Hamilton,2018-05-08 Most Western approaches to dreams are limited to a psychological paradigm Building on Jung s work which was heavily influenced by the transformative model of alchemy a new multidimensional approach to the process of human transformation through dreams has been developed which recognises the interrelationship of the psychological and the spiritual and works with the mirroring body in service of both In the approach presented here dreams are seen as a mixture of worldly impressions and expressions of our individual spirit which is trying to speak to us through the metaphors and narrative of our dreams In this way the spiritual comes through the psychological dimension Though it may seem to be a contradiction our dreams hold the key to our awakening and by actively engaging with them we can unlock their potential for initiating and facilitating our own unfoldment This book is about recognising this process when it occurs in dreams and how to work with them in the service of our growth and self realisation **Faith in the Enlightenment?** Lieven Boeve,2006

One of the urgent tasks of modern philosophy is to find a path between the rationalism of the Enlightenment and the relativism of postmodernism Rationalism alone cannot suffice to solve today s problems but neither can we dispense with reasonable critique The task is to find ways to broaden the scope of rational thought without losing its critical power The first part of this volume explores the ideas of Enlightenment philosophers and shows nuances often absent from the common view of the Enlightenment The second part deals with some of the modern heirs of Enlightenment such as Durkheim Habermas and Derrida In the third part this volume looks at alternatives to Enlightenment thought in West European Russian and Buddhist philosophy Part four provides over against the Enlightenment a new starting point for the philosophy of religion in thinking about human beings God and the description of phenomena Authentic Movement: Moving the Body, Moving the Self, Being Moved Patrizia Pallaro,2007-01-15 This second volume on Authentic Movement a new discipline aiding the

Inner Christianity Richard Smoley, 2002-10-08 An eye opening introduction to the complex world of esoteric Christianity perfect for the general reader This guide to mystical and esoteric Christianity speaks from a nonsectarian point of view unearthing insights from the whole of the Christian tradition orthodox and heretical famous and obscure The esoteric tradition has traditionally searched for meanings that would yield a deeper inner knowledge of the divine While traditional Christianity draws a timeline from Adam's Fall to the Day of Judgment the esoteric often sees time as folding in on itself bringing every point to the here and now While the Church fought bitterly over dogma the esoteric borrowed freely from other traditions Kabbalah astrology and alchemy in their search for metaphors of inner truth Rather than basing his book around exponents of esoteric doctrine scholar Richard Smoley concentrates on the questions that are of interest to every searching Christian How can one attain direct spiritual experience What does the Fall really tell us about coming to terms with the world we live in Can we find salvation in everyday life How can we ascend spiritually through the various levels of existence What was Christ's true message to humankind From the Gospel of Thomas to A Course in Miracles from the Jesus Prayer to alchemy and Tarot from Origen to Dante to Jung Richard Smoley sheds the light of an alternative Christianity on these issues and more
