The Aam Guide To Collections Planning:

The AAM Guide to Collections Planning James B. Gardner, Elizabeth E. Merritt, 2004 This AAM guide will help your museum create a collections plan The authors discuss building an intellectual framework writing the plan itself the planning process and the challenges of museum politics Page 4 of cover Stewardship: Collections and Historic Preservation Cinnamon Catlin-Legutko, Stacy Klingler, 2011-11-16 Proper collections care planning and conservation is an essential responsibility for a museum of any size but funding for these obligations often falls to the bottom of funding priorities because its constituencies are the quietest Small museums need affordable ways to provide basic care for their collections and the tools to lobby for additional funds for the long term health of collections Small museums often do not have staff expertise on the maintenance and preservation of these large and expensive pieces of history This book offers practical tips for collections care including preservation strategies for historic properties and a primer on managing potential harms to your artifacts **Collection Conundrums** Rebecca A. Buck, Jean Allman Gilmore, 2023-12-21 Collection Conundrums Solving Museum Registration Mysteries provides guidelines for investigating the oddities found in every museum collection objects without record identification or sometimes even a location and determining what to do Written by registrars Rebecca Buck and Jean A Gilmore editors of the best selling The New Museum Registration Methods this new volume contains essential information for museums large and small new and old The text offers solutions to the problems of old loans undocumented objects found in collections items lost in inventory supplementary collections and more as well as guidelines on how to keep problems from occurring in the first place Features a history of registration methods and the standards for collection documentation and care along with sample documents such as loan agreements co tenancy agreements storage agreements and deed of gift Recommended for everyone involved in collections planning and management **Think Like a Curator** Donna R. Braden, 2025-04-01 Most history museums large and small indoor and outdoor have a staff member with the title of curator or at minimum have tasks that can be classified as curator s work But understanding what is involved in doing this work is more complicated than it seems This book will help you to think like a curator Written by an author who has spent 45 years doing this type of work at one of the largest history museums in the country this book guides the reader through curatorial methodology in today s world with topics that include reading objects shaping collections engaging in rigorous research the curatorial role in exhibitions and historic site interpretation the basics of curatorial writing and curators as leaders It gives special focus to applying DEAI lenses as well as aligning with institutional mission and goals incorporating audience perspectives and using conceptual and systems thinking Both succinct and substantial this book includes easy explanations step by step process guides practical tips real life examples activities and source lists Museum Practice Conal McCarthy, 2020-11-19 MUSEUM PRACTICE Edited by CONAL MCCARTHY Museum Practice covers the professional work carried out in museums and art galleries of all types including the core functions of management

collections exhibitions and programs Some forms of museum practice are familiar to visitors yet within these diverse and complex institutions many practices are hidden from view such as creating marketing campaigns curating and designing exhibitions developing fundraising and sponsorship plans crafting mission statements handling repatriation claims dealing with digital media and more Focused on what actually occurs in everyday museum work this volume offers contributions from experienced professionals and academics that cover a wide range of subjects including policy frameworks ethical guidelines approaches to conservation collection care and management exhibition development and public programs From internal processes such as leadership governance and strategic planning to public facing roles in interpretation visitor research and community engagement and learning each essential component of contemporary museum practice is thoroughly discussed

Managing Previously Unmanaged Collections Angela Kipp, 2024-11-19 This book is a practical guide for everyone who is confronted with a collection that hasn't seen any preventive conservation or cataloging before It helps gaining an overview defining priorities and organizing the work in a way it is safe for the objects and the people involved It defines logical exits goals to work towards where the collection is in a state the next steps can wait without risking the progress made Later on readers learn to define their own logical exits that fit their specific situation Compared to other books about collections management it doesn't focus on the details of collections care but rather on the big picture of managing such a project It assumes that at the beginning there is nothing but the reader and an unmanaged collection so that part of the project is to source money material and people to help The second edition has a new chapter on setting up collections management systems the original text was reworked and in parts enhanced there are additional success stories in the last chapter with references to them in the text and the bibliography now contains some resources for natural history indigenous and archaeological collections

The International Handbooks of Museum Studies, 4 Volume Set Sharon Macdonald, Helen Rees Leahy, 2015-07-20 The International Handbooks of Museum Studies is a multi volume reference work that represents a state of the art survey of the burgeoning field of museum studies Featuring original essays by leading international museum experts and emerging scholars readings cover all aspects of museum theory practice debates and the impact of technologies The four volumes in the series divided thematically offer in depth treatment of all major issues relating to museum theory historical and contemporary museum practice mediations in art design and architecture and the transformations and challenges confronting the museum In addition to invaluable surveys of current scholarship the entries include a rich and diverse panoply of examples and original case studies to illuminate the various perspectives Unprecedented for its in depth topic coverage and breadth of scholarship the multi volume International Handbooks of Museum Studies is an indispensable resource for the study of the development roles and significance of museums in contemporary society

Museum Basics Timothy Ambrose, Crispin Paine, 2018-03-14 This fourth edition of Museum Basics has been produced for use in the many museums worldwide that operate with few professional staff and limited resources The fourth edition has been fully updated

to reflect the many changes that have taken place in museums around the world over the last six years Drawing from a wide range of practical experience the authors provide a basic guide to all aspects of museum work from audience development and learning through collections management and conservation to museum management and forward planning Museum Basics is organised on a modular basis with over 100 units in eight sections It can be used both as a reference work to assist day to day museum management and as the key textbook for pre service and in service museum training programmes where it can be supplemented by case studies project work and group discussion This edition includes over 100 diagrams to support the text as well as a glossary sources of information and support and a select bibliography Museum Basics is also supported by its own companion website which provides a wide range of additional resources for readers Museum Basics aims to help the museum practitioner keep up to date with new thinking about the function of museums and their relationships with the communities they serve The training materials provided within the book are also suitable for pre service and in service students who wish to gain a full understanding of work in a museum Things Great and Small John E.
