compromised safety and wrecked performance but also resulted in financial melt down In this acclaimed book an update to his earlier work Broken Rails Christian Wolmar reveals the causes of the collapse of the railway system following the Hatfield accident barely five years after John Major's ill thought out privatisation On the Wrong Line goes on to expose the failure of New Labour to get to grips with the legacy it inherited from the Tories and raises wider issues about the competence of the Blair government This book with a new preface for the eBook edition serves as a valuable reminder of the risks of privatising a single state owned service and splitting it into many competing entities each linked by contracts rather than a shared service ethos Unfortunately this lesson does not appear to have been learned by the Coalition Government which seems dedicated to destroying first the National Health Service the way the Tories wrecked the railways and then doing the same to education Finally in an appendix this new edition contains a never before published three page statement written by Sir John Major on the privatisation of the railways a subject he never mentions once in his autobiography

The Locomotive, Railway Carriage & Wagon Review ,1919 **Forget the Anorak** Michael G Harvey,2011-11-08 Michael Harvey's book brings to its readers the excitement of trainspotting in the 1950s and 60s the hobby's heyday It was the advent of the famous Ian Allan ABC Locospotters books that really gave the hobby its impetus as they gave trainspotters all the information they required Forget the Anorak sets out to provide the reader with a personal account of what the hobby entailed teenagers roaming the railways of Britain sleeping on deserted platforms on porters' trolleys bunking dimly lit depots and eluding capture travelling hundreds of miles on a platform ticket and stink bombs on the Underground You'll be able to smell the steam soot and unwashed socks and taste the boiled egg sandwiches the chips wrapped in newspaper and the hot jam doughnuts all washed down with warm Tizer Illustrated with Michael Harvey's own photographs and a selection of maps Forget the Anorak appeals to anyone who experienced the golden days of trainspotting as well as to anyone interested in the social history of Britain after the Second World War

Western Diesel Hydraulic Locomotives in Preservation Fred Kerr,2022-07-28 When British Railways initiated its Modernisation Plan in 1955 its Western Region elected to trial locomotive designs with hydraulic transmission whilst BR encouraged designs with electric transmission The Western Region felt that the lighter weight of 78 tons for a diesel hydraulic locomotive producing 2000 hp compared to an equivalent weight of 132 tons for a diesel electric locomotive producing 2000 hp would better meet BR's requirement for a modern locomotive BR's failure to follow up with its declared policy of having all freight vehicles fitted with brakes saw operators preferring the heavier diesel electric designs which proved more able to operate trains without through brakes at higher speed The greatest concern was with operating costs whereby the Western Region policy of replacing components at the depot then transferring them to Swindon for repair incurred heavy costs that were reflected in the maintenance cost per locomotive Given the smaller number of diesel hydraulic locomotives and the larger number of diesel electric locomotives it was little surprise that

by the mid 1960s a cost comparison showed that the build and operation of diesel electric locomotives was increasingly cheaper over the long term Furthermore the increased availability of diesel electric locomotives released by a combination of factors provided an opportunity to replace the diesel hydraulic fleet which was withdrawn from service during the 1970s The preservation of redundant locomotives was slow but once it was confirmed by the preservation of Hymek Class 35 D7017 in 1975 that public appeals could quickly fund the preservation of withdrawn examples further public appeals followed In a short space of time 31 locomotives from a mixed fleet of 358 locomotives entered preservation to remind both enthusiasts and the public of a concept i e hydraulic transmission that had had much to offer but had been dismissed on questionable financial grounds

Great Western, Grange Class Locomotives David Maidment,2019-03-30 The renowned British railroad historian delivers a well illustrated account of the rationale behind Collett s construction of this 80 strong class West Somerset Railway Association English railway engineer George Jackson Churchward proposed a 5ft 8in wheeled 4 6 0 for mixed traffic duties in 1901 and it was seriously considered in 1905 but it took until 1936 before his successor Charles Collett realized the plan by persuading the GWR Board to replace many of the 43XX moguls with modern standard mixed traffic engines that bore a remarkable likeness to the Churchward proposal David Maidment has written another in his series of Locomotive Portfolios for Pen enthusiasts for whom these capable machines are favorites will definitely want this volume on the bookshelf Railway Modeller

A Privileged Journey David Maidment,2015-06-30 A Privileged Journey Volume 1 1940 1962 is a personal and individual account of the author youthful enthusiasm for trains and the travels he undertook in Great Britain and on the European continent as a student and management trainee of British Railways It is illustrated by over 140 black and white photos mostly taken by the author himself as a boy and student The chapters cover the emergence of the young boy s interest in steam locomotives in particular through his trainspotting days to his numerous journeys in the late 1950s and early 1960s with many accounts of locomotive performance supported by an extensive appendix of train logs Some of the chapters are much extended narratives from articles serialised in the UK enthusiast magazine Steam World over the last decade and are also based on ten hours of verbal interviews recorded by the UK National Railway Museum at York as part of their Oral History archives supported by a UK National Lottery Grant The second volume to be published at a later date covering the period from 1962 to the current time will describe his continuing interest and records while pursuing his career as stationmaster area manager train planner Regional operating manager and finally Head of Safety before his retirement in 1996 and subsequent career as an international railway safety consultant
