This book is the first authoritative account of the German Military Service and an important contribution to the history of the Second World War. Printed by Hitler's Espionage Machine Christer Jörgensen, 2004. An in-depth study of all the varied facets of the Nazi intelligence apparatus ranging from the dreaded Gestapo to the daring Brandenburg battalions through to the SD under the Central Security Service of the Reich. *Military Intelligence*, 1991. World War II in Europe David T. Zabecki, 2015-05-01. World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall. This encyclopedia offers a focused overview of this complex and volatile era, the circumstances that led up to war, the underlying causes, its unfolding and consequences. Organized for quick and precise access. More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation. All the key ideas, events, actions, weapons, individuals, and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Corps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight. Covers important neglected subjects. The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia. A key section inspects and rates all the major weapons with handy tables for easy comparison. And in recognition of the first large-scale participation of women in the war, the volume thoroughly documents their individual and unit contributions to the Allied effort. Finally, the encyclopedia discusses battlefield realities that explain, for example, why the airborne drops at Normandy succeeded and the ones at Arnheim failed. A bibliography, glossary, maps, photographs, and weapons and data tables enhance the coverage. Also includes 16 maps. *Ben Macintyre's Espionage Files* Ben Macintyre, 2012-11-18. Agent Zigzag. One December night in 1942, a Nazi parachutist landed in a Cambridgeshire field. His mission: to sabotage the British war effort. His name was Eddie Chapman, but he would shortly become MI5's Agent Zigzag. Dashing and louche, courageous and unpredictable, inside the traitor was a hero, inside the villain a man of conscience. The problem for Chapman, his many lovers, and his spymasters was knowing where one ended and the other began. Ben Macintyre weaves together diaries, letters, photographs, memories, and top secret MI5 files to create the exhilarating account of Britain's most sensational double agent. Operation Mincemeat. One overcast April morning in 1943, a fisherman notices a corpse floating in the sea off the coast of Spain. When the body is brought ashore, he is identified as a British soldier, Major William Martin of the Royal Marines. A leather attaché case secured to his belt reveals an intelligence goldmine: top secret documents, Allied invasion plans. But Major William Martin never existed. The body is that of a dead Welsh tramp, and every single document is fake. Operation Mincemeat is the incredible true story of the most extraordinary deception ever planned by Churchill's spies: an outrageous lie that travelled from a Whitehall basement all the way to Hitler's desk. Double Cross. D-Day, 6 June 1944, the turning point of the Second World War, was a victory of arms. But it was also a triumph for a different kind of operation: one of deceit. At the heart of the deception was the Double Cross System, a team of double agents whose

bravery treachery greed and inspiration succeeded in convincing the Nazis that Calais and Norway not Normandy were the targets of the 150 000 strong Allied invasion force These were not conventional warriors but their masterpiece of deceit saved thousands of lives Their codenames were Bronx Brutus Treasure Tricycle and Garbo This is their story
