Snare Of The Hunter The:

The Snare of the Hunter Helen MacInnes, 1994 The grey veil of dusk was falling thickly over the wooded hills as she reached the cruel tangle of barbs At that moment a single shot rang out **Snare of the Hunter** Helen MacInnes, 2013-08-06 Irina Kusak's recently divorced husband Jiri Hrdék is a high ranking official in the Czechoslovakian secret police cruel ambitious utterly ruthless So when he turns a blind eye to her defection to the west she is uneasy Aided in her escape by a group of friends including David Mennery an American with whom she once had a passionate affair Irina begins to feel herself truly free But soon their journey becomes a nightmare It becomes clear that Hrdék only allowed Irina to defect in order to bait a trap for her father a world famous author living in secrecy in the west but when she refuses to lead Hrdék to his quarry Irina herself becomes his prime target As Hrdék closes in and Irina's life hangs in the balance David Mennery is drawn into a desperate fight to protect her and finds himself once more falling deeply in love *The Law of the Lifegivers* Claude Brodeur, René Devisch, 2018-12-07 African societies are gifted with a rich creativity often expressed in intimate corporeal terms For the Yaka people of southwestern Congo such manifestations can have individual social or even cosmic significance The Law of the Lifegivers investigates the importance among the Yaka of body and space in their daily life exercise of power and initiatic traditions Through this analysis Devisch and Brodeur show that body desire and symbol are intertwined so that bodily expression can act as sensuous and powerful symbol The domestication of passion and the institutionalizing of a subject are all expressed in bodily terms particularly during initiations the ethical order of law rests on many bodily symbols including the importance of maternal and paternal lifegivers The authors vividly describe the different life giving or life threatening roles which function in this society such as sorcerer diviner therapist and chief as well as the funeral drama which shapes the passage to the afterlife with the ancestors as experienced by the dying subject and his community Through their dialogue and correspondence Devisch and Brodeur an anthropologist and a psychoanalyst respectively bring together two sometimes conflicting intellectual approaches They aim to unravel a truth which is freed as much as possible from the presumption that only the West possesses the knowledge of objective discourse and science Through the interaction the authors reveal the semantic threads located at the very heart of the most vital life giving processes which weave the fabric of the practice and thought of a riveting passionate Africa Hunter-trader-trapper , 1911

The Chimpanzees of the Budongo Forest Vernon Reynolds, 2005-06-30 Unlike humans who came down from the trees and developed bipedal locomotion chimpanzees have remained in the original habitat of our ancestors the tropical rainforests of Africa In this book Vernon Reynolds describes in detail the work of a large number of students and senior researchers on the wild chimpanzees of the Budongo Forest Reserve in Western Uganda He presents a coherent and in depth account of one chimpanzee community of more than 60 individuals living in the Sonso area in the middle of the Budongo Forest which he and his colleagues have studied intensively over the last 15 years The chimpanzees have never been provisioned and live in

an entirely natural state Reynolds describes their forest habitat their diet and culture their social organization and behaviour their diseases and the threats to them that derive from the actions of people in the surrounding villages the most serious of these being the presence of snares set by hunters to catch small antelopes and pigs As founder and head of the Budongo Forest Project Professor Reynolds has been responsible for compiling the numerous publications reports and dissertations written about these chimpanzees In this book he combines these new and often unpublished studies with past publications about Budongo Forest Where appropriate he also compares the Budongo chimpanzees with wild chimpanzees studied at other sites across Africa The result is the most comprehensive account of the Budongo chimpanzees ever published with a wealth of referenced material that will serve as a source of information for many years to come A'Kyria Our Own Game Company,2011-02-15 This is A Kyria Somewhere out in space lies the edge of the universe a point where there is no more void but an anti void or a full space It is a wall of matter so wide so far reaching that the beings of a thousand planets cannot trace the end of it It is where dark matter ends and white matter begins The end of the universe it seems is just the beginning of a world so vast that physics must discover new laws to explain it The surface is merely the edge of where one stage of the universe transitions into the next The mysterious white matter has mass but is not effected by or generates gravity Other mass centers create gravity they can exist anywhere and in any combination In this Universe the types of lands are as diverse as the imagination can create Suns orbit some lands to create rings of life along the endless surface Our forbears who believed that the sun orbited the planet would find their beliefs valid Life might exist in a figure 8 set of rings around cavern entrances radiating areas from tropical to glacial Moons or planetoids could spin around their own centers creating kaleidoscopes of orbiting bodies In other areas suns might exist below the surface creating cavernous lands that cover the surface like lichen a Dyson sphere with the star positioned in the center and life on the walls In A Kyria the lands do not need to be traditional or follow the methods we deem normal to create places of splendor Some lands might not need a star at all but maybe a moon heated by a sun when exiting a cavern and brings the heat down with it as it travels Imagine a weaker dimmer star that travels through a channel with all the life existing upon the surface of the cavern The sun sets when it rises above the surface leaving the cavern in darkness There are lands in permanent twilight from suns that barely rise above the surface as well as others that remain fixed giving constant daylight and burned lands where the suns are too close together There are frozen wastes and oceans that stretch to the edges of forever lands of strange beliefs alien bizarre or comforting in its familiarity It is a land of infinite possibilities where magic and technology peasant and space ranger can meet just as easily as neighbors taking out the trash It is a world where the only limits are the limits you place on yourself Welcome to A Kyria *An Exposition with Practicall Observations continued upon the eighteenth, nineteenth, twentieth, and twenty-one [sic] chapters of the Book of Job: being the summe of forty-two lectures, etc. [With the text.]* Joseph CARYL,1658

Jataka Tales of the Buddha (Volume III) Ken and Visakha Kawasaki,2018-02-15 Whereas Western intellectuals seek the essence of Buddhism in its doctrines and meditation practices the traditional Buddhists of Asia absorb the ideas and values of their spiritual heritage through its rich narrative literature about the Buddha and his disciples The most popular collection of Buddhist stories is without doubt the Jatakas These are the stories of the Buddha s past births relating his experiences as he passed from life to life on the way to becoming a Buddha At times he takes the form of a bird at times he is born as a hare a monkey a prince a merchant or an ascetic but in each case he uses the challenges he meets to grow in generosity virtue patience wisdom and compassion This anthology of Jatakas ably told by Ken and Visakha Kawasaki remains faithful to the original yet presents the stories in clear and simple language It thereby makes the Jatakas accessible even to young readers and to those for whom English is not their first language
