Screening the Stage Bert Cardullo, 2006 This book examines the historical cultural and aesthetic relationships between theater and film As we enter the 21st century almost all artists students and critics working in theater will have had earlier and greater exposure to film than to theater In fact film has become central to the way in which we perceive and formulate stories images ideas and sounds At the same time film and video occupy an increasingly significant place in theater study both for the adaptation of plays and for the documentation and preservation of theatrical performances Yet far too often theater and film artists as well as educators make the jump from one medium to the other without being fully aware of the ways in which the qualities of each medium affect content and artistic expression This book is intended to fill such a gap by providing a theoretical and practical foundation for understanding the effect that film and drama have had and continue to have on each other's development Moreover this study provides a history of the relationship between drama and cinema starting with the pre-cinematic late 19th century impulse towards capturing spectacular action on the stage and examining the artistic and commercial interaction between movies and plays both in popular and experimental work throughout the 20th century Important subjects treated in this book include stage versus screen acting the adaptation process itself the theatrical as well as the cinematic avant garde and the portability or adaptability of dramatic character

Giant Love Julie Gilbert, 2024-12-03 A book that explores the great American novelist and playwright Edna Ferber winner of the Pulitzer Prize for Fiction whose work was made into many Academy Award winning movies the writing of her controversial international best selling novel about Texas and the making of George Stevens Academy Award winning epic film of the same name Giant The stupendous publication of Edna Ferber's Giant in 1952 set off a storm of protest over the novel's portrayal of Texas manners money and mores with oil rich Texans threatening to shoot lynch or ban Ferber from ever entering the state again In Giant Love Julie Gilbert writes of the internationally best selling Ferber one of the most widely read writers in the first half of the 20th Century her evolution from mid west maverick girl reporter to Pulitzer Prize winning beloved American novelist from her want to be actress days to becoming Broadway's acclaimed prize winning playwright whose collaborators George S. Kaufman and Moss Hart among them were along with Ferber herself the most successful playwrights of their time Here is the making of an American classic novel and the film that followed in its wake We see how George Stevens Academy Award winning director wooed the prickly stubborn Ferber ultimately getting her to agree to everything including writing for the first time ever a draft of a screenplay to her okaying James Dean for the part of the ranch hand Jett Rink something she was dead set against Here is the casting of Elizabeth Taylor Rock Hudson James Dean and their backstory triangle of sex and seduction each becoming a huge star because of the film the frustrated Stevens trying to direct the instinctive but undisciplined Dean and the months long landmark filming in the sleepy town of Marfa Texas suddenly invaded by a battalion of a film crew and some of the biggest stars in the rising celebrity culture **Stage Management**

Michael Smalley, 2023-12-28 Drawing on interview material from more than 20 leading stage managers from the UK USA and Australia this book situates the contemporary practice of stage management within its historical and social contexts Questioning the notions of the invisible stage manager and a linear production process it argues for a broader conception of stage management lying at the intersections of administration management and artistry This volume places stage management practice within key theories drawn from the diverse fields of performance studies semiotics phenomenology

distributed cognition management and scenography It champions the creative agency of stage management and details the properties of communication which stage managers manipulate and the objectives they set out to achieve as a guide for decision making While it considers the different approaches necessitated by productions from different cultures genres and so on it offers a view of stage management which is not bound by these differences *I Hate Writing* J. M. Bohannon, 2005 *I Hate Writing* may be the only page turner textbook out there J M Bohannon gives her readers invaluable writing advice using an uplifting modern voice tinged with humor She takes her readers through the stages of writing a paper giving detailed advice on how to find topics turn ideas into words and organize those words into coherent paragraphs with seamless transitions She shows her readers how to revise their own work and through her Critical Q s teaches them to become critical readers She also explains how to find outside sources and how to include those sources in a paper Too many students approach writing at the university level as a scientist approaches a volatile experiment with protective suit goggles gloves and forceps They struggle to write without contaminating that writing with anything resembling personality Don t let that student be you Your unique voice should blast through your writing letting everyone know there s a person behind your words
