data* starts with the basics of designing for a new building project, before moving on to covering everything an architect needs to know. It also looks at the design styles and specifications for creating

different types of structures such as those made for residential religious cultural sports medical and other types of occupation Covers user requirements planning criteria basic dimensions and considerations of function and siting Includes numerous examples and over 6200 illustrations and tables 5th English edition of the classic international reference for architects Architects Data is an excellent resource for architects building surveyors space planners and design and build contractors everywhere Sound Reinforcement for Audio Engineers Wolfgang Ahnert,Dirk Noy,2022-08-31 Sound Reinforcement for Audio Engineers illustrates the current state of the art in sound reinforcement Beginning with an outline of various fields of applications from sports venues to religious venues corporate environments and cinemas this book is split into 11 chapters covering room acoustics loudspeakers microphones and acoustic modelling among many other topics This comprehensive book packed with references and a historical overview of sound reinforcement design is an essential reference book for students of acoustics and electrical engineering but also for engineers looking to expand their knowledge of designing sound reinforcement systems **Before Sound** Tiziano Manca,2023-10-02 In Before Sound composer Tiziano Manca investigates the premises for and consequences of a major change in his compositional practice this change emphasizes the temporality of sound and more recently the relationship between sounding body and musician It calls into question the traditional conception of composition and its relation to sound material Accordingly Manca examines the theoretical and aesthetic reasons for this shift by interweaving aesthetic reflection on his work with historical research on the notion of musical material and the theory of sound production *Film Studies* Amy Villarejo,2021-11-16 A comprehensive overview of how to study film this updated third edition provides concise and provocative summaries for approaching the language of film analysis ways of thinking about film history and approaches and methods for studying cinema from national cinemas to genre to stardom and beyond The new edition tracks the changes in film production and exhibition by situating the study of film within contemporary digital media cultures and structures such as social media and streaming platforms Without forsaking its emphasis on the study of film the third edition updates its examples and provides fresh insight into today s image culture *Film Studies The Basics* provides beginning students in film studies as well as lifelong film buffs with the tools to pursue film analysis film history and further inquiries into the medium **Expression of emotion in music and vocal communication** Anjali Bhatara,Petri Laukka,Daniel J. Levitin,2014-08-18 Two of the most important social skills in humans are the ability to determine the moods of those around us and to use this to guide our behavior To accomplish this we make use of numerous cues Among the most important are vocal cues from both speech and non speech sounds Music is also a reliable method for communicating emotion It is often present in social situations and can serve to unify a group s mood for ceremonial purposes funerals weddings or general social interactions Scientists and philosophers have speculated on the origins of music and language and the possible common bases of emotional expression through music speech and other vocalizations They have found increasing evidence of commonalities among them However

the domains in which researchers investigate these topics do not always overlap or share a common language so communication between disciplines has been limited The aim of this Research Topic is to bring together research across multiple disciplines related to the production and perception of emotional cues in music speech and non verbal vocalizations This includes natural sounds produced by human and non human primates as well as synthesized sounds Research methodology includes survey behavioral and neuroimaging techniques investigating adults as well as developmental populations including those with atypical development Studies using laboratory tasks as well as studies in more naturalistic settings are included
