Gyrfalcon Norman Barichello,2020-03-13 Gyrfalcons and humans have shared a remarkable relationship since prehistoric times These extraordinary arctic falcons have been revered coveted as an item of commerce persecuted and enjoyed as a spectacle of sport for at least ten thousand years Today climate change has brought new challenges with habitat in the far north changing rapidly as natural cycles begin to break down Drawn from over thirty years of study and observation this in depth study provides a comprehensive view of the gyrfalcon s place in the arctic ecosystem including their inextricable link to their primary pray the ptarmigan and their antagonistic relationship with golden eagles It explores the connection the bird has had with humanity in both legend and practice and the challenges it faces as its habitat continues to change This definitive look at the gyrfalcon shows us both sides of the majestic bird the master of its domain and a threatened species facing an uncertain future
