Christopher Rootes, 2003 Based upon an analysis of the protest events reported in one quality newspaper in each of eight countries during the ten years 1988 to 1997 this is the first systematically comparative study of environmental protest in a representative cross section of EU member states It breaks entirely new ground in the study of environmental politics in Europe and is a major contribution to the study of protest events

New Public Spheres Peter Thijssen, Walter Weyns, Sara Mels, 2016-04-29 The public sphere provides a domain of social life in which public opinion is expressed by means of rational discourse and debate Habermas linked its historical development to the coffee houses and journals in England Parisian salons and German reading clubs He described it as a bourgeois public sphere where private people come together and where they turn from a politically disempowered bourgeoisie into an effective political agent the public intellectual With communication networks being diversified and expanded over time the worldwide web has put pressure on traditional public spheres These new informal and horizontal networks shaped by the internet create new contexts in which an anonymous and dispersed public may gather in political e communities to reflect critically on societal issues These de centered modes of communication and influence seeking change the role of the traditional public intellectual and at first sight seem to make their contributions less influential What processes therefore influence changes within public spheres and how can intellectuals assert authority within them Should we speak of different types of intellectuals according to the different modes of public intellectual engagement This ground breaking volume gives a multi disciplinary account of

the way in which public intellectuals have constructed their role and position in the public sphere in the past and how they try to voice public concerns and achieve authority again within those fragmented public spheres today *Securitizing Immigration* Rens van Munster,2009-10-09 Securitizing Immigration deals with the growing concern for immigration as a matter of security at the EU level It combines an analysis of the way bureaucratic and political processes have interacted in the integration process with an analysis of how these practices are located in a context shaped by the preoccupation with risk

Media and the Cold War in the 1980s Henrik G. Bastiansen,Martin Klimke,Rolf Werenskjold,2018-11-08 The Cold War was a media phenomenon It was a daily cultural political struggle for the hearts and minds of ordinary people and for government leaders a struggle to undermine their enemies ability to control the domestic public sphere This collection examines how this struggle played out on screen radio and in print from the late 1970s through the early 1990s a time when breaking news stories such as Ronald Reagan s Star Wars program and Mikhail Gorbachev s policy of glasnost captured the world s attention Ranging from the United States to the Soviet Union and China these essays cover photojournalism on both sides of the Iron Curtain Polish punk Norwegian film Soviet magazines and more concluding with a contribution from Stuart Franklin one of the creators of the iconic Tank Man image during the Tiananmen Square protests By investigating an array of media actors and networks as well as narrative and visual frames on a local and transnational level this volume lays the groundwork for writing media into the history of the late Cold War *Environmental Movements* Christopher

Rootes,2014-06-23 Despite growing evidence of the universality of environmental problems and of economic and cultural globalization the development of a truly global environmental movement is at best tentative The dilemmas which confront environmental organizations are no less apparent at the global than at national levels This volume is a collection of 1990s research on environmental movements in western and southern Europe the US and the global arena *Alain Touraine* Jon Clark,Marco Diani,2013-12-19 First published in 2004 The seventeen essays in this volume discuss the work of Alain Touraine and consider his contribution to the social sciences The text includes his most recent thinkings on the market and communities *Stabilising Fragile Democracies* Paul Lewis,Geoffrey Pridham,2002-11-01 Political parties play a central if not the central political role in parliamentary democracies They are also likely to play a key role in the establishment of new parliamentary democracies This volume provides a systematic comparison of the democratic transitions in both Eastern and Southern Europe from this point of view There are four main themes concerning the role of parties that are examined coping with the past party identities and inheritances the formation and performance of new democratic political elites parties and alliances and their electoral behaviour These themes guide the case studies which are written in comparative perspective in four countries in both Southern and Eastern Europe The countries covered include Italy Spain Greece Portugal Hungary Romania Poland and Bulgaria Democratization is a very complex process but what the study of political parties does is to focus on an area that links many of them This book is intended to be a guide to students wishing to make sense of

democratization and the role of political parties in that process
