That Near Distant Pl:

Some Far and Distant Place Jonathan S. Addleton, 2010-07-01 Born in Pakistan to Baptist missionaries from rural Georgia Jonathan S Addleton crossed the borders of race culture class and religion from an early age Some Far and Distant Place combines family history social observation current events and deeply personal commentary to tell an unusual coming of age story that has as much to do with the intersection of cultures as it does with one man s life Whether sharing ice cream with a young Benazir Bhutto or selling gospel tracts at the tomb of a Sufi saint Addleton provides insightful and sometimes hilarious glimpses into the Muslim Christian encounter through the eyes of a young child His narrative is rooted in many unlikely sources including a southern storytelling tradition Urdu ghazal revivalist hymnology and the Anglican Book of Common Prayer The natural beauty of the Himalayas also leaves a strong and lasting mark providing solidity in a confusing world that on occasion seems about to tilt out of control This clear eyed insightful memoir describes an experience that will become increasingly more common as cultures that once seemed remote and distant are no longer confined within the bounds of a single nation state *The New Practical Navigator ...* John Hamilton Moore, 1800 **Encyclopædia Britannica, Or, A Dictionary of Arts and Sciences** , 1771 Nautical Almanac and Astronomical Ephemeris , 1840 **The Nautical Almanac and Astronomical Ephemeris for the Year ...** , 1853 India Directory, Or, Directions for Sailing to and from the East Indies, China, New Holland, Cape of Good Hope, Brazil, and the Interjacent Ports James Horsburgh, 1817

Encyclopaedia Britannica , 1810 For Love of the Automobile Wolfgang Sachs, 2023-12-22 In his cultural analysis of the motor car in Germany Wolfgang Sachs starts from the assumption that the automobile is more than a means of transportation and that its history cannot be understood merely as a triumphant march of technological innovation Instead Sachs examines the history of the automobile from the late 1880s until today for evidence on the nature of dreams and desires embedded in modern culture Written in a lively style and illustrated by a wealth of cartoons advertisements newspaper stories and propaganda this book explores the nature of Germany s love affair with the automobile A history of our desires for speed wealth violence glamour progress and power as refracted through images of the automobile it is at once fascinating and provocative Sachs recounts the development of the automobile industry and the impact on German society of the marketing and promotion of the motor car As cars became more affordable and more common after World War II advertisers fanned the competition for status refining their techniques as ownership became ever more widespread Sachs concludes by demonstrating that the triumphal procession of private motorization has in fact become an intrusion The grand dreams once attached to the automobile have aged Sachs appeals for the cultivation of new dreams born of the futility of the old ones dreams of a society liberated from progress in which location distance and speed are reconceived in more appropriately humane dimensions In his cultural analysis of the motor car in Germany Wolfgang Sachs starts from the assumption that the automobile is more than a means of transportation and that its history cannot be understood merely as a

triumphant march of technological innovation **First American, from the thirteenth English edition ... improved ... revised and corrected ... To which are added, some general Instructions and information to Merchants ... and others concerned in Navigation, relative to the Mercantile and Maritime Laws and Customs, etc. [Edited by E. M. Blunt.]** John Hamilton MOORE, 1799 *The Practical Navigator, and Seaman's New Daily Assistant* John Hamilton Moore, 1776
