**Stalin's Soviet Justice** David M. Crowe,2019-06-13 From the show trials of the 1920s and 1930s to the London Conference this book examines the Soviet role in the Nuremberg IMT trial through the prism of the ideas and practices of earlier Soviet legal history detailing the evolution of Stalin s ideas about the trial of Nazi war criminals Stalin believed that an international trial for Nazi war criminals was the best way to show the world the sacrifices his country had made to defeat Hitler and he together with his legal mouthpiece Andrei Vyshinsky maintained tight control over Soviet representatives during talks leading up to the creation of the Nuremberg IMT trial in 1945 and the trial itself But Soviet prosecutors at Nuremberg were unable to deal comfortably with the complexities of an open western style legal proceeding which undercut their effectiveness throughout the trial However they were able to present a significant body of evidence that underscored the brutal nature of Hitler s racial war in Russia from 1941 45 a theme which became central to Stalin s efforts to redefine international criminal law after the war Stalin s Soviet Justice provides a nuanced analysis of the Soviet justice system at a crucial turning point in European history and it will be vital reading for scholars and advanced students of the legal history of the Soviet Union the history of war crimes and the aftermath of the Second World War *The Dictators: Hitler's Germany, Stalin's Russia* Richard Overy,2006-01-17 A book of great importance it surpasses all others in breadth and depth Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction at the heart of darkness may be found Hitler Stalin and the systems of domination they forged Their lethal regimes murdered millions and fought a massive deadly war Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people In the first major historical work to analyze the two dictatorships together in depth Richard Overy gives us an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form Overy shows us the human and historical roots of these evils *Stalin's Famine and Roosevelt's Recognition of Russia* Wayne M. Morris,1994-03-15 [Russia and the USSR in the Twentieth Century](#) David MacKenzie,Michael W. Politburo discussions memoranda and speeches this book shows that the Soviet Union was a heavily militarized state that incessantly planned to unleash a great ideologically motivated war While the myth of Soviet benevolence has now largely been discredited the idea that Stalin s Soviet Union was a peaceful power that sought to prevent the war through all kinds of means including an ill fated non aggression treaty with Hitler remains popular to this day Indeed this narrative is not only promoted by Putin s propaganda but also by a host of Western intellectuals and even historians who take public declarations at face value Drawing on a host of internal Soviet Politburo discussions memoranda and speeches this book shows that the Soviet Union was a heavily militarized state that incessantly planned to unleash a great ideologically motivated war against the rest of the world In fact its entire political life revolved around the question of war especially following the onset of the Great Depression in 1929 which convinced Soviet leaders of the imminent collapse of the capitalist system abroad Thus both the collectivization as well as the terror that followed in its wake were done with the coming war in mind even though there was no tangible danger of war Slowed down by countless devastating setbacks Stalin was nevertheless able to amass a gigantic army by the late 1930s When Hitler approached Stalin in 1939 asking for Soviet neutrality in his planned invasion of Poland Stalin sensed a golden opportunity by supporting Hitler he could turn the European powers against each another allowing him to intervene once they were sufficiently weakened However Stalin miscalculated Hitler beat both Poland and France in less than a year and then turned against Moscow in 1941 long before Stalin was ready for his own attack

Egan,2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005 is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De

Straus, 2010-11-23 Kenneth Straus weaves together many threads in Russian social history to develop a new theory of working class formation in the years of Stalin's First Five Year Plan In so doing he addresses a long standing debate among historians by suggesting new answers to an old question Was there social support for the Stalin regime among the Soviet working class during the 1930s and if so why Straus argues that the keys for interpreting Stalinism lie in occupational specialization on the one hand and community organization on the other He focuses on the daily life of the new Soviet workers in the factory and community arguing that the most significant new trends saw peasants becoming open hearth steel workers housewives becoming auto assembly line workers and machine operatives and youth training en masse rather than occupations categories in the vocational schools in the factories the FZU Tapping archival material only recently available and a wealth of published sources Straus presents Soviet social history within a new analytical framework suggesting that Stalinist forced industrialization and Soviet proletarianization is best understood within a comparative European framework in which the theories of Marx Durkheim and Weber best elucidate both the broad similarities with Western trends and the striking exceptional aspects of the Soviet experience
