Dialects for the Stage Evangeline Machlin, 2006-02-28 Dialect work is one of the actor's most challenging tasks Need to know a Russian accent Playing a German countess or a Midwestern farmhand These and more accents from Yiddish to French Canadian are clearly explained in Evangeline Machlin's classic work Now available in a book and downloadable resources format Evangeline Machlin's *Dialects for the Stage* is based on a method of dialect acquisition she developed during her years working with students at Boston University's Division of Theatre During her long career Evangeline Machlin trained such actors as Steve McQueen Lee Grant Suzanne Pleshette Joanne Woodward and Faye Dunaway **More Stage Dialects** Jerry Blunt, 1994 **Choice Dialect and Vaudeville Stage Jokes**, 1902 *Speaking in Tongues* Marvin Carlson, 2010-04-23 *Speaking in Tongues* presents a unique account of how language has been employed in the theatre not simply as a means of communication but also as a stylistic and formal device and for a number of cultural and political operations The use of multiple languages in the contemporary theatre is in part a reflection of a more globalized culture but it also calls attention to how the mixing of language has always been an important part of the functioning of theatre The book begins by investigating various levels of language high and low style prose and poetry and the ways in which these have been used historically to mark social positions and relationships It next considers some of the political and historical implications of dialogue theatre as well as theatre that literally employs several languages from classical Greek examples to the postmodern era Carlson treats with special attention the theatre of the postcolonial world and especially the triangulation of the local language the national language and the colonial language drawing on examples of theatre in the Caribbean Africa Australia and New Zealand Finally Carlson considers the layering of languages in the theatre such as the use of supertitles or simultaneous signing *Speaking in Tongues* draws important social and political conclusions about the role of language in cultural power making a vital contribution to the fields of theatre and performance Marvin Carlson is Sidney E Cohn Professor of Theatre and Comparative Literature CUNY Graduate Center He is author of *Performance A Critical Introduction Theories of the Theatre A Historical and Critical Survey from the Greeks to the Present* and *The Haunted Stage The Theatre as Memory Machine* among many other books *Performing Multilingualism on the Caroline Stage in the Plays of Richard Brome* Margaret Rose, 2018-06-11 The book investigates the issue of multilingualism in the Caroline age through the lens of Richard Brome's theatre It analyses Brome's multilingual representation of early modern London between 1625 and 1642 a

multilingual and cosmopolitan city a pole of attraction a crossroads of religious linguistic political and cultural experiences in a national and European context The interaction between English and foreign languages has always been a sort of obsession for early modern England but in this specific period its role becomes increasingly important interpreting this delicate and unjustly labelled as decadent phase of English drama through the lens of multilingualism generates a new perspective on the social dynamics and on contemporary political events in domestic and foreign politics while casting new light on a relatively neglected playwright Taking a multifaceted approach the book discusses the recourse to three types of language found in Brome s plays namely modern languages other than English classical languages and dialects and explores the relationship between the use of one or more languages in a play and the contemporary early modern context The book also analyses the implications of such use since it allowed the playwright to dramatize social dynamics while commenting on contemporary political events in England

Staging Dario Fo and Franca Rame Stefania Taviano,2017-03-02 This is the first extended treatment of the English translations stagings and reception of the political plays of Dario Fo and Franca Rame Focusing on the United Kingdom and the United States Stefania Taviano offers a critique of the cultural stereotyping and political conservatism that have pursued these playwrights in translation and argues for the possibility of remaining true to Fo and Rame s political commitment while preserving the comic nature of their plays Taviano shows how the choices made by the translators and staggers of Fo and

Rame's political theatre reveals attitudes toward foreign cultures and theatre generally and Italy in particular. Among the questions she poses are: What characterizes the process of acculturation that takes place when political theatre is transposed from one culture to another? To what extent are images of foreign literary production affected by dominant translation practices and theatre traditions? Perhaps most important: What constitutes political theatre in a given society and how are such definitions used to categorize and contain theatre texts that are disturbing, challenging and difficult to stage? Her book concludes with an investigation of the meaning of Fo and Rame's political theatre today that points the way for future critical studies of the politics behind the translation and stage production of political theatre outside its culture of origin.

Proceedings, American Philosophical Society (vol. 93, no. 5), National Identities and Imperfections in Contemporary Irish Literature Luz Mar González-Arias, 2017-01-20

This book is about the role that the imperfect, the disquieting and the dystopian are currently playing in the construction of Irish identities. All the essays assess identity issues that require urgent examination, problematize canonical definitions of Irishness and above all look at the ways in which the artistic output of the country has been altered by the Celtic Tiger phenomenon and its subsequent demise. Recent narrative from Ireland principally published in the twenty-first century and/or at the end of the 1990s is dealt with extensively. The authors examined include Eavan Boland, Mary Rose Callaghan, Peter Cunningham, Emma Donoghue, Anne Enright, Emer Martin, Lia Mills, Paul Muldoon, Eilish Ní Chuilleanáin, Bernard O'Donoghue, Peter Sirr and David Wheatley.

Singing and Communicating in English Kathryn LaBouff, 2007-12-21

From the Foreword by Renee Fleming: Kathryn LaBouff has developed an approach to singing in the English language which is wonderfully user-friendly and which has surely saved much wear and tear on my voice. It is a technique that has empowered me with the knowledge and skills to bring a text to life and to be able to negotiate all of the sounds of the language with the least amount of effort. I have found her clever and extremely creative use of substitute consonants or combinations of consonants in creating clear diction utterly delightful because they are surprising and because

they work These techniques have been equally useful when singing in foreign languages We sopranos are not usually known to have good diction particularly in our high range I found that working with Kathryn improved my ability to be understood by an enormous percentile of the audience with much less vocal fatigue than I would have experienced if left to my own devices I have often told my colleagues enthusiastically of her interesting solutions to the frustrating problems of diction I am thrilled that her techniques are now in print for all to benefit from them In *Singing and Communicating in English* internationally renowned diction coach Kathryn LaBouff provides singers with an accessible guide to the principles of English diction they need to communicate the text successfully Her thorough and much sought after technique clarifies the physiology of speech emphasizes the studied practice of careful and articulate pronunciation and focuses on the study of English cadence Covering aspects of phonetics from vowels to diphthongs to fricatives the book includes multiple practical exercises in International Phonetic Alphabet IPA transcriptions helpful diagrams and pronunciation drills each chosen from the most essential English art song and operatic repertoire In addition to standard American and British English a variety of regional dialects and accents are covered in depth A companion website features a full range of vowel consonant drills poems read aloud by the author and by theater and voiceover actor John Keating as well as an exercise answer key and publishers lists to help the singer locate a vast array of English language works for performance This book is an invaluable resource for all vocalists both professional and aspiring diction instructors teachers and coaches and choral directors VISIT THE COMPANION SITE AT www.oup.com/us/singinginenglish
