Slavery And Rebellion In The Roman World 140 B C 70 B C

Michael Brown

Slavery And Rebellion In The Roman World 140 B C 70 B C:

Slavery and Rebellion in the Roman World, 140 B.C.-70 B.C. Keith R. Bradley, 1998 Bradley's study carefully analyses and describes the 3 major slave rebellions and uprisings that occurred during the period 140 B C to 70 B C His analysis examines the conditions that led the slaves to resist and how they maintained the rebellion Ancient Greece and Rome Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally **The War Economy of the Roman Republic**

(406-100 BCE) Fabrizio Biglino, 2024-11-04 How did the Roman economy support the expansion of the Republic and play a crucial role in its success and rise from regional power in Central Italy to the dominant superpower of the Mediterranean world To what extent did the intensification of the military efforts contribute to the growth of the Roman economy and how did this happen In **The War Economy of the Roman Republic** Fabrizio Biglino examines the growth of the Roman army and its economic impact from the late fifth to the end of the second centuries BCE By building an original interpretational framework Biglino offers a new analysis of the interplay of warfare and the economy in the Republican period and on a wider scale the role of warfare in the development of pre industrialised economies **The Topography of Violence in the**

Greco-Roman World Werner Riess, Garrett G. Fagan, 2016-06-15 What soldiers do on the battlefield or boxers do in the ring would be treated as criminal acts if carried out in an everyday setting Perpetrators of violence in the classical world knew this and chose their venues and targets with care killing Julius Caesar at a meeting of the Senate was deliberate That location asserted Senatorial superiority over a perceived tyrant and so proclaimed the pure republican principles of the assassins The contributors to **The Topography of Violence in the Greco Roman World** take on a task not yet addressed in classical scholarship they examine how topography shaped the perception and interpretation of violence in Greek and Roman antiquity After an introduction explaining the spatial turn in the theoretical study of violence paired chapters review political assassination the battlefield violence against women and slaves and violence at Greek and Roman dinner parties No other book either adopts the spatial theoretical framework or pairs the examination of different classes of violence in classical antiquity in this way Both undergraduate and graduate students of classics history and political science will benefit from the

collection as will specialists in those disciplines The papers are original and stimulating and they are accessible to the educated general reader with some grounding in classical history *Ancient Rome* Matthew Dillon, Lynda Garland, 2013-10-28 A companion volume to the highly successful and widely used *Ancient Greece* this Sourcebook is a valuable resource for students at all levels studying ancient Rome Lynda Garland and Matthew Dillon present an extensive range of material from the early Republic to the assassination of Julius Caesar Providing a comprehensive coverage of all important documents pertaining to the Roman Republic *Ancient Rome* includes source material on political developments in the Roman Republic 509-44 BC detailed chapters on social phenomena such as Roman religion slavery and freedmen women and the family and the public face of Rome clear precise translations of documents taken not only from historical sources but also from inscriptions laws and decrees epitaphs graffiti public speeches poetry private letters and drama concise up to date bibliographies and commentaries for each document and chapter a definitive collection of source material on the Roman Republic All students of ancient Rome and classical studies will find this textbook invaluable at all levels of study **Slavery and Society at Rome** Keith R. Bradley, 1994-10-13 This book first published in 1994 is concerned with discovering what it was like to be a slave in the classical Roman world *Slavery and Sexuality in Classical Antiquity* Deborah Kamen, C. W. Marshall, 2021-06-29 Slavery and sexuality in the ancient world are well researched on their own yet rarely have they been examined together Chapters address a wealth of art literature and drama to explore a wide range of issues including gendered power dynamics sexual violence in slave revolts same sex relations between free and enslaved people and the agency of assault victims **Triumphs in the Age of Civil War** Carsten Hjort Lange, 2016-08-11 Many of the wars of the Late Republic were largely civil conflicts There was therefore a tension between the traditional expectation that triumphs should be celebrated for victories over foreign enemies and the need of the great commanders to give full expression to their prestige and charisma and to legitimize their power *Triumphs in the Age of Civil War* rethinks the nature and the character of the phenomenon of civil war during the Late Republic At the same time it focuses on a key feature of the Roman socio-political order the triumph and argues that a commander could in practice expect to triumph after a civil war victory if it could also be represented as being over a foreign enemy even if the principal opponent was clearly Roman Significantly the civil aspect of the war did not have to be denied Carsten Hjort Lange provides the first study to consider the Roman triumph during the age of civil war and argues that the idea of civil war as normal reflects the way civil war permeated the politics and society of the Late Roman Republic **A Brief History of Slavery** Jeremy Black, 2011-08-18 A thought provoking and important book that raises essential issues crucial not only for understanding our past but also the present day In this panoramic history Jeremy Black tells how slavery was first developed in the ancient world and reaches all the way to the present in the form of contemporary crimes such as trafficking and bonded labour He shows how slavery has taken many forms throughout history and across the world from the uprising of Spartacus the plantations of the West Indies and the

murderous forced labour of the gulags and concentration camps Slavery helped to consolidate transoceanic empires and helped mould new world societies such as America and Brazil Black charts the long fight for abolition in the nineteenth century looking at both the campaigners as well as the harrowing accounts of the enslaved themselves Slavery is still with us today and coerced labour can be found closer to home than one might expect *Ancient History: Key Themes and Approaches* Neville Morley, 2002-09-09 *Ancient History Key Themes and Approaches* is a sourcebook of writings on ancient history It presents over 500 of the most important stimulating and provocative arguments by modern writers on the subject and as such constitutes an invaluable reference resource The first section deals with different aspects of life in the ancient world such as democracy imperialism slavery and sexuality while the second section covers the ideas of key ancient historians and other writers on classical antiquity Overall this book offers an invaluable introduction to the most important ideas theories and controversies in ancient history and a thought provoking survey of the range of views and approaches to the subject
