Reconstructing Illness Anne Hunsaker Hawkins,1999 Serious illness and mortality those most universal unavoidable and frightening of human experiences are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times As modern medicine has become more scientific and dispassionate a new literary genre has emerged pathography the personal narrative concerning illness treatment and sometimes death Hawkins's sensitive reading of numerous pathographies highlights the assumptions attitudes and myths that people bring to the medical encounter One factor emerges again and again in these case studies the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease Pathography allows the individual person a voice one that asserts the importance of the experiential side of illness and thus restores the feeling thinking experiencing human being to the center of the medical enterprise Recommended for medical practitioners the clergy caregivers students of popular culture and the general reader *Reconstructing Illness* demonstrates that only when we hear both the doctor's and the patient's voice will we have a medicine that is truly human **Lessons in Living** Susan L. Taylor,2010-05-19 At long last here is the paperback edition of beloved columnist and author Susan L Taylor's bestselling collection of spiritual writings on overcoming the challenges of everyday life Revealing the spiritual lessons Susan has learned first hand from grappling with the challenges and difficulties in her own life *Lessons in Living* is a celebration of the journey of life that has already become a classic Written in the anecdotal style that has made Susan's *In the Spirit* column the most popular feature of *Essence* magazine *Lessons in Living* addresses the themes that have been her unique territory for over a decade self empowerment the exploration of love and self worth and issues of faith and commitment *Facing Cancer Together* Pamela N. Brown,1999 You hear that a friend has cancer You want to help but you're not entirely sure how Pamela Brown a cancer survivor suggests the many ways you can help by your words and actions In addition to a wealth of practical suggestions *Facing Cancer Together* includes entries from the author's journals as well as Bible readings and prayers to share for support and comfort *Gratitude* Louise L. Hay and Friends,Louise L. Hay,2009-08-31 Dr Wayne W Dyer Joan Z Borysenko Lee Carroll Sri Daya Mata Doreen Virtue Bernie Siegel M D Dan Millman John Randolph Price and others share their understanding of the practice of gratitude **Controversies in the Practice of Medicine** Myrna Chandler Goldstein,Mark A. Goldstein MD,2001-06-30 From the medical use of marijuana to organ donations to animal testing the medical profession is rife with controversial issues Students and teachers can now use this reference resource to explore all sides of these issues Narrative chapters each one devoted to a specific topic encourage students to consider all the facts surrounding the various controversies Case studies and first person accounts bring the issues to life and concluding questions for each chapter challenge students to use their critical thinking skills to draw their own conclusions This

collection provides historical as well as contemporary contexts for an examination of government structures in the United States and the states of the former U S S R Throughout the contributors look at federalism at both local and national levels and they try to assess how and why the two systems developed as they did Each of the fifteen chapters analyzes the pro and con arguments and current status of a specific controversy illuminating the philosophical dilemmas faced by medical professionals as well as their patients and the general public as a whole The Goldsteins present opposing arguments on the sources and nature of each controversy providing readers with an understanding of the causes and effects of medical controversies This basic introduction to these many different issues including among others the arguments surrounding a need for national health insurance the arguments surrounding the ethics of cloning the arguments surrounding the needs and dangers of childhood vaccinations and the arguments surrounding end of life issues will provide a starting ground for students interested in researching these topics further while also encouraging them to begin dialogues with their peers to help them develop their ability to analyze complicated issues
