The Separatist Conflict in Sri Lanka Asoka Bandarage, 2008-11-19 The book provides a detailed historically based analysis of the origin evolution and potential resolution of the civil conflict in Sri Lanka over the struggle to establish a separate state in its Northern and Eastern provinces This conflict between the Sri Lankan government and the secessionist LTTE Liberation Tigers of Tamil Eelam is one of the world's most intractable contemporary armed struggles The internationally banned LTTE is considered the prototype of modern terrorism It is known to have introduced suicide bombing to the world and recently became the first terrorist organization ever to acquire an air force The iron law of ethnicity the assumption that cultural difference inevitably leads to conflict has been reinforced by the 9/11 attacks and conflicts like the one in Sri Lanka However the connections among ethnic difference conflict and terrorism are not automatic This book broadens the discourse on the separatist conflict in Sri Lanka by moving beyond the familiar bipolar Sinhala versus Tamil ethnic antagonism to show how the form and content of ethnicity are shaped by historical social forces It develops a multipolar analysis which takes into account diverse ethnic groups intra ethnic social class caste and other variables at the local regional and international levels Overall this book presents a conceptual framework useful for comparative global conflict analysis and resolution shedding light on a host of complex issues such as terrorism civil society diasporas international intervention and secessionism **A**

History of Sri Lanka K M de Silva, 2005-08-25 Sri Lanka is an ancient civilization shaped and thrust into the modern globalizing world by its colonial experience With its own unique problems many of them historical legacies it is a nation trying to maintain a democratic pluralistic state structure while struggling to come to terms with separatist aspirations This is a complex story and there is perhaps no better person to present it in reasoned scholarly terms than K M de Silva Sri Lanka's most distinguished and prolific historian A History of Sri Lanka first published in 1981 has established itself as the standard work on the subject This fully revised edition in light of the most recent research brings the story right up to the early years of the twenty first century The book provides comprehensive coverage of all aspects of Sri Lanka's development from a classical Buddhist society and irrigation economy to its emergence as a tropical colony producing some of the world's most important cash crops such as cinnamon tea rubber and coconut and finally as an Asian democracy It is a study of the political vicissitudes of Sri Lanka's ancient civilization and the successive phases of Portuguese Dutch and British colonial rule The unfortunate consequences of becoming a centre of ethnic tension and Sri Lanka's long standing relationship with India are also discussed Exhaustively researched and analytical this book is an invaluable reference source for students of ancient colonial and post colonial societies ethnic conflict and democratic transitions as well as for all those who simply want to get a feel of the rich and varied texture of Sri Lanka's long history **Learning Politics From Sivaram** Mark P.

Whitaker, 2006-12-20 This is the story of the life and impact of the political activist journalist and freedom fighter Sivaram Dharmeratnam who dedicated his life to helping the Tamil people in Sri Lanka He started out as an active participant in the

war against the Sri Lankan government and was labelled a terrorist Yet he stepped away from ruthless violence Instead he became a high profile journalist in the Sri Lankan press and used his position to fearlessly critique the government despite repeated threats on his life Finally in 2005 Sivaram was assassinated This vivid life history also engages with much broader issues It offers an intimate portrait of why an educated man adopts a position of supporting violence **Militant Buddhism**

Peter Lehr, 2018-12-30 Against the backdrop of the ongoing Rohingya crisis this book takes a close and detailed look at the rise of militant Buddhism in Sri Lanka Burma and Thailand and especially at the issues of why and how around it We are well aware of Christian fundamentalism militant Judaism and Islamist Salafism Jihadism Extremist and violent Buddhism however features only rarely in book length studies on religion and political violence Somehow the very idea of Buddhist monks as the archetypal world renouncers exhorting frenzied mobs to commit acts of violence against perceived enemies of the religion seems to be outright ludicrous Recent events in Myanmar Burma but also in Thailand and Sri Lanka however indicate that a militant strand of Theravada Buddhism is on the rise How can this rise be explained and what role do monks play in that regard These are the two broad questions that this book explores The Musical Gift Jim Sykes, 2018-08-31 The Musical Gift tells Sri Lanka's music history as a story of giving between humans and nonhumans and between populations defined by difference Author Jim Sykes argues that in the recent past the genres we recognize today as Sri Lanka's esteemed traditional musics were not originally about ethnic or religious identity but were gifts to gods and people intended to foster protection and or healing Noting that the currently assumed link between music and identity helped produce the narratives of ethnic difference that drove Sri Lanka's civil war 1983-2009 Sykes argues that the promotion of connected music histories has a role to play in post war reconciliation The Musical Gift includes a study of how NGOs used music to promote reconciliation in Sri Lanka and it contains a theorization of the relations between musical gifts and commodities Eschewing a binary between the gift and identity Sykes claims the world's music history is largely a story of entanglement between both paradigms Drawing on fieldwork conducted widely across Sri Lanka over a span of eleven years including the first study of Sinhala Buddhist drumming in English and the first ethnography of music making in the former warzones of the north and east this book brings anthropology's canonic literature on the gift into music studies while drawing on anthropology's recent ontological turn and the new materialism in religious studies *The Legitimization of Violence* David E. Apter, 2016-07-27 Violence is a more and more ubiquitous phenomenon While a great deal of attention has been paid to certain aspects terrorism for example it has not been studied as a political phenomenon in and of itself In *The Legitimization of Violence* eight well known specialists explore various types of violence from ideological to fundamentalist movements within a framework of comparative theory *Reaping The Whirlwind* K M de Silva, 2000-10-14 A critical analysis of the ethnic conflict in Sri Lanka In the eighties Sri Lanka once considered the model colony was torn apart by ethnic strife between the predominantly Buddhist Sinhalese constituting almost threequarters of the island's inhabitants and the numerically fewer

Tamils who were a mix of Hindus Christians and Muslims Massacres occurred after the riots of May 1983 and over time about 1 25 000 Tamils entered India as refugees fleeing from a virtual civil war which still afflicts the north of the island The author a renowned Sri Lankan analyst of global ethnic conflict discusses the historical reasons behind the ethnic violence especially the growth of the Sinhala feeling of being a beleaguered minority despite their numerical strength Analysing the present conflict he shows how the language policy of Sinhala Only followed by the government in the sixties supplanted religion as a divisive factor and how rivalry over educational and employment opportunities fuelled the schism Bringing the story up to the present de Silva examines the role played by Indian and Tamil Nadu politicians and President Kumaratunga's efforts towards a devolution of power to the Tamil Provinces But given the LTTE's acceptance of nothing less than Eelam he sees little hope of an early end to the violence that has racked Sri Lanka for almost two decades now

The Domain of Constant Excess Rohan Bastin, 2002-12-01 The Sri Lankan ethnic conflict that has occurred largely between Sinhala Buddhists and Tamil Hindus is marked by a degree of religious tolerance that sees both communities worshipping together This study describes one important site of such worship the ancient Hindu temple complex of Munnesvaram Standing adjacent to one of Sri Lanka's historical western ports the fortunes of the Munnesvaram temples have waxed and waned through the years of turbulence violence and social change that have been the country's lot since the advent of European colonialism in the Indian Ocean Bastin recounts the story of these temples and analyses how the Hindu temple is reproduced as a center of worship amidst conflict and competition

The Political Economy of NGOs Jude L. Fernando, 2011-07-08 This book explores the paradoxical relationship between NGOs and capitalism showing that supposedly progressive organisations often promote essentially the same policies and ideas as existing governments It examines how a diverse group of NGOs have shaped state formation in Bangladesh and Sri Lanka It argues that rather than influencing state formation for the better NGOs have been integrated into the capitalist system and their language adopted to give traditional exploitative social relations a transformative appearance This enlightening study will give pause to those who see NGOs as drivers of true social change and will encourage students of development studies to make a deeper analysis of state formation

Assembling Ethnicities in Neoliberal Times Nimanthi Perera-Rajasingham, 2019-10-15 *Assembling Ethnicities in Neoliberal Times* Ethnographic Fictions and Sri Lanka's War argues that the bloody war fought between the Sri Lankan state and the separatist Tamil Tigers from 1983 to 2009 should be understood as structured and animated by the forces of global capitalism Using Aihwa Ong's theorization of neoliberalism as a mobile technology and assemblage this book explores how contemporary globalization has exacerbated forces of nationalism and racism Nimanthi Perera Rajasingham finds that ethnographic fictions have both internalized certain colonial

Orientalist impulses and critically engaged with categories of objective gazing empiricism and temporal distancing She demonstrates that such fictions take seriously the task of bearing witness and documenting the complex productions of ethnic identities and the devastations wrought by warfare To this end Assembling Ethnicities explores colonial era travel writing by Robert Knox 1681 and Leonard Woolf 1913 contemporary works by Michael Ondaatje Romesh Gunsekera Shobasakthi Dharmasiri Bandaranayake and Thamotheerampillai Shanaathanan and cultural festivals and theater including vernacular performances of Euripides's The Trojan Women and women workers theater The book interprets contemporary fictions to unpack neoliberalism's entanglements with nationalism and racism engaging current issues such as human rights the pastoral Tamil militancy immigrant lives feminism and nationalism and postwar developmentalism

Transnational Social Movements and Global Politics Jackie Smith, Charles Chatfield, Ron Pagnucco, 1998-01-01 Transnational Social Movements and Global Social Politics examines a cast of global actors left out of the traditional studies of international politics It generates a theoretically informed view of the relationships between an emerging global civil society partly manifested in transnational social movements and international political institutions This book consists of fifteen essays all written by experts in the field The first three parts analyze the rise of transnational social movements in the context of broad twentieth century trends A fourth part builds a theoretical framework from which organizations influencing global governance can be viewed

Colors of the Robe Ananda Abeysekara, 2002 Poised to spark debate among scholars of religious studies and other disciplines Colors of the Robe sheds new light on the Sri Lankan Buddhist universe of ethics and politics and more important suggests innovative directions for the global study of religion identity culture politics and violence In a volume that surpasses other studies in tracking identifying and locating Sri Lankan Buddhism in its sectarian ethnic cultural social and political constructions Ananda Abeysekara lays down a challenge to postcolonial and postmodern theory He argues that although criticisms have undermined the orientalist constructions of culture they cannot help us understand let alone theorize the emergence of contemporary authoritative discourses that define distinctions involving religion and violence identity and difference Supplanting that aim Abeysekara illuminates the shifting configurations that characterize the relations connected with postcolonial religious identity and culture

Gender, Peace and Conflict Inger Skjelsboek, Dan Smith, 2001-02-01 What impact does gender difference make to political decision making Will the political empowerment of women contribute to a more peaceful world The role of gender has been increasingly recognized as central to the study and analysis of the traditionally male domains of war and international relations This book explores the key role of gender in peace research conflict resolution and international politics Rather than simply add gender the aim is to transcend different disciplinary boundaries and conceptual approaches to provide a more integrated basis for future study To this end it uniquely combines theoretical chapters alongside empirical case studies to demonstrate the importance of a gender perspective to both theory and practice in conflict resolution and peace research The theoretical chapters explore the gender relationship and engage with the many stereotypical dichotomies like femininity and peace and masculinity and war The case study chapters drawing on examples from South America South Asia and Europe including former Yugoslavia move beyond theoretical critique to focus on issues like sexual violence in war the role of women in military groups and peacekeeping operations and the impact of a critical mass of women in political decision making Gender Peace and Conflict will provide an invaluable survey and new insights to a central area of contemporary research It will be essential reading for academics students and practitioners across peace studies conflict resolution and international politics

Violence, Torture and Memory in Sri Lanka Dhana Hughes, 2013-07-31 Drawing on original ethnographic field research conducted primarily with former guerrilla insurgents in southern and central Sri Lanka this book analyses the memories and narratives of people who have perpetrated political violence It explores how violence is negotiated and lived with in the aftermath and its implications for the self and social relationships from the perspectives of those who have inflicted it The book sheds ethnographic light on a largely overlooked and little understood conflict that took place within the majority

Sinhala community in the late 1980s known locally as the Terror Bheeshanaya It illuminates the ways in which the ethical charge carried by violence seeps into the fabric of life in the aftermath and discusses that for those who have perpetrated violence the mediation of its memory is ethically tendentious and steeped in the moral carrying important implications for notions of the self and for the negotiation of sociality in the present Providing an important understanding of the motivations meanings and consequences of violence the book is of interest to students and scholars of South Asia Political Science Trauma Studies and War Studies

Educations in Ethnic Violence Matthew Lange, 2011-12-12 In *Educations in Ethnic Violence* Matthew Lange explores the effects education has on ethnic violence Lange contradicts the widely held belief that education promotes peace and tolerance Rather Lange finds that education commonly contributes to aggression especially in environments with ethnic divisions limited resources and ineffective political institutions He describes four ways in which organized learning spurs ethnic conflicts Socialization in school shapes students identities and the norms governing intercommunal relations Education can also increase students frustration and aggression when their expectations are not met Sometimes the competitive atmosphere gives students an incentive to participate in violence Finally education provides students with superior abilities to mobilize violent ethnic movements Lange employs a cross national statistical analysis with case studies of Sri Lanka Cyprus the Palestinian territories India sub Saharan Africa Canada and Germany
