Monthly Catalog of United States Government Publications, Cumulative Index United States. Superintendent of Documents, 1976 **Monthly Catalog of United States Government Publications** United States. Superintendent of Documents, 1982 From Casual Stargazer to Amateur Astronomer Dave Eagle, 2013-10-16 The beginning astronomical observer passes through a series of stages The initial stage is hugely exciting and gives the beginner a real buzz as he discovers some of the faint fuzzy objects markings on the planets rings around Saturn and the craters on the Moon But as the novice observer progresses he or she wants to know what more there is than looking at faint fuzzy blobs or indistinct planet markings Many jump to the conclusion wrongly that they need to spend lots of money on expensive equipment to progress From Casual Stargazer to Amateur Astronomer has been written specifically to address this group of budding stargazers Astronomy is much more than a quick sightseeing tour Patient observers who can develop their skills will start to appreciate what they are seeing and will know exactly what to look out for on any particular night And equally important they will learn what not to expect to see From Casual Stargazer to Amateur Astronomer is for those who want to develop observing skills beyond mere sightseeing and learn some of the techniques used to carry out enjoyable and scientifically useful observations It will also direct readers to make informed choices about what can be seen and when This book is for anyone keen to develop their skills as an amateur astronomer The Transient Radio Sky Evan Francis Keane, 2011-07-16 The high time resolution radio sky represents unexplored astronomical territory This thesis presents a study of the transient radio sky focussing on millisecond scales As such the work is concerned primarily with neutron stars In particular this research concentrates on a recently identified group of neutron stars known as RRATs which exhibit radio bursts every few minutes to every few hours After analysing neutron star birthrates a re analysis of the Parkes Multibeam Pulsar Survey is described which has resulted in the discovery of 19 new transient radio sources Of these 12 have been seen to repeat and a follow up campaign of observations has been undertaken These studies have greatly increased our knowledge of the rotational properties of RRATs and enable us to conclude that they are pulsars with extreme nulling and or pulse to pulse modulation Although the evolution of neutron stars post supernova is not yet understood it seems that RRATs fit into the emerging picture in which pulsar magnetospheres switch between stable configurations **Monthly Catalogue, United States Public Documents** , 1980-10 *Monthly Catalog of United States Government Publications* , **Eye Beyond the Sky** Jie Wang, 2024-09-17 This book highlights stories of the most important 13 ground based observatories and 14 space probes in human history leading readers through each significant step of human s astronomical observation journey From the earliest Hooker Telescope and the Mount Wilson Observatory to the latest FAST JWST and DAMPE the targets of observation range from large systems such as the solar system the milky way and the universe to individual planets such as Jupiter Saturn Mars and the remote stars and to the matters that reveal the origin of the universe such as dark matter and cosmic background

radiation The book presents the mysteries of the sky in an easily readable manner suitable for audiences of all ages who are curious about the universe and thirsty to know all the important discoveries in the past century especially the last decade With carefully selected contents the book weaves together a series of tales to make the convoluted history of astronomical observation full offun and excitement ensuring that readers never lose interest during reading **High Speed Photometer Instrument Handbook** Robert C.
