The Super-Afrikaners Ivor Wilkins, Hans Strydom, 2012-08-28. The *Super-Afrikaners* originally published in South Africa in 1978, scandalised a nation as it exposed the secret workings of a powerful Afrikaner organisation called the Broederbond. Out of print for over three decades, this new edition is available for a new generation and includes an introduction by Max du Preez. Formed in Johannesburg in 1918 by a group of young Afrikaners disillusioned by their role as dispossessed people in their own country, the first triumph of this remarkable organisation was the fact that it was largely responsible for welding together dissident factions within Afrikanerdom and thereby ensuring the accession of the National Party to power in 1948. This highly organised clique of Super-Afrikaners, by sophisticated political intrigue, waged a remarkable campaign to harness political, social, and economic forces in South Africa to its cause and succeeded. Political journalists Hans Strydom and Ivor Wilkins traced, at great personal risk, its development from its earliest days. The book includes the most comprehensive list of Broeders ever published.
