The 31 Initiatives A Study In Air Force Army Cooperation:

The 31 Initiatives Richard G. Davis, 1987 This monograph analyzes US military air power US Army relations from 1907 to the present It emphasizes one aspect of those relations how air forces intended for the tactical support of ground forces can best be controlled and integrated into the overall ground battle After a review of changing air ground relationships from 1907 to 1982 this work examines the 31 Initiatives the most recent US Army US Air Force agreement on developing joint combat forces and battlefield cooperation It also discusses the process behind the formulation of the 31 Initiatives and discusses how that process provides one example of the introduction of innovation or change into a military organization In addition this work details the immediate and longer term response of the two services to the Initiatives The importance of this monograph is twofold It supplies a case study of innovation and more significantly it places the 31 Initiatives in their place as the far reaching and comprehensive end product of a decade of Air Force Army cooperation *The 31 Initiatives: a Study in Air Force - Army Cooperation* Richard G Davis, Richard Harding Davis, 2012-06-05 Throughout U S military history the establishment has worked to integrate air power into its doctrine strategy force structure and tactics in order to maximize the nation s security This study highlights one aspect of this process providing the most potent mix of army and air forces to prosecute ground warfare It also illustrates the impediments of joint action created by the services separate organizations and distinctive doctrine Office of Air Force History United States Air Force The 31 Initiatives Office of Air Force History, U.S. Air Force, 2015-01-27 For the past eighty years the US military establishment has worked to integrate air power into its doctrine strategy force structure and tactics in order to maximize the nation s security This study by Dr Richard Davis highlights one aspect of this process that of providing the most potent mix of army and air forces to prosecute ground warfare It also illustrates the impediments to joint action created by the services separate organizations and distinctive doctrine In addition this monograph suggests that changes to improve interservice cooperation are often either forced by combat or imposed from the top down by the highest levels of the service or defense hierarchies In World War II Korea and Vietnam the services developed weapons and systems that brought air power to bear on the battlefield in a relatively quick and overwhelmingly powerful manner Without the impetus of war however the services seem often to fall back on their broader agenda of preparation for future war In the case of the 1980s intervention by the Chiefs of the Air Force and Army Staffs forced increased cooperation for battlefield synchronization and integration In this instance the two Chiefs recognized the need and acted Generals Gabriel and Wickham aided by their deputies for plans and operations Lieutenant Generals John T Chain Jr and Fred K Mahaffey set up a small ad hoc group bypassing their own services formal staff structure to fabricate a new method of mutual force development including cross service budgeting and programming procedures The Chiefs adopted the group s recommendations as the foundation of a continuing joint force development process **The 31 Initiatives: A Study in Air Force-Army Cooperation** Richard G. Davis, 1987 This monograph analyzes

US military air power US Army relations from 1907 to the present It emphasizes one aspect of those relations how air forces intended for the tactical support of ground forces can best be controlled and integrated into the overall ground battle After a review of changing air ground relationships from 1907 to 1982 this work examines the 31 Initiatives the most recent US Army US Air Force agreement on developing joint combat forces and battlefield cooperation It also discusses the process behind the formulation of the 31 Initiatives and discusses how that process provides one example of the introduction of innovation or change into a military organization In addition this work details the immediate and longer term response of the two services to the Initiatives The importance of this monograph is twofold It supplies a case study of innovation and more significantly it places the 31 Initiatives in their place as the far reaching and comprehensive end product of a decade of Air Force Army cooperation

The 31 Initiatives United States Air Forces, 2015-07-08 The importance of this monograph is twofold It supplies a case study of innovation and more significantly it places the 31 Initiatives in their place as the farreaching and comprehensive end product of a decade of Air Force Army cooperation Because of the 31 Initiatives positive impact on joint Air Force Army battlefield capability and their visibility as an example of biservice harmony this study should be of value to professional military educators staff officers wishing to learn more about specific initiatives and their context and finally to future Air Force leaders concerned about change within the service and about the background of biservice relationships

Air Force History Publications Air Force History and Museums Program (U.S.), 2008 *West Point Graduates and the United States Air Force* Charles F.G. Kuyk, Jr., Charles F.G. Kuyk III, 2020-06-29 West Point graduates played a central role in developing U S military air and space power from the earliest days of mechanized flight through the establishment of the U S Air Force in 1947 and continuing through the Persian Gulf War These graduates served at a time when the world s greatest wave of technological advancement occurred in aviation nuclear weapons rocketry ICBMs computers satellite systems in inner space and man in outer space This history traces the advancement of weapons and space technology that became the hallmark of the U S Air Force and the pivotal role that West Point graduates played in integrating them into a wide variety of Air Force systems and programs Many became aircraft commanders test pilots astronauts and later in their careers general officers who helped shape and implement technologies still in use today

United States Air Force History Publications Air Force History and Museums Program (U.S.), 2000 Strategic Air Power in Desert Storm John Andreas Olsen, 2013-11-05 In response to the Iraqi invasion of Kuwait on the second of August 1990 a small group of air power advocates in the Pentagon proposed a strategic air campaign Operation Desert Storm designed to drive the Iraqi army from Kuwait by a sustained effort against the major sources of Iraqi national power John Andreas Olsen provides a coherent and comprehensive examination of the origins evolution and implementation of this campaign His findings derive from official military and political documentation interviews with United States Air Force officers who were closely involved with the planning of the campaign and Iraqis with detailed knowledge and experience of

the inner workings of the Iraqi regime The History of North American Small Gas Turbine Aircraft Engines Richard A. Leyes, William A. Fleming, 1999 This landmark joint publication between the National Air and Space Museum and the American Institute of Aeronautics and Astronautics chronicles the evolution of the small gas turbine engine through its comprehensive study of a major aerospace industry Drawing on in depth interviews with pioneers current project engineers and company managers engineering papers published by the manufacturers and the tremendous document and artifact collections at the National Air and Space Museum the book captures and memorializes small engine development from its earliest stage Leyes and Fleming leap back nearly 50 years for a first look at small gas turbine engine development and the seven major corporations that dared to produce market and distribute the products that contributed to major improvements and uses of a wide spectrum of aircraft In non technical language the book illustrates the broad reaching influence of small turbines from commercial and executive aircraft to helicopters and missiles deployed in recent military engagements Detailed corporate histories and photographs paint a clear historical picture of turbine development up to the present See for yourself why The History of North American Small Gas Turbine Aircraft Engines is the most definitive reference book in its field The publication of The History of North American Small Gas Turbine Aircraft Engines represents an important milestone for the National Air and Space Museum NASM and the American Institute of Aeronautics and Astronautics AIAA For the first time there is an authoritative study of small gas turbine engines arguably one of the most significant spheres of aeronautical technology in the second half o
