Dragonsdawn Anne McCaffrey, 2002-02-26 NEW YORK TIMES BESTSELLER Go back in time and visit Pern like it s never been seen before in this thrilling prequel about the creation of dragons The beautiful planet Pern seemed a paradise to its new colonists until unimaginable terror turned it into hell Suddenly deadly spores were falling like silver threads from the sky devouring everything and everyone on their path It began to look as if the colony cut off from Earth and lacking the resources to combat the menace was doomed Then some of the colonists noticed that the small

dragonlike lizards that inhabited their new world were joining the fight against Thread breathing fire on it and teleporting to safety If only they thought the dragonets were big enough for a human to ride and intelligent enough to work as a team with a rider And so they set their most talented geneticist to work to create the creatures Pern so desperately needed Dragons
