Inuit, 2017-01-22 Reader you may wonder Is this a science fiction story with human clones Or is this a spiritual novel related to God It is both Two ETs come to Earth for a vacation They analyze and they worry about what is happening on our planet

They don't understand why the elite control the lives of people. They don't comprehend why ordinary Humans so feebly react to that. But the beginning of the 21st century was a time of Great Awakening. The pivotal moment was the subtle split of Earth's magnetic field. It allowed the creation of two densities, two worlds. Follow the thrilling events that lead to that moment. Read the story of people who softly act and change their worldview. Read about Humans as spiritual beings in a material world. Those two ETs teach them to have a dialogue with the Divine Self Within. They help Humans to be aware like themselves of being clones of God. Then they can be empowered and change the world for good. With those two ETs and enlightened Humans embark on this odyssey.

Humanity's End Nicholas Agar, 2013-08-16. An argument that achieving millennial life spans or monumental intellects will destroy values that give meaning to human lives. Proposals to make us smarter than the greatest geniuses or to add thousands of years to our life spans seem fit only for the spam folder or trash can. And yet this is what contemporary advocates of radical enhancement offer in all seriousness. They present a variety of technologies and therapies that will expand our capacities far beyond what is currently possible for human beings. In *Humanity's End* Nicholas Agar argues against radical enhancement, describing its destructive consequences. Agar examines the proposals of four prominent radical enhancers: Ray Kurzweil who argues that technology will enable our escape from human biology; Aubrey de Grey who calls for anti-aging therapies that will achieve longevity; escape velocity; Nick Bostrom who defends the morality and rationality of enhancement; and James Hughes who envisions a harmonious democracy of the enhanced and the unenhanced. Agar argues that the outcomes of radical enhancement could be darker than the rosy futures described by these thinkers. The most dramatic means of enhancing our cognitive powers could in fact kill us: the radical extension of our life span could eliminate experiences of great value from our lives, and a situation in which some humans are radically enhanced and others are not could lead to tyranny of posthumans over humans.

The Wizard's Crown Michael G. Manning, 2022-05-29. Will's journey from naïve apprentice to a mature wizard is almost complete, and his ever-growing mastery has reached unseen heights. But his power does not exist in a vacuum. His rising star threatens to eclipse the existing powers, and a new balance must be found, one that either accepts his primacy or extinguishes his light. After Will's resounding successes in the war with Darrow, the king plots to eliminate his young rival. Driven to desperation, Will is forced to negotiate for scraps between four brokers of power: An ancient lich driven by vengeance; The fae queen to whom all are just pawns in a deadly game; A nervous lord of Hell because Will may have killed his predecessor twice; A primal beast feared above all. With mortal enemies as his allies, Will must survive to face the king and the deadly secret he plans to unleash. Ancient foes have risen, and the final battle has begun. With the world hanging in the balance, king and wizard clash, but only one can wear the Wizard's Crown.
