Thackeray's original intention in writing it was to criticize the Newgate school of crime fiction exemplified by Bulwer Lytton and Harrison Ainsworth whose works Thackeray felt glorified criminals **Thackeray at Work** J. A. Sutherland, 2014-01-13

The study of Thackeray's major fiction reconstructs the novelist's working methods with the help of manuscript material much of it previously unpublished The book's main argument is directed against the commonplace view that Thackeray was in some way a careless artist Much that appears casual or unpremeditated in his work can in fact be explained by the mode of composition which he developed in response both to the publishing conditions of his age and to his own artistic temperament An appreciation of Thackeray's writing habits helps clear up much of the critical confusion which has surrounded his reputation in the last hundred years A particular feature of interest in the book is the use made of Thackeray's preparatory working materials These were widely dispersed after the writer's death and have never been comprehensively examined The Fitz-boodle Papers William Makepeace Thackeray, 2015-07-20
