MULTIDISCIPLINARY VIEWS ON POPULAR CULTURE: Proceedings of the 5th International SELICUP

Conference Eduardo de Gregorio-Godeo, María del Mar Ramón-Torrijos, 2014-09-04 **Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929-1939**, The news media have given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939 a decade marked on the one hand by dictatorship civil war and Franco's rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions Mendelson begins with an examination of El Pueblo Español a model Spanish village featured at the 1929 International Exposition in Barcelona She then discusses Buñuel's and Dalí's documentary films relating them not only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities Her highly original book concludes with a discussion of the 1937 Spanish Pavilion where Picasso's famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau Based upon years of archival research Mendelson's book opens a new perspective on the cultural politics of a turbulent era in modern Spain It explores the little known yet rich intersection between avant garde artists and government institutions It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture **Pierre Bourdieu in Hispanic Literature and Culture** Ignacio M. Sánchez Prado, 2018-03-08 Pierre Bourdieu in Hispanic Literature and Culture is a collective reflection on the value of French sociologist Pierre Bourdieu's work for the study of Spanish and Latin American literature and culture The authors deploy Bourdieu's concepts in the study of Modernismo avant garde Mexico contemporary Puerto Rican literature Hispanism Latin American cultural production and more Each essay is also a contribution to the study of the politics and economics of culture in Spain and Latin America The book as a whole is in dialogue with recent methodological and theoretical interventions in cultural sociology and Latin American and Iberian studies **Contemporary Art and Capitalist Modernization** Octaviano Esanu, 2020-10-08 This book addresses the art historical category of contemporary art from a transregional perspective but unlike other volumes of its kind it focuses in on non Western instantiations of the contemporary The book concerns itself with the historical conditions in which a radically new mode of artistic production distribution and consumption called contemporary art emerged in some countries of Eastern Europe the post Soviet republics of the USSR India Latin America and the Middle East following both local and broader sociopolitical processes of modernization and neoliberalization Its main argument is that one cannot fully engage with the idea of the global contemporary without also paying careful attention to the particular local and or national symptoms of the contemporary condition Part I is methodological and theoretical in scope while Part II is historical and documentary For the latter a number of case studies address the emergence of the category

contemporary art in the context of Lebanon Egypt India Hungary Slovenia Croatia Bosnia and Herzegovina Armenia and Moldova The book will be of interest to scholars working in art history globalism cultural studies and postcolonial studies

Miniature Crafts and Their Makers Katrin Flechsig, 2022-07-12 Picture a throng of tiny devils and angels or a marching band so small it can fit in the palm of your hand In a Mixtec town in the Mexican state of Puebla craftspeople have been weaving palm since before the Spanish Conquest but over the past forty years that art has become more finely tuned and has won national acceptance in a market nostalgic for an authentic Indian past In this book Katrin Flechsig offers the first in depth ethnographic and historical examination of the miniature palm craft industry taking readers behind the scenes of craft production in order to explain how and why these folk arts have undergone miniaturization over the past several decades In describing this Lilliputization of Mexico she discusses the appeal of miniaturization revealing how such factors as tourism and the construction of national identity have contributed to an ongoing demand for the tiny creations She also contrasts the playfulness of the crafts with the often harsh economic and political realities of life in the community Flechsig places the crafts of Chigmecatitl n within the contexts of manufacturing local history religion design and technique and selling She tells how innovation is introduced into the craft such as through the modification of foreign designs in response to market demands She also offers insights into capitalist penetration of folk traditions the marketing of folk arts and economic changes in modern Mexico And despite the fact that the designations folk and Indian help create a romantic fiction surrounding the craft Flechsig dispels common misperceptions of the simplicity of this folk art by revealing the complexities involved in its creation More than thirty illustrations depict not only finished miniatures but also the artists and their milieu Today miniatures serve not only the tourist market middle class Mexicans also collect miniatures to such an extent that it has been termed a national pastime

Flechsigs work opens up this miniature world and shows us the extent to which it has become a lasting and important facet of contemporary Mexican culture **Crafting Mexico** Rick A. López, 2010-09-09 Examines the role of the vernacular arts in Mexicos transformation from a regionally and culturally fragmented country into a modern nation state with an inclusive and compelling national identity **Andean Archaeology II** Helaine Silverman, William H. Isbell, 2015-01-28 The origins and development of civilization are vital components to the understanding of the cultural processes that create human societies Comparing and contrasting the evolutionary sequences from different civilizations is one approach to discovering their unique development One area for comparison is in the Central Andes where several societies remained in isolation without a written language As a direct result the only resource to understand these societies is their material artifacts In this second volume the focus is on the art and landscape remains and what they uncover about societies of the Central Andes region The ancient art and landscape revealing the range and richness of the societies of the area significantly shaped the development of Andean archaeology This work includes discussions on pottery and textiles iconography and symbols ideology geoglyphs and rock art This volume will be of interest to Andean archaeologists cultural and historical anthropologists material archaeologists and Latin American historians **Cinesonidos** Jacqueline Avila, 2019-09-16 Author Jacqueline Avila looks at the ways that Mexican cinema and its music during the silent and early sound periods continuously reshaped the contested fluctuating space of Mexican identity functioning both as a sign and symptom of social and political change **Art and Revolution in Latin America, 1910-1990** David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process *Architectural Research Addressing Societal Challenges* Manuel Jorge Rodrigues Couceiro da Costa, Filipa Roseta, Joana Pestana Lages, Susana

Couceiro da Costa,2019-08-08 The escalating interdependency of nations drives global geopolitics to shift ever more quickly Societies seem unable to control any change that affects their cities whether positively or negatively Challenges are global but solutions need to be implemented locally How can architectural research contribute to the future of our changing society How has it contributed in the past The theme of the 10th EAAE ARCC International Conference Architectural Research Addressing Societal Challenges was set to address these questions This book Architectural Research Addressing Societal Challenges includes reviewed papers presented in June 2016 at the 10th EAAE ARCC International Conference which was held at the facilities of the Faculty of Architecture of the University of Lisbon The papers have been further divided into the following five sub themes a Changing Society In Transit Global Migration Renaturalization of the City Emerging Fields of Architectural Practice and Research on Architectural Education The EAAE ARCC International Conference held under the aegis of the EAAE and of the ARCC is a conference organized every other year in collaboration with one of the member schools universities of those associations alternatively in North America or in Europe

Women in Mexican Folk Art Eli Bartra,2013-12-15 The aim of this book is to engender Mexican folk art and locate women at its centre by studying the processes of creation distribution and consumption as well as examining iconographic aspects and elements of class and ethnicity from the perspective of gender The author will demonstrate that the topic provides unique insights into Mexican culture and has enormous relevance within and without the country given the fact that

much folk art is made for the United States and Europe either in terms of the tourists who buy it on coming to Mexico or that which is exported

Mexican National Identity William H. Beezley, 2008-05-29 In this enlightening book the well known historian William Beezley contends that a Mexican national identity was forged during the nineteenth century not by a self anointed elite but rather by a disparate mix of ordinary people and everyday events In examining independence festivals children s games annual almanacs and the performances of itinerant puppet theaters Beezley argues that these seemingly unrelated and commonplace occurrences not the far more self conscious and organized efforts of politicians teachers and others created a far reaching sense of a new nation In the century that followed Mexico s independence from Spain in 1821 Beezley maintains sentiments of nationality were promulgated by people who were concerned not with the promotion of nationalism but with something far more immediate the need to earn a living These peddlers vendors actors artisans writers publishers and puppeteers sought widespread popular appeal so that they could earn money According to Beezley they constantly refined their performances as well as the symbols and images they employed in order to secure larger revenues Gradually they discovered the stories acts and products that attracted the largest numbers of paying customers As Beezley convincingly asserts out of what sold to the masses a collective national identity slowly emerged Mexican National Identity makes an important contribution to the growing body of literature that explores the influences of popular culture on issues of national identity By looking at identity as it was fashioned in the streets it opens new avenues for exploring identity formation more generally not just in Mexico and Latin American countries but in every nation Check out the New Books in History

Writing Across Cultures Angel Rama, 2012-05-29 Angel Rama was one of twentieth century Latin America's most distinguished men of letters Writing across Cultures is his comprehensive analysis of the varied sources of Latin American literature Originally published in 1982 the book links Rama's work on Spanish American modernism with his arguments about the innovative nature of regionalist literature and it foregrounds his thinking about the close relationship between literary movements such as modernism or regionalism and global trends in social and economic development In Writing across Cultures Rama extends the Cuban anthropologist Fernando Ortiz's theory of transculturation far beyond Cuba bringing it to bear on regional cultures across Latin America where new cultural arrangements have been forming among indigenous African and European societies for the better part of five centuries Rama applies this concept to the work of the Peruvian novelist poet and anthropologist Jos Mar a Arguedas whose writing drew on both Spanish and Quechua Peru's two major languages and by extension cultures Rama considered Arguedas's novel *Los ríos profundos* Deep Rivers to be the most accomplished example of narrative transculturation in Latin America Writing across Cultures is the second of Rama's books to be translated into English

Art is an excellent resource for advanced students in Latin American culture and art. It is also a valuable reference for aspiring scholars in the field. Continuum Encyclopedia of Popular Music of the World: Caribbean and Latin America John Shepherd, 2003. See **Pampa Grande and the Mochica Culture** Izumi Shimada, 2010-07-05. Pampa Grande, the largest and most powerful city of the Mochica Moche culture on the north coast of Peru, was built, inhabited, and abandoned during the period A.D. 550-700. It is extremely important archaeologically as one of the few pre-Hispanic cities in South America for which there are enough reliable data to reconstruct a model of pre-Hispanic urbanism. This book presents a biography of Pampa Grande that offers a reconstruction not only of the site itself but also of the sociocultural and economic environment in which it was built and abandoned. Izumi Shimada argues that Pampa Grande was established rapidly and without outside influence at a strategic position at the neck of the Lambayeque Valley that gave it control over intervalley canals and their agricultural potential and allowed it to gain political dominance over local populations. Study of the site itself leads him to posit a large resident population made up of transplanted Mochica and local non-Mochica groups with a social hierarchy of at least three tiers.
