

WINNER OF 'BEST CULINARY JOURNALIST IN THE ENGLISH
LANGUAGE' AT THE WORLD COOKBOOK FAIR

For more than thirty years Derek Cooper has been reporting on the food industry, both in Britain and abroad. In his long career he has received an unprecedented series of awards and has been described as 'just about the best commentator on food in any of these islands'. *Snail Eggs and Samphire* is a selection of the very best of his writing over the last three decades.

'Trenchant, funny and wise observations, written with an élan that is every bit as distinctive as Derek Cooper's broadcasting voice.'

Matthew Fort, *Guardian*

'Cooper's book is seriously concerned about what we eat and with what the great anonymous "they" are trying to sell us. It is also fun to read, thanks to his frequently sly sense of humour.'

Paul Bailey, *Sunday Times*

'A fascinating and very readable book.'

Harper & Queen

'Entertaining, engrossing and enlightening.'

Henry Harris, *The Times*

Chasing the Dram Rachel McCormack, 2017-06-29 Hard not to hate Rachel McCormack who bags the best gig of the year and then writes a brilliant book Val McDermid Whisky is Scotland's national drink and has been for over five hundred years since then becoming a global phenomenon It is a drink that is a profound and important part of Scottish life and culture but unlike other countries and their national libations it has hardly been used in food Rachel McCormack is going to change that with this book Limiting whisky to a drink she believes is similar to the traditional Presbyterian attitude to sex it should only be done with the lights off and in the missionary position Rachel believes that there is an entire Karma Sutra of whisky use out there and she has put it in this book Interspersing an engaging mix of anecdotes history and information on distillers and recipes this book will appeal to everyone from the cooking whisky connoisseur to the novice whisky learner looking for some guidance on what to eat and cook Rachel travels the length and breadth of Scotland discovering a myriad of unique and interesting people and facts about this remarkable drink with interviews with the key people who create it around the country as she visits the famous distilleries of her country as well as the more home grown variety

Food Quality and Consumer Value Monika J.A. Schröder, 2013-03-09 Consumer markets for foods and beverages in developed countries are well supplied and highly fragmented Yet the question being asked is how close retailers actually come to fulfilling their customers requirements The concept of consumer value is one of the main pillars underpinning the theory of market differentiation This book takes an interdisciplinary approach to the analysis of satisfaction in relation to the consumption of food with both food science and consumer science playing central parts It approaches food quality from both the technical and the consumer satisfaction perspectives and assesses the roles of management and regulatory tools in delivering food quality for all Each area is discussed in detail using the appropriate technical terminology but keeping the text accessible to readers from both academic traditions as well as to non specialist readers

The Way We Eat Now Bee Wilson, 2019-05-07 An award winning food writer takes us on a global tour of what the world eats and shows us how we can change it for the better Food is one of life's great joys So why has eating become such a source of anxiety and confusion Bee Wilson shows that in two generations the world has undergone a massive shift from traditional limited diets to more globalized ways of eating from bubble tea to

quinoa from Soylent to meal kits Paradoxically our diets are getting healthier and less healthy at the same time For some there has never been a happier food era than today a time of unusual herbs farmers markets and internet recipe swaps Yet modern food also kills diabetes and heart disease are on the rise everywhere on earth This is a book about the good the terrible and the avocado toast A riveting exploration of the hidden forces behind what we eat The Way We Eat Now explains how this food revolution has transformed our bodies our social lives and the world we live in **A Tale of 12 Kitchens** Jake Tilson,2006-01-01 A culinary journey in search of the finest examples of family cookery in the U S France Italy and Britain describes the author s cooking adventures and includes more than seventy five recipes from such disparate locales as Southern California New York s Lower East Side Tuscany the Algerian quarter in Paris and Scotland **Swindled** Bee Wilson,2020-06-16 Bad food has a history Swindled tells it Through a fascinating mixture of cultural and scientific history food politics and culinary detective work Bee Wilson uncovers the many ways swindlers have cheapened falsified and even poisoned our food throughout history In the hands of people and corporations who have prized profits above the health of consumers food and drink have been tampered with in often horrifying ways padded diluted contaminated substituted mislabeled misnamed or otherwise faked Swindled gives a panoramic view of this history from the leaded wine of the ancient Romans to today s food frauds such as fake organics and the scandal of Chinese babies being fed bogus milk powder Wilson pays special attention to nineteenth and twentieth century America and England and their roles in developing both industrial scale food adulteration and the scientific ability to combat it As Swindled reveals modern science has both helped and hindered food fraudsters increasing the sophistication of scams but also the means to detect them The big breakthrough came in Victorian England when a scientist first put food under the microscope and found that much of what was sold as genuine coffee was anything but and that you couldn t buy pure mustard in all of London Arguing that industrialization laissez faire politics and globalization have all hurt the quality of food but also that food swindlers have always been helped by consumer ignorance Swindled ultimately calls for both governments and individuals to be more vigilant In fact Wilson suggests one of our best protections is simply to reeducate ourselves about the joys of food and cooking **Bulletin** ,2003
