*Dominion over Wildlife?* Stephen M. Vantassel, 2009-04-01 For centuries Christians believed that God granted humanity dominion over the animal kingdom meaning that we had a moral right to kill manage and eat animals including wildlife Recently however environmental and animal rights activists have assaulted this traditional perspective They argue that dominion as expressed in meat eating and hunting has resulted in species extinction and environmental degradation Christian Animal Rights CAR activists suggest that the church must reevaluate its traditional beliefs in light of the fact that God s original creation was free of human on animal violence God they argue did not want man s dominion to be expressed through trapping killing and eating of animals These violent activities only came about after the Fall as God condescended to our hardness of heart CAR activists point to Christ s sacrificial work of reconciliation as a model for modern Christian behavior as Christ sacrificed for us we should avoid eating meat and hunting as ways we can participate in Christ s non violent work of reconciling creation to himself In this book Stephen Vantassel investigates the biblical ethical and scientific arguments employed by the CAR movement concerning human wildlife relations In this regard the book engages in practical theology by addressing several important questions How should Christians treat our wildlife neighbors Has the Church been wrong in its understanding of human dominion Does God want Christians to avoid hunting trapping fishing and to adopt a vegetarian lifestyle This book provides answers to these questions by detailing a theology the author calls Shepherdism

**Get Goodness** Michael Hickey, Mike Hickey, 2011-06-16 From the preface This book looks at virtue as the power to do good from the theological philosophical and poetic perspective From a theological perspective Long ago Anselm defined theology as faith seeking understanding f 1 a definition which has endured to the present day It would be difficult if not impossible for anyone to try to understand virtue or goodness without looking through some lens of faith Get Goodness was written in part because my own faith was seeking understanding Second this book will look at virtue and goodness from a philosophical perspective because the word philosophy from the Greek philos sophia means love of wisdom f 2 As we will find in this book the virtue of love has been understood by most theologians and philosophers before me to be the essence of each and every virtue Therefore we must first love wisdom before we are able to practically discern distinguish deliberate and decide prudently in any effort to understand how virtue is the power to do good Third this book will be suffused with poetry because poetry is a language that goes beyond logic thought and reason It is a language of the spirit and a language of human life love observation and experience Any poem is an attempt to try to understand the experience of the world and the universe around us in spiritual terms None of us should be seeking virtuous perfection in orienting ourselves to the good in this life we should only be seeking change The journey is the goal *Psychology, Religion, and Spirituality* James M. Nelson, 2009-02-17 Over a century ago psychologists who were fascinated with religion began to study and write about it Theologians and religious practitioners have responded to this literature producing a fascinating dialogue that deals with our

fundamental understandings about the human person and our place in the world This book provides an introduction to the important conversations that have developed out of these interchanges The dialogue between psychology and religion is difficult to study for a number of reasons First it requires knowledge of both psychology and religion People with a background in psychology often lack a solid understanding of the religious traditions they wish to study and theologians may not be up to date on the latest developments in psychology Second it requires conceptual tools to organize the material and understand the basic problems involved in any attempt to connect the science of psychology with religion These concepts can be found in many places for instance in the writings of philosophers of science but they are complex and often hard to follow for those without a proper theological and philosophical background Finally authors who write on the topic come to the study of psychology and religion from a variety of academic and personal backgrounds This makes for wonderful diversity in conversations but it makes understanding and mastery of the material quite difficult

*The Specification of Human Actions in St Thomas Aquinas* Joseph Pilsner, 2006-04-27 Thomas Aquinas believed that human actions have species such as almsgiving or murder His teaching on how these species are determined has long presented a puzzle to his interpreters From his earliest writings on this subject to his latest Aquinas used five terms end object matter circumstance and motive to identify what in a human action determines such species Seeming differences in meaning between some of these terms make it difficult to grasp how all five could refer to what specifies a human action Joseph Pilsner investigates the five terms above with a view to understanding better their role in Aquinas's theory of specification

**BOOK JACKET**

*Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night* N. Grace Aaron, 2005 *Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night* is a comprehensive appraisal of the traditional critical perspectives of mysticism philosophical theological literary and psychological Examining the a priori limitations of these approaches the book presents an original definition of the symbol as an integral whole of experience and expression and concludes that night is the form the organizing principle of spiritual life

**The Beauty of the Triune God** Kin Yip Louie, 2013-07-29 The eighteenth century Puritan theologian Jonathan Edwards has become popular again in contemporary theological discussion Central to Edwards theology is his concept of beauty Delattre wrote the standard work on this topic half a century ago However Delattre approaches Edwards mainly as a philosopher and he does not address how Edwards employs the concept of beauty to explain and defend traditional Reformed doctrines Recent writings by McClymond Holmes and others have shown that defending the Reformed tradition is a fundamental concern of Edwards This work reveals how Edwards starting with the common notion that beauty means the appropriate proportional relationship develops a theological aesthetic that contributes to a rational understanding of major doctrines such as the Trinity Christology and eschatology It shows that Edwards is both an innovative speculative theologian and a staunch defender of Reformed orthodoxy

**Toward a Priestly Christology** Adriani Milli Rodrigues, 2018-11-02 *Toward a Priestly Christology* is a constructive theology on the person and work of Christ from the

standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ s priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the internal logic of Christ s priesthood By using existing models of this priesthood as heuristic tools for systematic thinking the work attempts to push Christian theology toward a more dynamic understanding of Christ s priesthood especially regarding the relationship between the ascended Christ and our Christian life      **From Beholding to Becoming** Kim Coleman Healy,2004 This contemplative devotional reflects on the events of the life death and resurrection of Jesus Christ

**Crucible of Reason** Keith David Wyma,2004 Weakness of will seems to be an inherent part of the human condition We know what we ought to do and how often we knowingly willingly fall short in actual practice How can this be explained and what challenges does it present to systematic explanations of intentional actions In this clear incisive and well written inquiry philosopher Keith Wyma subjects the thought of three prominent intentional theorists R M Hare Donald Davidson and Thomas Aquinas to the crucible of reason to see whether and how they can account for weakness of will Wyma is careful to clarify which actions count as incontinent or the result of weakness of will they must be performed intentionally even as they are judged as something that ought not to be done His in depth study of Hare Davidson and Aquinas on this important issue is a major contribution to understanding practical rationality and intentional action      Eternal Retirement Rev. J.J. Inserra,2023-05-04 Do you know where you will spend Eternity Where will you go when your earthly life ends Where you go depends on what you do now Why is that so Because after death the only laws and ways that matter are God s and how well we tried to live by them God wants everyone with Him but unfortunately not all will make it Are you going to eventually make it to Heaven or not This is unknown Anyone can change for the better or worse until he or she passes away If you re a Christian and think that all I need is to believe in Jesus and do nothing more then you are quite mistaken This is because God the Son came and for all With that said does God owe us anything But how well we live by His rules shows God that we want to live with Him forever in Heaven If you are an Atheist or an Agnostic and don t believe God exists or that there is any proof of His Existence this book helps those with such thinking You have faith just not in God Yet We need faith to believe the things people say to us whether it is a lie or truth When God Died for us it can be seen as though He invested in us rather than starting over To get to His Eternal Retirement Home we must live lives that show Him a good return on His investment

in us Ask yourselves this question often Is the way I am living a good return on God s investment in me There will be a need for improvement even for the best of us This book helps us to do just that **Handbook of Medieval Sexuality** Vern L. Bullough,James A. Brundage,2000 The subject of sexuality in the Middle Ages is examined here in 19 articles written specifically for this handbook This volume seeks to offer a useful guide to the wealth of material and research that is available yet often overlooked **Nativity: The Christmas Story, Which You Have Never Heard Before** Richard R. Racy,2007-11 Sometimes reading like a historical novel or a forensics detective story a melodrama or a scientific adventure Nativity takes the reader on a fast awesome ride of discovery into the real history and real people behind the birth of Christ Nativity is the ideal reference for pastors students and laymen combining scholarly depth and reliability in a popular writing style easily accessible to all with references for independent study New elements of meaning and relevance to the Nativity Scientific evidence virgin births occur as often as identical twins but Jesus was one of a kind The life and death drama behind Joseph and Mary rarely told The real events of Bethlehem and Nazareth Herod amazing genius whose architecture excelled Rome and kept his murdered wife in a jar of honey Was Jesus incarnated from the time of the Fall Is the Christmas tree a pagan idol or a biblical image of the Tree of Life While vigorously defending the traditional faith Richard Racy gives new insights and new theological perspectives guaranteed to inform and provoke while entertaining in a major new work on the birth of Jesus Christ **Whitewash and the New Aesthetic of the Protestant Reformation** Victoria George,2013-12-31 This book is a reconsideration of the practice of whitewashing church interiors during the Protestant Reformation in the sixteenth and seventeenth centuries It is the first detailed study of its kind which challenges the view that whitewash was always only a cheap coat of paint Victoria George pulls together several histories of the colour white from the biblical period to the present and ideas about the colour white in philosophy theology art and architecture from antiquity to the present She links them to case studies of the ways in which reformers Huldrych Zwingli and John Calvin thought about colour in a careful analysis of the role of colour thinking in their theological writings The social meanings embodied in the word whitewash as it entered the printed media in the 17th century is explored as part of a chapter on the history of whitewashing itself The long term symbolic and aesthetic implications of the practice of whitewashing are examined in the larger context of material culture in terms of their value as a metaphor for both the Reformed Protestant and the Catholic in opposition to them and for the uses to which whitewash has been put over time George proposes that the practice was not only visually transformative but held importance for religious aesthetics as an agent of change and for an aesthetics of minimalism generally especially evident in the twentieth and twenty first centuries Victoria George received an MFA from the Royal College of Art London an MA from The Architectural Association and a Ph D from Cambridge She has taught religion and the arts at the University of Richmond in Virginia **Get Real** Michael Hickey,2012-02-16 From the Preface Get real was a slang term that became popular in the 1960 s when Michael Hickey was growing up in East Boston It implied that someone wasn t in touch with reality and had to

change their way of thinking or living If you put on the television today all you might find is one of the hundreds of so called reality TV shows More often than not these reality shows are illusions of reality because the real persons utilized as actors performers are seemingly coached to act in certain ways by the directors judges or producers who really control the reality Nonetheless reality TV is a modern phenomenon people watch it constantly and that does indicate a high degree of the public s interest in some concept of reality As for mystery it seems we are approaching an age where there will be the death of mystery and we will have only reality Hickey believes this is because the vast majority of the populace doesn t view reality in the context of mystery They imagine mystery to be something which is just obscure or ambiguous which given enough time will be solved by reason and logic and become reality Hickey s goal is that Get Real will give the reader a fresh understanding of both reality and mystery as seen from a theological and philosophical viewpoint Ultimately he intends the reader to move beyond the perceived duality in order to establish that mystery is truly the home of all reality
