That's Revolting! That's Revolting! Pasha Malla, 2010-11 Ten years ago one might not have imagined the largest national gay rights lobbying group Human Rights Campaign endorsing a right wing Republican Senatorial candidate Al D Amato in New York or the San Francisco Pride parade adopting the Budweiser advertising slogan as its official theme 2002 As an assimilationist gay mainstream wields increasing power the focus of gay struggle has become limited to marriage military service and adoption The gay mainstream presents a sanitized straight friendly version of gay identity which makes it safe for Richard Chamberlain or Rosie O Donnell to come out and still rake in the bucks By the twisted priorities of this gay mainstream it s okay to oppose a queer youth shelter because it might interfere with property values or to fight against the inclusion of transgendered people under hate crimes legislation because this might not appeal to straight voters As the gay mainstream ironically prioritizes the attainment of straight privilege over all else it drains queer identity of any meaning relevance or cultural value and calls this progress That s Revolting shows us what the new queer resistance looks like The collection is a fistful of rocks to throw at the glass house of Gaylandia That s Revolting uses queer identity and struggle as a starting point from which to reframe reclaim and re shape the world *The Ashgate Research Companion to Lesbian and Gay Activism* David Paternotte, Manon Tremblay, 2016-03-03 The Ashgate Research Companion to Lesbian and Gay Activism provides scholars and students with a comprehensive and authoritative state of the art review of the current research in this subject Each of the 22 specially commissioned chapters develops and summarises their key issue or debate in relation to activism that is the claims strategies and mobilisations including internal debates and divisions impediments and state responses of the lesbian and gay movement By drawing together leading scholars from political science sociology anthropology and history this companion provides an up to the minute snapshot of current scholarship as well as signposting several fruitful avenues for future research This book is both an invaluable resource for scholars and an indispensable teaching tool for use in the classroom **Queer Retrosexualities** Nishant Shahani, 2012 Queer Retrosexuality The Politics of Reporative Return analyzes the cultural theoretical and political value of thinking about retrospection in conjunction with queerness It historically grounds and exemplifies the call for a more reparatively informed queer theory in its contextualization of

reparation through the return to the 1950s The book thus contributes and furthers some of the dynamic conversations around the politics of queer temporality and historiography

Safe Space Christina B. Hanhardt, 2013-12-04 Winner 2014 Lambda Literary Award in LGBT Studies Since the 1970s a key goal of lesbian and gay activists has been protection against street violence especially in gay neighborhoods During the same time policymakers and private developers declared the containment of urban violence to be a top priority In this important book Christina B Hanhardt examines how LGBT calls for safe space have been shaped by broader public safety initiatives that have sought solutions in policing and privatization and have had devastating effects along race and class lines Drawing on extensive archival and ethnographic research in New York City and San Francisco Hanhardt traces the entwined histories of LGBT activism urban development and U S policy in relation to poverty and crime over the past fifty years She highlights the formation of a mainstream LGBT movement as well as the very different trajectories followed by radical LGBT and queer grassroots organizations Placing LGBT activism in the context of shifting liberal and neoliberal policies *Safe Space* is a groundbreaking exploration of the contradictory legacies of the LGBT struggle for safety in the city

Writing Shame Mitchell Kaye Mitchell, 2019-11-01 Examines the intersection of shame gender and writing in contemporary literature Considers the particular intersection of shame gender and writing in literature produced since the 1990s Views shame as a constitutive factor in the social construction and experience of femininity Analyses a diverse range of texts from pulp to literary fiction to life writing and autofiction with a self reflexive focus on the formal disjunctions produced by in the writing of shame and on the shame attending the act of writing itself Offers political readings of neglected genres lesbian pulp fiction highly topical texts like Kraus s *I Love Dick* and Knausgaard s *My Struggle* and established authors such as Mary

Gaitskill A M Homes Rupert Thomson Through readings of an array of recent texts literary and popular fictional and autofictional realist and experimental this book maps out a contemporary Western shame culture It unpicks the complex triangulation of shame gender and writing and intervenes forcefully in feminist and queer debates of the last three decades Starting from the premise that shame cannot be overcome or abandoned and that femininity and shame are utterly and necessarily imbricated Writing Shame examines writing that explores and inhabits this state of shame considering the dissonant effects of such explorations on and beyond the page **The Politics of Right Sex** Courtenay W.

Daum,2020-08-01 Examines the limitations of rights based mobilization and litigation for advancing the interests of trans individuals in the contemporary United States While the growing attention to trans rights and the development of trans specific interest groups suggest that the time is right for a trans rights movement akin to prior civil rights movements The Politics of Right Sex explores the limitations of rights based mobilization and litigation for advancing the interests of trans communities Synthesizing critical theory transgender studies and extant law and society research Courtenay W Daum argues that trans individuals particularly those situated at the intersection of gender race class and immigration status are regulated by myriad forces of governmentality that work to maintain the sex and gender binaries and associated power hierarchies Because many informal practices and norms are located beyond the reach of civil rights laws a trans politics of rights may produce some modest legal and legislative reforms but will not eliminate the disciplinary forces that work to subject trans individuals It will also privilege those who are able to conform with dominant gender norms at the expense of the interests of those individuals who are gender nonconforming gender queer trans people of color and others unable or unwilling to embrace a transnormative presentation of self and or lifestyle In order to disrupt the dominant discourse and hierarchical power arrangements in pursuit of collective liberation for all as opposed to rights for some The Politics of Right Sex advocates for a more confrontational approach that directly engages and challenges the hegemonic power structures that govern and discipline trans individuals *The Routledge Research Companion to Geographies of Sex and Sexualities* Gavin Brown,Kath Browne,2016-05-20 Comprehensive and authoritative this state of the art review both charts and develops the rich sub discipline geographies of sexualities exploring sex gender sexuality and sexual practices Emerging from the desire to examine differences and exclusions as a key aspect of human geographies these geographies have engaged with heterosexual and queer lesbian gay bi and trans lives Developing thinking in this area geographers and other social scientists have illustrated the centrality of place space and other spatial relationships in reconstituting sexual practices representations desires as well as sexed bodies and lives This book reviews the current state of the field and offers new insights from authors located on five continents In doing so the book seeks to draw on and influence core debates in this field as well as disrupt the Anglo American hegemony in studies of sexualities sexes and geographies This volume is the definitive collection in the area bringing together many international leaders in the field alongside scholars that are well established outside the Anglophone

academy and many emerging talents who will lead the field in the decades to come
