Brown, 2013-11-07 At the beginning of the twentieth century Burma was among the most prosperous territories in the East

Yet since gaining independence in 1948 its economy has struggled Burma's developmental failure has often been attributed to gross mismanagement of the economy by the military who took power in 1962 but in this illuminating book Ian Brown one of the leading economic historians of Southeast Asia provides a fresh examination of the country's economic past thereby setting that failure in the context of the colonial period For the first time a review of Burma's economic experience in the final decades of British rule is integrated with an analysis of its economy since independence providing a detailed understanding of the complex origins of Burma's economic failure in the second half of the twentieth century This is a compelling introduction to Burma's political and economic history for students in Southeast Asian history development studies and political science

Burma's Saffron Revolution United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on East Asian and Pacific Affairs,2008 *Eyewitness to Early Reform in Myanmar* Trevor

Wilson,2016-03-17 By 2000 a ruthless military regime had ruled Myanmar for more than a decade polarising opinion inside and outside Burma Myanmar with Western countries locked into non UN sanctions and Asian countries and the rest of the world locked into unenthusiastic cooperation with Myanmar While the United Nations and its agencies faced numerous obstacles as they sought to encourage national reconciliation in Myanmar conditions in Myanmar were slowly starting to change With a reform faction in charge the military regime itself after 1999 slowly began experimenting with modest changes before committing in 2008 to transfer power via a constitutional referendum and national elections both of which it effectively controlled This book provides the first eyewitness account of the early reform experiments

The Politics of Federalization in Myanmar Dulyapak Preecharush,2023-02-24 This book examines the trajectory of federalization in Myanmar's political development evaluating the attitudes of different political actors toward and negotiation strategies for designing federalism It argues that three factors drive federalization in Myanmar namely constitutionalization conflict management and democratization The confluence of these forces arrived at a critical juncture in 2011 the start of Myanmar's political transition leading to significant changes in Myanmar's federation process By analyzing the changes and continuities in federalism building the book charts the dynamic pathway toward Myanmar's current federalization revealing how periods of progress and stagnation reflect varying world views and the individual strategies of prominent political actors Offering a systematic conceptual framework on federalism in Myanmar this will be a useful resource for students and scholars of Political Science Comparative Politics and Southeast Asian Politics

Civil Resistance and Democracy Promotion Michael Schulz,2023-04-14 This book examines transnational civil society based democracy promoting resistance activities in Asia in a global era focusing on the cases of Myanmar and Palestine The work contributes to our understanding of the nexus between globalization power and democracy by examining i the ways in which globalization global governance are influencing various resistance practices of the civil societies in Myanmar and Palestine and what this means for local democracy promotion and ii the ways in which these two civil societies influence and have a democracy promoting impact on

their respective communities It is guided by the overarching question of how civil society based resistance contributes to local democracy in Myanmar and Palestine The book is structured as follows both civil resistance cases begin with an overview of each country s non violent resistance history and the findings are then presented for the two cases i e the pro democracy movements in the Saffron uprising in Myanmar and the Bil'in village struggle against the Israeli Security Barrier plans to build through their farmlands Then follows a presentation of the life story interview made with two members from the respective campaigns A concluding chapter proposes some new theoretical insights for how civil resistance can impact on democracy The book empirically and theoretically contributes to our understanding of how civil society based resistance and democracy interrelate in a global era This book will be of much interest to students of civil resistance democracy Asian studies Middle Eastern studies and international relations in general
