That Wilder Image:

Aesthetic Transcendentalism in Emerson, Peirce, and Nineteenth-Century American Landscape Painting Nicholas Guardiano, 2016-12-21 Aesthetic Transcendentalism is a philosophy endorsing the qualitative and creative aspects of nature. Theoretically it argues for a metaphysical dimension of nature that is aesthetically real, pluralistic, and prolific. It directs our attention to the rich complexity of immediate experience, the possibility of discovering new aesthetic features about the world, and the transformative potential of art as an organic expression. This book presents the philosophy in its relationship to its historical roots in the philosophic and artistic traditions of nineteenth-century North America. In this multidisciplinary study, Nicholas L. Guardiano brings together a philosophic and literary figure in Ralph Waldo Emerson, the scientifically minded philosopher Charles S. Peirce, and the plastic arts in the form of American landscape painting. Guardiano evaluates this constellation of philosophers and artists in global perspective as it relates to other historical theories of metaphysics and aesthetics while simultaneously performing a cultural analysis that identifies an essential feature of the American mind. Aesthetic Transcendentalism thus possesses abiding significance for our vital interactions with nature, daily experiences, and contemplations of great works of art. *Aesthetic Transcendentalism in Emerson, Peirce, and Nineteenth-Century American Landscape Painting* will be of interest to scholars of American philosophy and American art history, especially specialists of Charles S. Peirce, Ralph Waldo Emerson, and the Hudson River School painters. It will also appeal to philosophers working on systematic metaphysical theories of nature.

Scenes of Nature, Signs of Men Tony Tanner, 1989-08-25 This book is about the relationship of the American writer to his land and language, to the scene and the sign, to the natural landscape and the inscriptions imposed upon it by men. Among the questions considered in the first section of the book are: how does American Romantic writing differ from European? what are the peculiar problems faced by the American artist, and what roles does he adopt to tackle them? what kind of writing results when authors as different as Henry Adams and Mark Twain lament the vanishing of an earlier America, or when Adams and Henry James review their complex relationship to their homeland, or when W. D. Howells and Stephen Crane seek to define their themes in a specifically American setting? The second section of the book examines similar concerns in a number of contemporary writers, notably Thomas Pynchon, John Barth, Donald Barthelme, John DeLillo, and William Gass.

[A Seamless Web](#) Cheryll May, 2014-03-17 In recent years, American art scholars have increasingly focused on the importance of cross-cultural exchanges during the nineteenth century. As essayist François Brunet puts it, mid-nineteenth-century landscapes were transnational, permeated by complex transactions where American originality produced itself not only in imitation of or reaction against European influences but as critical mirroring and incorporating of European images. Articles in this collection make clear that the conversation of cultures went both ways, with American artworks and culture also affecting European artistic and literary practice. Essays explore the transnational origin of many types of American artworks, from stained glass windows which usually copied their European originals with great

exactitude to paintings and sculptures using distinctly American motifs such as the Puritan and the cowboy to distinguish American art students from their Parisian masters It also examines American cultural icons particularly the American Indian appropriated by European writers artists and philosophers to embody primeval wisdom A distinguished international group of scholars including Brunet Robert Rydell and Peter Gibian offer valuable perspectives on the ever broadening field of transnational cultural studies *New York: A Bicentennial History (States and the Nation)* Bruce Bliven Jr.,1981-03-17 From the Big Apple to Niagara Falls the state of New York has always had enormous fascination for Americans From the Empire State have come major influences on almost every aspect of American life Particularly advantageous landforms and waterways enabled the explorers and settlers and entrepreneurs of early New York to move ahead of others and the strategic location of New York City with its outstanding harbor also helped the state reach dominance But as the author of this book shows almost from the beginning on the tip of Manhattan Island New York has benefited from the varied talents of successive influxes of diverse ethnic and racial groups In conflict though they often were they have also been a source of the state's cultural richness and economic strength *Asher B. Durand: An Engraver's and a Farmer's Art* ,1983 *Laura Ingalls Wilder and Rose Wilder Lane* John E. Miller,2008-12-03 The mother daughter partnership that produced the Little House books has fascinated scholars and readers alike Now John E Miller one of America's leading authorities on Laura Ingalls Wilder and Rose Wilder Lane combines analyses of both women to explore this collaborative process and shows how their books reflect the authors distinctive views of place time and culture Along the way he addresses the two most controversial issues for Wilder Lane aficionados how much did Lane actually contribute to the writing of the Little House books and what was Wilder's real attitude toward American Indians Interpreting these writers in their larger historical and cultural contexts Miller reconsiders their formidable artistic political and literary contributions to American cultural life in the 1930s He looks at what was happening in 1932 from depression conditions and politics to chain stores and celebrity culture to shed light on Wilder's life and he shows how actual little houses established ideas of home that resonated emotionally for both writers In considering each woman's ties to history Miller compares Wilder with Frederick Jackson Turner as a frontier mythmaker and examines Lane's unpublished history of Missouri in the context of a contemporaneous project Thomas Hart Benton's famous Jefferson City mural He also looks at Wilder's Missouri Ruralist columns to assess her pre Little House values and writing skills and he readdresses her literary treatment of Native Americans A final chapter shows how Wilder's and Lane's conservative political views found expression in their work separating Lane's more libertarian bent from Wilder's focus on writing moralist children's fiction These nine thoughtful essays expand the critical discussion on Wilder and Lane beyond the Little House Miller portrays them as impassioned and dedicated writers who were deeply involved in the historical changes and political challenges of their times and contends that questions over the books authorship do not do justice to either woman's creative investment in the series Miller demystifies the aura of nostalgia that often prevents modern readers from

American Paintings Metropolitan Museum of Art (New York, N.Y.),1965 *Hawthorne's Visual Artists and the Pursuit of a Transatlantic Aesthetics* Kumiko Mukai,2008 Among Hawthorne s primary themes the visual arts have usually been regarded as an afterthought and have only been examined to elucidate his own personal philosophy Hawthorne s own contemporaries derided him for his mediocre aesthetics and that view has been taken as received wisdom up to the present day This study reexamines Hawthorne s aesthetics and suggests that he was much more familiar with the art and artists of the time than has previously been acknowledged by critics He developed his own eclectic and transatlantic view of art a view which incorporated decorative arts like embroidery while maintaining a modest estimation of his own talents This book examines the full range of visual artists whom Hawthorne portrays It argues that these portrayals illuminate the artist s dilemma of being fettered by New England Puritanism while at the same time being attracted to the richness and depth of both Victorian aesthetics and the artistic sense of Old World Catholicism The ambiguous destinies of his artist characters include misunderstandings and disputes while at the same time they suggest a reconciliation of the conflicting sentiments and transatlantic perspectives of the writer himself Concrete and Clay Matthew Gandy,2003-08-29 An interdisciplinary account of the environmental history and changing landscape of New York City In this innovative account of the urbanization of nature in New York City Matthew Gandy explores how the raw materials of nature have been reworked to produce a metropolitan nature distinct from the forms of nature experienced by early settlers The book traces five broad developments the expansion and redefinition of public space the construction of landscaped highways the creation of a modern water supply system the radical environmental politics of the barrio in the late 1960s and early 1970s and the contemporary politics of the environmental justice movement Drawing on political economy environmental studies social theory cultural theory and architecture Gandy shows how New York s environmental history is bound up not only with the upstate landscapes that stretch beyond the city s political boundaries but also with more distant places that reflect the nation s colonial and imperial

legacies Using the shifting meaning of nature under urbanization as a framework he looks at how modern nature has been produced through interrelated transformations ranging from new water technologies to changing fashions in landscape design Throughout he considers the economic and ideological forces that underlie phenomena as diverse as the location of parks and the social stigma of dirty neighborhoods
