Social Circulation Of The Past English Historical Culture 1500 1730:

The Social Circulation of the Past Daniel R. Woolf, 2003 Woolf details here the ways in which English men and women first became seriously aware of and interested in their own and the world's past Previous works have focused exclusively on the writings of a small minority of historians yet through using a variety of manuscript and printed sources this study examines the wider historical culture within which historical and antiquarian studies could emerge *The Uses of History in Early Modern England* Paulina Kewes, 2006-11-15 Publisher Description **Earls Colne's Early Modern Landscapes** Dolly MacKinnon, 2016-04-29 The Essex village of Earls Colne boasts one of the most comprehensive collections of historical documents in Britain and has been the subject of an intensive and ongoing research project to collate and computerise the surviving records As such Earls Colne is undoubtedly one of the most studied parishes in England Yet whilst much is now known about the village and its inhabitants little work has been done on the social relationships that bound the community together within its mental and physical landscape As such scholars will welcome Dr MacKinnon's investigation into the social political and cultural world of early modern England as represented by Earls Colne The book provides a fresh approach to the study of the landscape of a seventeenth century village by focussing on the relationships between political power and cultural artefacts It examines how private public and communal spaces within society were generated gendered and governed and how this was recorded and perpetuated in the records names and monuments of the parish and surrounding landscape Yet whilst the elites tried to represent a select social landscape through their control of the local records and documents these attempts were always counterbalanced by the less powerful members of the community who occupied and contested these spaces By reconstructing the dynamics of Earls Colne through a careful reading and cross referencing of the surviving documents buildings and place names this book offers a fascinating insight into how the sights and sounds of early modern society were imbued with the social relations of parish politics As well as deepening our understanding of Earls Colne itself the book offers historians the potential to revisit other local studies from a fresh perspective *Geographies of Embodiment in Early Modern England* Mary Floyd-Wilson, Garrett A. Sullivan, 2020-04-15 *Geographies of Embodiment in Early Modern England* gathers essays from prominent scholars of English Renaissance literature and history who have made substantial contributions to the study of early modern embodiment historical phenomenology affect cognition memory and natural philosophy It provides new interpretations of the geographic dimensions of early modern embodiment emphasizing the transactional and dynamic aspects of the relationship between body and world The geographies of embodiment encompass both cognitive processes and cosmic environments and inner emotional states as well as affective landscapes Rather than always being territorialized onto individual bodies ideas about early modern embodiment are varied both in their scope and in terms of their representation Reflecting this variety this volume offers up a range of inquiries into how early modern writers accounted for the exchanges between the microcosm and macrocosm It engages with Gail Kern Paster's

groundbreaking scholarship on embodiment humoralism the passions and historical phenomenology throughout and offers new readings of Edmund Spenser William Shakespeare Thomas Nashe John Milton and others Contributions consider the epistemologies of navigation and cartography the significance of geohumoralism the ethics of self mastery theories of early modern cosmology the construction of place memory and perceptions of an animate spirit world *Fabricating Founders in Early Modern England* Lauren Horn Griffin,2023-09-14 This book argues that in order to understand nationalisms we need a clearer understanding of the types of cultural myths symbols and traditions that legitimate them Myths of origin and election memories of a greater and purer past and narratives of persecution and mission are required for the production and maintenance of powerful national sentiments Through an investigation of how early modern Catholics and Protestants reimagined reinterpreted and rewrote the lives of the founder saints who spread Christianity in England this book offers a theoretical framework for the study of origin narratives Analyzing the discursive construction of time and place the invocation of forces beyond the human to naturalize and authorize and the role of visual and ritual culture in fabrications of the past this book provides a case study for how to approach claims about founding figures Serving as a timely example of the dependence of national identity on key religious resources Griffin shows how origin narratives particularly the founding figures that anchor them function as uniquely powerful rhetorical tools for the cultural production of regional and national identity

Literature and Architecture in Early Modern England Anne M. Myers,2012-12-10 Buildings tell stories Castles country homes churches and monasteries are documents of the people who built them owned them lived and died in them inherited and saved or destroyed them and recorded their histories Literature and Architecture in Early Modern England examines the relationship between sixteenth and seventeenth century architectural and literary works By becoming more sensitive to the narrative functions of architecture Anne M Myers argues we begin to understand how a range of writers viewed and made use of the material built environment that surrounded the production of early modern texts in England Scholars have long found themselves in the position of excusing or explaining England's failure to achieve the equivalent of the Italian Renaissance in the visual arts Myers proposes that architecture inspired an unusual amount of historiographic and literary production including poetry drama architectural treatises and diaries Works by William Camden Henry Wotton Ben Jonson Andrew Marvell George Herbert Anne Clifford and John Evelyn when considered as a group are texts that overturn the engrained critical notion that a Protestant fear of idolatry sentenced the visual arts and architecture in England to a state of suspicion and neglect Julian Yates University of Delaware

Memory and the English Reformation Alexandra Walsham,Bronwyn Wallace,Ceri Law,Brian Cummings,2020-11-12 Recasts the Reformation as a battleground over memory in which new identities were formed through acts of commemoration invention and repression

The Oxford Handbook of Holinshed's Chronicles Paulina Kewes,Ian W. Archer,Felicity Heal,2013 The Handbook brings together forty articles by leading scholars of history literature religion and classics in the first full investigation of the

significance of Raphael Holinshed's Chronicles of England Scotland and Ireland 1577 1587 the greatest of Elizabethan chronicles and a principal source for Shakespeare's history plays

Information, Institutions, and Local Government in England, 1550-1700 Paul Griffiths, 2024-01-30 The years between 1550 and 1700 saw significant changes in the nature and scope of local government sophisticated information and intelligence systems were developed magistrates came to rely more heavily on surveillance to inform good government and England's first nationwide system of incarceration was established within bridewells But while these sizeable and lasting shifts have been well studied less attention has been paid to the important characteristic that they shared the turning inside of the title What was happening beneath this growth in activity was a shift from open to closed management of a host of problems from the representation of authority itself to treatment of every kind of local disorder from petty crime and poverty to dirty streets

Information Institutions and Local Government in England 1550 1700 explores the character and consequences of these changes for the first time Drawing on wide ranging archival research in 34 archives the book examines the ways in which the notion of representing authority and ethics in public including punishment was increasingly called into question in early modern England and how and why local government officials were involved in this This turning inside was encouraged by insistence on precision and clarity in broad bodies of knowledge culture and practice that had lasting impacts on governance as well as a range of broader demographic social and economic changes that led to deeper poverty thinner resources more movement and imagined or real crime waves In so doing and by drawing on a diverse range of examples the book offers important new perspectives on local government visual representation penal cultures institutions incarceration and surveillance in the early modern period

The Arts of Remembrance in Early Modern England Andrew Gordon, Thomas Rist, 2016-04-01 The early modern period inherited a deeply ingrained culture of Christian remembrance that proved a platform for creativity in a remarkable variety of forms From the literature of church ritual to the construction of monuments from portraiture to the arrangement of domestic interiors from the development of textual rites to drama of the contemporary stage the early modern world practiced arts of remembrance at every turn The turmoils of the Reformation and its aftermath transformed the habits of creating through remembrance Ritually observed and radically reinvented remembrance was a focal point of the early modern cultural imagination for an age when beliefs both crossed and divided communities of the faithful The Arts of Remembrance in Early Modern England maps the new terrain of remembrance in the post Reformation period charting its negotiations with the material the textual and the performative
