The Universal God R. William Davies,2011-07-12 There is no available information at this time Tao Teh King Lao

Tzu,1996 Widely recognized as one of the world's great literary classics Tao Teh King is one of the simplest yet most profound interpretations of man and nature As a religion it provides one of the sanest and most enduring of the major religions of mankind Interpreted here by one of the foremost Western scholars of Eastern philosophies **The Tao Te Ching (Dao De Jing)** Gordon J. Van De Water,2010-12-01 For twenty years Gordon J Van De Water has collected editions of the world classic the Tao Te Ching and pondered this ancient yet still vibrant Chinese text of wisdom literature Written in the sixth century before the Common Era and ascribed to Lao Tzu a venerable sage it offers a guide to life based on adherence to the Tao or Mother Nature those forces and powers that govern and shape both the world and human nature Its eighty one verses repeatedly emphasize seeking harmony through simplicity the rejection of the trappings of material wealth and the arrogance of power and identification with the great underlying forces of the universe Many of the verses also offer practical wisdom for those in leadership positions So fascinating has been the compressed wisdom of the Tao Te Ching that it has been translated into many languages more often than any other book except the Bible Van De Water has sought to strike to the heart of this highly compressed and often enigmatic text by creating a plain English version that highlights the continuing relevance of the Tao Te Ching for our complex and oft troubled times His interpretation also includes an introduction selected translations and interpretations in English by pioneering scholars and an extensive bibliography of translations and interpretations in English *Dao De Jing* Lao Zi,2017-11-16 Dao De Jing or so simply referred to as the Laozi is a Chinese classic text The text's true authorship and date of composition or compilation are still debated The oldest excavated portion dates back to the late 4th century BCE but modern scholarship dates other parts of the text as having been written or at least compiled later than the earliest portions of the Zhuangzi The Tao Te Ching along with the Zhuangzi is a fundamental text for both philosophical and religious Taoism and strongly influenced other schools such as Legalism Confucianism and Chinese Buddhism which when first introduced into China was largely interpreted through the use of Daoist words and concepts Many Chinese artists including poets painters calligraphers and even gardeners have used the Daodejing as a source of inspiration Its influence has also spread widely outside East Asia and it is among the most translated works in world literature *Behind the Great Wall* James Whitlark,1991 This work explores what lies behind the fantastic barrier in a borderland that C G Jung called the unconscious the avant garde writer Kafka termed incomprehensible and Whitlark argues is an entire spectrum of muted awareness **The Secret Sayings of Ye Su** Jay G. Williams,2004-12 The Secret Sayings of Ye Su A Silk Road Gospel provides a translation of introduction to and commentary upon an extraordinary previously unknown manuscript This Christian gospel though written in koine Greek was obviously influenced by both Buddhist and Daoist ideas and probably derives from Tang dynasty China 8th or 9th century The account of how the manuscript emerged in 1994 and how it came to be translated by Dr Jay G Williams is in itself quite fascinating The author also describes the nature of the text and why he thinks it should be placed in the Tang dynasty period He provides a concise introduction not

only to the history of Buddhism and the indigenous religions of China during this period but also to the Religion of Light a form of Christianity that entered China in 638 A D The work ends with a line by line commentary on each of the seventy two verses of this gospel Although undoubtedly ancient the work seems amazingly contemporary in its ideas offering a unique and quite radical vision of Ye Su Jesus and his teachings Neither orthodox nor gnostic The Secret Sayings comments about such topics as the place of women and gays within the community the nature of the kingdom and the source of Christian hope in the Source Although faith is emphasized doctrines and dogmas are not A place is found for both the Heavenly Father and the Earthly Mother but alone neither is regarded as ultimate The fellowship of believers is emphasized but value of the Church as an institution is seriously questioned The Encyclopedia of Eastern Philosophy and Religion Gert

Woerner,Stephan Schuhmacher,1994-05-10 With more than four thousand entries and over one hundred illustrations this encyclopedia offers a complete survey of the four major religious traditions of Asia It is designed not only for students and scholars but also to help general readers find their way through the thicket of unfamiliar words and concepts that are often encountered today in various fields such as the health professions psychotherapy the sciences and the media Among the subjects covered are Important terms such as chakra karma koan nirvana tantra Tao and yin yang The lives and teachings of mystics philosophers and masters of meditation Basic texts and scriptures Sects and schools of thought Mythological figures and events In addition pronunciation tables a comprehensive bibliography and a Ch an Zen Lineage Chart are provided
