Standard Meridian Points Of Acupuncture Brand New:

Auriculotherapy Manual Terry Oleson, 2013-10-21 Auriculotherapy Manual Chinese and Western Systems of Ear Acupuncture provides a comprehensive guide to the practice of Chinese and Western systems of ear acupuncture This impressive new edition utilizes 3 D models of the external ear as well as 3 D anatomical images to demonstrate the somatotopic relationship between particular parts of the body and specific regions of the auricle This is the first ear acupuncture text that has incorporated 3 D technology in order to present amazing images of the auricle which precisely indicate ear acupoint positions The book offers in depth evaluation of the theoretical and clinical underpinnings of auriculotherapy describing and illustrating over 200 ear acupuncture points and more than 200 auriculotherapy treatment protocols for clinical disorders ranging from chronic pain to substance abuse to visceral and neurological disorders There are an expanded number of auricular landmarks that are utilized to guide the practitioner in accurately determining the precise location of hidden ear points on the 3 D model These landmarks further reveal the varied depth perspectives of the external ear The ear reflex points presented in this manual are based upon systematic research conducted at the UCLA Pain Management Center and upon the extensive clinical findings of medical doctors and acupuncturists in China and Europe over the past 50 years Scientific and clinical information from the most recent international symposia of auricular acupuncture have been used to update the scientific and clinical knowledge presented in this fourth edition Each chapter is organized in same basic order beginning with an introductory overview progressing to the main topics in the chapter and ending with a section listing a definition of terms and a set of preparatory sample questions The book is concise and clear enough for students yet provides sophisticated clinical approaches to allow the experienced practitioner to enhance and complement their existing treatment strategies

Towards a Philosophy of Cosmic Life David Bartosch, Attila Grandpierre, Bei Peng, 2023-08-22 Just as the six branches of a snow crystal converge in regular proportions toward their common center the six contributions to this book point toward a future philosophy of cosmic life In this sense this edited volume represents a multidisciplinary and transcultural polylogue of distinguished authors from three continents which aims to establish highly innovative perspectives and open new frontiers of developing philosophical reflections and scientific foundations for the emergence of a common cosmic consciousness for an integral ecology and for a cooperative planetary civilization of humanity John B Cobb Jr uses a process philosophical foundation to describe life as living events expressing novelty and the cosmos as a process of self enriching and self evolving Life Itself Chandra Wickramasinghe unfolds his scientific and philosophical perspective on cosmic life in twelve successive steps offering a wide range of arguments and insights that support an up to date theory of panspermia Attila Grandpierre presents the Cosmic Life Principle and the comprehensive science based upon it that is inextricably linked to the healthy and cooperative civilization to the biological laws of nature to the laws of logic to the uplifting of the well being of people and ecological communities Chunyou Yan

introduces the approach of his holographic philosophy according to which the universe must be understood as a vast living entity every aspect of which represents life Bei Peng shows that the proportions of energy meridians in traditional Chinese medicine correspond to musical intervals and on this basis she demonstrates the analogy of the human body to macrocosmic phenomena David Bartosch offers an examination of three important systematic foundations for a poly contextual transcultural philosophy of cosmic life with roots in Greek Chinese South and West Asian and European traditions of thought
