Slipper Orchids Of Borneo:

Slipper orchids of Borneo Phillip James Cribb, 2014 Slipper Orchids of Borneo Phillip Cribb, 1997 Slipper orchids of the genus *Paphiopedilum* vie with pitcher plants as Borneo's most spectacular plants. Sadly many are now rare in the wild and threatened with extinction. In this book the history, taxonomy, distribution and biology of these extraordinary plants are described. Illustrated throughout with all the species described pictured. **Malayan Orchid Review - Volume 49 (2015 Edition)** Gillian Su-wen Khew, 2015-12-28 The Malayan Orchid Review is an annual publication of the Orchid Society of South East Asia based in Singapore. Its coverage reflects the aims of the Society which include the advancement of orchid science and orchid conservation as well as orchid culture and appreciation. It also promotes the interests of hybridisers and commercial growers. The MOR covers reports on orchid shows around the region, new species and hybrid descriptions, articles on orchid biology, conservation and culture etc. It is the only comprehensive full colour orchid journal published in English in South East Asia. The New Encyclopedia of Orchids I. F. La Croix, 2008-01-01 The Infinitely Varied Orchid Family provides a never ending source of unusual plants in a range of shapes, colors, fragrances and sizes. As the demand for interesting and unusual species increases, so too does the need for a comprehensive reference on how to grow them. This encyclopedia, written by respected botanist Isobyl la Croix, offers detailed descriptions of 1500 cultivated species in 350 genera from *Acampe* to *Zygostates*. More than 1000 photographs will aid enthusiasts in choosing new plants for their collections as well as provide accurate ID. **Bradt Travel Guide - Borneo** Tamara Thiessen, 2008 Borneo's biodiversity is among the richest in the world. The first guide to focus on Malaysian Borneo and Brunei, this book gives full details on where and how to see the island's colourful flora and fauna. Tropical rainforest and rivers cover over 70% of Malaysian Borneo and this lush habitat is home to hundreds of unique species, from the jelly green snake and bearded pig to the proboscis monkey. Trek through one of the region's national parks or catch a glimpse of an orang utan. Traditional rural lifestyles, tribal influences and ethnic variety also offer the visitor a rewarding cultural experience. Take part in island festivities, spend the night in a longhouse or shop in the bustling markets. Borneo can provide for adventure travellers, divers and even sunbathers. Over 27 000 UK visitors travelled to Borneo in 2007, up 10% on the previous year. **Visual Celebration of Borneo's Wildlife** Fanny Lai, Bjorn Olesen, 2016-08-16 This Borneo wildlife pictorial offers nature lovers, visitors to Borneo and armchair explorers an unparalleled introduction to this mysterious treasure island. Illustrated with more than 350 images taken by Bjorn Olesen and other wildlife photographers, *A Visual Celebration of Borneo's Wildlife* is a photographic tribute to the most spectacular wildlife species on the second largest tropical island on Earth. It displays nature's beauty, revealing many private moments of the astonishing biodiversity of Borneo where nature runs riot. Based on the latest research, it is filled with captivating little known facts about the wildlife that modern day travelers may come across when visiting this enchanting island. It also describes the top 16 wildlife locations in Borneo with a comprehensive list of recommended reading, websites and blogs.

Deceptive Beauties Christian Ziegler,2011-10-30 Confucius called them the king of fragrant plants and John Ruskin condemned them as prurient apparitions Across the centuries orchids have captivated us with their elaborate exoticism their powerful perfumes and their sublime seductiveness But the disquieting beauty of orchids is an unplanned marvel of evolution and the story of orchids is as captivating as any novel As acclaimed writer Michael Pollan and National Geographic photographer Christian Ziegler spin tales of orchid conquest in *Deceptive Beauties* The World of Wild Orchids we learn how these flowers can survive and thrive in the harshest of environments from tropical cloud forests to the Arctic from semi deserts to rocky mountainsides how their shapes colors and scents are as Darwin put it beautiful contrivances meant to dupe pollinating male insects in the strangest ways What other flowers after all can mimic the

pheromones and even appearance of female insects so much so that some male bees prefer sex with the orchids over sex with their own kind And insects aren't the only ones to fall for the orchids charms Since the orchidelirium of the Victorian era humans have braved the wilds to search them out and devoted copious amounts of time and money propagating and hybridizing nurturing and simply gazing at them This astonishing book features over 150 unprecedented color photographs taken by Christian Ziegler himself as he trekked through wilderness on five continents to capture the diversity and magnificence of orchids in their natural habitats His intimate and astonishing images allow us to appreciate up close nature's most intoxicating and deceptive beauties *Orchids* ,1886 *The Orchid Digest* ,2023-04
