The Corn Wolf Michael Taussig, 2015-12 In the vein of his books *The Nervous System* and *Walter Benjamin's Grave* The Corn Wolf presents a collection of essays that capture well Michael Taussig's ongoing development trajectory as a writer and his recent move toward storytelling as theory The thrust in a nutshell is to extend and develop the contrast between the Nervous System style of writing writing that arises from what Taussig calls the bodily unconscious and what he now refers to as agribusiness writing a type of writing that strips ethnography not only of its capacity to surprise but also to connect with another world Taussig defends ethnography from agribusiness writing just as the corn wolf in Frazer's *Golden Bough* inspires and defends agricultural crops from the reapers A crucial aspect of this analogy is that the corn animal occupies the field protecting it from disease and disaster in short from profanation Taussig calls this apotropaic magic as opposed to the magic that transforms crops read ethnography into mere food read scholarly article or theory His essays explore the idea of occupation in a variety of contexts and meanings such as Palestine and Wall Street
