The Hejaz Railway And The Muslim Pilgrimage A Case Of Ottoman Political Propaganda:

The Hejaz Railway and the Muslim Pilgrimage Jacob M. Landau, 2016-04-06 This book first published in 1971 details the Muhammad rif manuscript which propagates the project of the Hejaz railway connecting Damascus with Medina and Mecca The project has been seen as a specific dramatic example of the phenomenon of growing Arab nationalism during the early years of the twentieth century Included here is an annotated edition of the Arabic manuscript an English translation and an extensive introduction with notes and historical setting The rif manuscript gives a clear view of the struggle for reform in Turkey at the time when burgeoning Arab nationalism became an important factor in the railway project Many aspects of Middle Eastern politics can be traced to basic factors described in the manuscript by rif The Hejaz Railway and the Ottoman Empire Murat Özyüksel, 2014-10-22 Railway expansion was symbolic of modernization in the late 19th century and Britain Germany and France built railways at enormous speed and reaped great commercial benefits In the Middle East railways were no less important and the Ottoman Empire s Hejaz Railway was the first great industrial project of the 20th century A route running from Damascus to Mecca it was longer than the line from Berlin to Baghdad and was designed to function as the artery of the Arab world linking Constantinople to Arabia Built by German engineers and instituted by Sultan Abdul Hamid II the railway was financially crippling for the Ottoman state and the its eventual stoppage 250 miles short of Mecca the railway ended in Medina was symbolic of the Ottoman Empire s crumbling economic and diplomatic fortunes This is the first book in English on the subject and is essential reading for those interested in Industrial History Ottoman Studies and the geopolitics of the Middle East before World War I **Image and Imperialism in the Ottoman Revolutionary Press, 1908-1911** Palmira Johnson Brummett, 2000-03-02 This work of cultural history is drawn against the backgrounds of Ottoman European relations and press history It shows how Ottoman cartoonists merged the literary and artistic cultures of East and West through comparisons to the press production and art of Europe India Latin America and the Middle East In doing so it intersects with the broader set of studies in European history the implications of modernity and the rhetorical use of images BOOK JACKET *Muslim Europe* Gavin Murray-Miller, 2024-12-15 Europe and the Islamic world have shared a long and conflicted history From the Middle Ages to the global War on Terror the image of two civilizations perpetually at war has endured However a closer look at the past suggests this was not always the case Muslim Europe follows the lives of imperialists journalists and Muslim activists who attempted to challenge the idea of two opposing civilizations locked in eternal conflict Rich in detail it tells the stories of English officials who once declared Britain the greatest Muslim power on the face of the earth and recounts the extraordinary political campaign that saw a French Muslim elected to the National Assembly against all odds The age of empire brought Islam into European public life like never before inspiring Muslims on the continent to take to the press and mount political movements guided by desires for greater social recognition In chronicling the forgotten history of Europe s early Muslim communities across empires Muslim Europe proposes a new

history for Europe highlighting the contributions made by Muslim subjects and citizens in search of a more just and tolerant society

Losing Istanbul Mostafa Minawi, 2022-12-06 *Losing Istanbul* offers an intimate history of empire following the rise and fall of a generation of Arab Ottoman imperialists living in Istanbul. Mostafa Minawi shows how these men and women negotiated their loyalties and guarded their privileges through a microhistorical study of the changing social, political, and cultural currents between 1878 and the First World War. He narrates lives lived in these turbulent times, the joys and fears, triumphs and losses, pride and prejudices, while focusing on the complex dynamics of ethnicity and race in an increasingly Turco-centric imperial capital. Drawing on archival records, newspaper articles, travelogues, personal letters, diaries, photos, and interviews, Minawi shows how the loyalties of these imperialists were questioned and their ethnic identification weaponized. As the once diverse empire comes to an end, they are forced to give up their home in the imperial capital. An alternative history of the last four decades of the Ottoman Empire, *Losing Istanbul* frames global pivotal events through the experiences of Arab Ottoman imperial loyalists who called Istanbul home on the eve of a vanishing imperial world order.

Science among the Ottomans Miri Shefer-Mossensohn, 2015-10-15 Scholars have long thought that following the Muslim Golden Age of the medieval era, the Ottoman Empire grew culturally and technologically isolated, losing interest in innovation and placing the empire on a path toward stagnation and decline. *Science among the Ottomans* challenges this widely accepted Western image of the nineteenth and early twentieth century Ottomans as backward and impoverished. In the first book on this topic in English in over sixty years, Miri Shefer-Mossensohn contends that Ottoman society and culture created a fertile environment that fostered diverse scientific activity. She demonstrates that the Ottomans excelled in adapting the inventions of others to their own needs and improving them. For example, in 1877 the Ottoman Empire boasted the seventh longest electric telegraph system in the world; indeed, the Ottomans were among the era's most advanced nations with regard to modern communication infrastructure. To substantiate her claims about science in the empire, Shefer-Mossensohn studies patterns of learning, state involvement in technological activities, and Turkish and Arabic speaking Ottomans who produced, consumed, and altered scientific practices. The results reveal Ottoman participation in science to have been a dynamic force that helped sustain the six hundred year empire.

The Development Century Stephen J. Macekura, Erez Manela, 2018-09-06 *The Development Century* offers cutting edge perspectives on how international development has shaped the global history of the modern world.

Guests of God Robert Bianchi, 2008-03-25 Each year about two million pilgrims from over 100 countries converge on the Islamic holy city of Mecca for the hajj. While the hajj is first and foremost a religious festival, it is also very much a political event. No government can resist the temptation to manipulate the hajj for political and economic gain. Every large Muslim state has developed a comprehensive hajj policy and a powerful bureaucracy to enforce it. The Muslim world's leading multinational organization, the Organization of the Islamic Conference, has established the first international regime explicitly devoted to pilgrimage. Yet Robert Bianchi argues no secular or religious authority, national or international, can really control

the hajj State sponsored pilgrimage management consistently backfires giving government opponents valuable ammunition and allowing them to manipulate the symbols and controversies of the hajj to their own ends Bianchi has been researching the hajj for over ten years and draws on interviews with and data from hajj directors in five Muslim countries Pakistan Malaysia Turkey Indonesia and Nigeria statistics from Saudi Arabian hajj authorities as well as his personal experience as a pilgrim The result is the most complete picture of the hajj available anywhere and a wide ranging work on Islam politics and power

Frontiers of the State in the Late Ottoman Empire Eugene L. Rogan, 2002-04-11 A theoretically informed account of how the Ottoman state redefined itself during the last decades of empire *Historical Dictionary of Turkey* Metin Heper, Nur Bilge Criss, 2009-01-21 Turkey is both an old and a new country While the Turks have been living in Anatolia for the last millennium the country has gone through extensive Westernization since the end of the 18th century However in the case of Turkey tradition has not arrested modernization rather the traditional has adapted itself to the modern The revival of Islam and the emergence of certain ethnic identities during the recent decades have not led to the reversal of progress in the economy and democracy There is a thriving private sector and the economy continues to grow At the turn of the 21st century Turkey is the only Muslim country with a democratic political system Although Turkey belongs to both the West and the East its Western credentials are more marked It is a member of the Council of Europe North Atlantic Treaty Organization NATO and Organization for Economic Cooperation and Development OECD and it is presently carrying out negotiations with the European Union EU for accession to that Union as a full member The third edition of the *Historical Dictionary of Turkey* explores the history of this fascinating country through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions as well as on significant political economic social and cultural aspects
