of postcolonial Sri Lanka suggests a new paradigm for understanding state formation as an ever shifting and evolving process The Sri Lankan state has formed under the pressure of multiple conflicts around capitalist transition on the one hand and the deteriorating relationship between the state and Tamil minority populations on the other Sunil Bastian demonstrates the way these conflicts have overlapped with international support for the introduction of neoliberal policies from Japan the West and institutions such as the World Bank and the IMF helping to prop up a state engaged in armed ethnic conflict State Formation and Conflict in Sri Lanka explores the role played by these two forces in the nation's recent economic crises

The Non-Aligned Movement and the Cold War Natasa Miskovic, Harald Fischer-Tiné, Nada Boskovska, 2014-04-16 The idea of non alignment and peaceful coexistence was not new when Yugoslavia hosted the Belgrade Summit of the Non Aligned in September 1961 Freedom activists from the colonies in Asia Africa and South America had been discussing such issues for decades already but this long lasting context is usually forgotten in political and historical assessments of the Non Aligned Movement This book puts the Non Aligned Movement into its wider historical context and sheds light on the long term connections and entanglements of the Afro Asian world It assembles scholars from

differing fields of research such as Asian Studies Eastern European and Southeast European History Cold War Studies Middle Eastern Studies and International Relations In doing so this volume looks back to the ideological beginnings of the concept of peaceful coexistence at the time of the anticolonial movements and at the multi faceted challenges of foreign policy the former freedom fighters faced when they established their own decolonized states It analyses the crucial role Yugoslav president Tito played in his determination to keep his country out of the blocs and finally examines the main achievement of the Non Aligned Movement to give subordinate states of formerly subaltern peoples a voice in the international system An innovative look at the Non Aligned Movement with a strong historical component the book will be of great interest to academics working in the field of International Affairs international history of the 20th century the Cold War Race Relations as well as scholars interested in Asian African and Eastern European history **Non-Aligned Movement**

Summits Jovan Cavoški, 2022-05-19 Using newly declassified documents from Serbian British Indian Chinese Myanmar U S and Soviet archives Non Aligned Movement Summits shows how the Non Aligned Movement NAM gradually evolved into the third force of Cold War politics enveloping most of the post colonial and non bloc world Jovan Cavo ki follows the evolution of the NAM through its summits and other gatherings during which major political decisions pertaining to the destiny of the Third World were made These events were scrutinized by all major powers and had a corresponding effect on their policies From the Belgrade Conference in 1961 until 1989 all major Third World and non bloc nations met to demonstrate to the Eastern and Western Blocs that they were independent active and respected participants in world affairs Cavo ki shows how these summits were also closely related to events occurring in the relationship between the two blocs providing opportunities for non bloc actors to influence the global balance of power By moving the focus of 20th century international history away from the bloc nations and instead giving developing nations in Africa and Asia due attention this book provides a fresh perspective on Cold War history and fills a significant gap in the literature It is an important study for all students and scholars of the Cold War and international history Routledge Handbook of South Asian Politics Paul R. Asia, Southern A. Sue Goodman,1989 **A History of False Hope** Lori Allen,2020-12-15 This book offers a provocative retelling of Palestinian political history through an examination of the international commissions that have investigated political violence and human rights violations More than twenty commissions have been convened over the last century yet no significant change has resulted from these inquiries The findings of the very first the 1919 King Crane Commission were suppressed The Mitchell Committee convened in the heat of the Second Intifada urged Palestinians to listen more sympathetically to the feelings of their occupiers And factfinders returning from a shell shocked Gaza Strip in 2008 registered their horror at the scale of the destruction but Gazans have continued to live under a crippling blockade Drawing on debates in the press previously unexamined UN reports historical archives and ethnographic research Lori Allen explores six key investigative commissions over the last century She highlights how Palestinians persistent demands for independence have been routinely translated into the numb language of reports and resolutions These commissions Allen argues operating as technologies of liberal global governance yield no justice only the oppressive status quo A History of False Hope issues a biting critique of the captivating allure and cold impotence of international law

Indian Ocean Islands Christian Bouchard,Shafick Osman,2018-12-07 Islands are intrinsic parts of the Indian Ocean Region s physical geography and human landscape Historically many have played substantial roles in the regional cultural and economic networks as well as in the regional political developments Today at least three issues bring these islands back to the forefront of the regional and global affairs namely geopolitics and strategic matters environmental

conditions and challenges as well as ocean affairs. However, there has not been yet a lot of research and publications on this phenomenon of islands growing significance in the specific context of the Indian Ocean Region. This book provides a rare attempt to cover various issues related to geopolitics, international relations, history, security, anthropology, and ocean environment of Indian Ocean islands and their societies. More specifically, it provides case studies on Sri Lanka, foreign policy, Cocos and Christmas Islands, geo strategy, Chagos Archipelago, history, Mauritius, Indo Mauritians, Mauritius and Seychelles, maritime security, European Union and the Indian Ocean Islands, international relations, and Sundarban islands, environment and society. The chapters were originally published in a special issue of the Journal of the Indian Ocean Region.

Die Bewegung Bündnisfreier Staaten Jürgen Dinkel, 2015-03-30. Die Bewegung Bündnisfreier Staaten gilt als Unikum in der Geschichte der Dekolonisation der Süd-Süd-Kooperation des Kalten Krieges und des Nord-Süd-Konfliktes. In ihr haben sich im Laufe des 20. Jahrhunderts nahezu alle asiatischen, afrikanischen und lateinamerikanischen Staaten zusammengeschlossen, um ihren weltpolitischen Interessen größeres Gewicht zu verleihen. Mit 120 Mitgliedsstaaten stellt sie nach den Vereinten Nationen eine der größten internationalen Organisationen der Gegenwart dar. Jürgen Dinkel analysiert in dieser Studie erstmals die gesamte Geschichte der Bewegung seit der Zwischenkriegszeit als spezielle Reaktion des globalen Südens auf den Wandel der internationalen Beziehungen. Dabei werden Brüche und Kontinuitäten im globalen Vernetzungsprozess sichtbar, und die Geschichte internationaler Beziehungen aus einer außereuropäischen Perspektive betrachtet.

Handbook of Research on Innate Leadership: Characteristics and Examinations of Successful First-Time Leaders Guah, Matthew Waritay, 2021-02-05. For hundreds of years, different leadership theories have been explored to try to explain exactly how and why certain people become great leaders. Research spans a discussion of personality traits, the characteristics of the situation at hand, and qualifications of the leader to try to determine what causes people to become more likely than others to take charge. This can be in various settings: CEOs, presidents, and prime ministers; managing directors, governors, senators, head coaches, and more. Through the examination of first-time leadership, new theories and ideas on leadership are explored. The Handbook of Research on Innate Leadership: Characteristics and Examinations of Successful First-Time Leaders is a comprehensive reference source that focuses on what qualities distinguish first-time leadership from traditional leaders while furthering leadership theories that look at other variables such as situational factors, knowledge base, skill levels, etc. It reviews the various approaches used by first-time leadership and how each of them uniquely approaches effective leadership, key outcomes, and the strengths and weaknesses of each approach. Furthermore, it distinguishes between the traditional route for leadership, the gradual moving up of an individual over time to higher positions, and a first-time leadership in which an individual begins right away in a position without climbing the professional ladder. This book will attempt to draw lessons from existing first-time leadership experience and provide evidence for the appropriateness of such a route to leadership. Topics highlighted include transformational leadership, political leaders, ethical and unethical leadership, and leadership.
