Ss Moyie Memories Of The Oldest Sternwheeler:

The S.S. Moyie Robert D. Turner, Kootenay Lake Historical Society, 1991-01-01 For nearly sixty years the mountains of the West Kootenay region in southern British Columbia echoed to the deep resonant whistle of a steamboat called the Moyie She carried everything from silver ore and apples to mail and farm animals Always a vessel of distinction she is the oldest known intact vessel of her type in the world and is now a National Historic Site and a Provincial Historic Landmark at Kaslo B C

Fire Canoes Anthony Dalton, 2012-04-15 Anson Northup the first steamboat on the Canadian prairies arrived in Fort Garry in 1859 Belching hot sparks and growling in fury it was called fire canoe by the local Cree The first steam powered passenger vessel in Canada had begun service on the St Lawrence River in 1809 and for the next 150 years steamboats carried passengers and freight on great Canadian rivers among them the treacherous Stikine and Fraser in British Columbia the Saskatchewan and Red Rivers on the prairies and the mighty St Lawrence and Saguenay in Ontario and Quebec Travel back in time aboard makeshift gold rush riverboats on the Yukon sternwheelers on the Saskatchewan and luxurious liners on the St Lawrence to the decades when steamboats sent the echoes of whistles across a vast land of powerful rivers

Vanishing British Columbia Michael Kluckner, 2011-11-01 The old buildings and historic places of British Columbia form a kind of roadside memory a tangible link with stories of settlement change and abandonment that reflect the great themes of our history With small towns declining and old rural properties changing so little of the history of these places has been recorded in museums or archives and so much of it may disappear as families disperse and memories dim More than a decade ago Michael Kluckner began painting these dots on his personal map of the province in a watercolour sketchbook In 1999 after he put a few of the sketches on his website a network of correspondents emerged that eventually led him to the family letters photo albums and memories all from a disappearing era of the province Vanishing British Columbia is a record of these places and the stories they tell It combines engaging and insightful historical commentary with over 160 of the author s original paintings It has an exceptional assortment of historic imagery including old postcards architectural plans and photographs The study of roadside memory demonstrates the visceral connection that people especially those who are part of the rural to urban diaspora of modern times have for the sites of their family memories On a grander scale this approach leads to a broader understanding of more abstract historical themes and of the province s history and culture It also presents a compelling argument for stewardship of regional history in the face of urbanization and globalization

British Columbia by the Road Ben Bradley, 2017-06-07 In *British Columbia by the Road* Ben Bradley takes readers on an unprecedented journey through the history of roads highways and motoring in British Columbia s Interior a remote landscape composed of plateaus and interlocking valleys soaring mountains and treacherous passes Challenging the idea that the automobile offered travellers the freedom of the road and a view of unadulterated nature Bradley shows that an array of interested parties boosters businessmen conservationists and public servants manipulated what drivers and passengers could

and should view from the road When it came to roads and highways planners and builders had two concerns grading or paving a way through the wilderness and opening pathways to new parks and historic sites They understood that the development of a modern road network would lead to new ways of perceiving BC and its environment Although cars and roads promised freedom they offered drivers a curated view of the landscape that shaped the province's image in the eyes of residents and visitors alike
