Textual Power Literary Theory And The Teaching Of English:

Textual Power Robert E. Scholes, 1985-01-01 Robert Scholes has written an enviable book on the uses and abuses of literary theory in the teaching of literature One of his most forceful points is that literary theory is not something a teacher may either use or not use for teaching itself is an unavoidably theoretical activity Gerald Graff Novel Scholes emphasis in *Textual Power* is indicated by the book's subtitle After a provocative analysis of disciplinary values and departmental tendencies he proposes that we must stop teaching literature and start studying texts His book is essential for college libraries R C Gebhardt Choice There is no issue more current more relevant to the present scene than the problem of pedagogy and its relation to contemporary theory *Textual Power* is an important provocative and above all useful contribution to this discussion Gregory L Ulmer Robert Scholes author of *Structuralism in Literature and Semiotics and Interpretation* among other books is Alumni Alumnae University Professor of English and Comparative Literature at Brown University *New Critical Approaches to the Short Stories of Ernest Hemingway* Jackson J. Benson, 2013-07-12 With an Overview by Paul Smith and a Checklist to Hemingway Criticism 1975 1990 *New Critical Approaches to the Short Stories of Ernest Hemingway* is an all new sequel to Benson's highly acclaimed 1975 book which provided the first comprehensive anthology of criticism of Ernest Hemingway's masterful short stories Since that time the availability of Hemingway's papers coupled with new critical and theoretical approaches has enlivened and enlarged the field of American literary studies This companion volume reflects current scholarship and draws together essays that were either published during the past decade or written for this collection The contributors interpret a variety of individual stories from a number of different critical points of view from a Lacanian reading of Hemingway's *After the Storm* to a semiotic analysis of *A Very Short Story* to an historical biographical analysis of *Old Man at the Bridge* In identifying the short story as one of Hemingway's principal thematic and technical tools this volume reaffirms a focus on the short story as Hemingway's best work An overview essay covers Hemingway criticism published since the last volume and the bibliographical checklist to Hemingway short fiction criticism which covers 1975 to mid 1989 has doubled in size Contributors Debra A Modellmog Ben Stotzfus Robert Scholes Hubert Zapf Susan F Beegel Nina Baym William Braasch Watson Kenneth Lynn Gerry Brenner Steven K Hoffman E R Hagemann Robert W Lewis Wayne Kvam George Monteiro Scott Donaldson Bernard Oldsey Warren Bennett Kenneth G Johnston Richard McCann Robert P Weeks Amberys R Whittle Pamela Smiley Jeffrey Meyers Robert E Fleming David R Johnson Howard L Hannum Larry Edgerton William Adair Alice Hall Petry Lawrence H Martin Jr Paul Smith *The Rise and Fall of English* Robert Scholes, 2008-10-01 In this lucid book an eminent scholar teacher and author takes a critical look at the nature and direction of English studies in America Robert Scholes offers a thoughtful and witty intervention in current debates about educational and cultural values and goals showing how English came to occupy its present place in our educational system diagnosing the educational illness he perceives in today's English departments and recommending

theoretical and practical changes in the field of English studies Scholes's position defies neat labels it is a deeply conservative expression of the wish to preserve the best in the English tradition of verbal and textual studies yet it is a radical argument for reconstruction of the discipline of English The book begins by examining the history of the rapid rise of English at two American universities Yale and Brown at the end of the nineteenth and beginning of the twentieth century Scholes argues that the subsequent fall of English discernible today in college English departments across the United States is the result of both cultural shifts and changes within the field of English itself He calls for a fundamental reorientation of the discipline away from political or highly theoretical issues away from a specific canon of texts and toward a canon of methods to be used in the process of learning how to situate compose and read a text He offers an eloquent proposal for a discipline based on rhetoric and the teaching of reading and writing over a broad range of literatures a discipline that includes literariness but is not limited to it Dialogue and Difference Peter Brooker, Peter Humm, 2013-10-08 First Published in 2002 Routledge is an imprint of Taylor Francis an informal company **The English Department** W. Ross Winterrowd, 1998 To understand the history of English Ross Winterrowd insists one must understand how literary studies composition rhetoric studies and influential textbooks interrelate Stressing the interrelationship among these three forces Winterrowd presents a history of English studies in the university since the Enlightenment The Palgrave Handbook of Digital and Public Humanities Anne Schwan, Tara Thomson, 2022-11-04 This handbook brings together recent international scholarship and developments in the interdisciplinary fields of digital and public humanities Exploring key concepts theories practices and debates within both the digital and public humanities the handbook also assesses how these two areas are increasingly intertwined Key questions of access ownership authorship and representation link the individual sections and contributions The handbook includes perspectives from the Global South and presents scholarship and practice that engage with a multiplicity of underrepresented publics including LGBTQ communities ethnic and linguistic minorities the incarcerated and those affected by personal or collective trauma Chapter The Role of Digital and Public Humanities in Confronting the Past Survivors of Ireland's Magdalene Laundries Truth Telling is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) *Using Literature to Teach English as a Second Language* Membrive, Veronica, Armie, Madalina, 2020-05-22 Innovation has replaced stereotypical and old methods as an attempt to make English language teaching and learning appealing effective and simple However teaching a second language through literature may be a paramount tool to consolidate not only students lexical and grammatical competences but also for the development of their cultural awareness and broadening of their knowledge through interaction and collaboration that foster collective learning Despite past difficulties literature's position in relation to language teaching can be revindicated and revalued Using Literature to Teach English as a Second Language is an essential research publication that exposes the current state of this methodological approach and observes its reverberations usefulness strengths and

Seitz, 2010-06-15 Despite urgent calls for reform composition literature and creative writing remain territorial competitive fields This book imagines ways in which the three English camps can reconnect Seitz contends that the study of metaphor can advance curriculum reform precisely because of its unusual institutional position By pronouncing equivalence in the very face of difference metaphor performs an irrational discursive act that takes us to the nexus of textual social and ideological questions that have stirred such contentious debate in recent years over the function of English studies itself As perhaps the most radical yet also quotidian means by which language negotiates difference metaphor can help us to think about the politics of identification and the curricular movements such a politics has inspired **Writing about Literature - Second Edition** W.F.
