The Explorers of South America Edward Julius Goodman, 1992 A narrative history of exploration from Christopher Columbus to the 19th century with journal excerpts diaries and other writings of the explorers themselves Goodman has marshaled his wide ranging research and lifelong interest in exploration into a comprehensive scholarly history A reprint of the original 1972 edition the tales have lost none of their luster **The Killing of Dr. Albrecht Roscher** J. W. Heldring, 2011-11-30 Africa in the mid nineteenth century was still very much an unknown continent its vast lands a source of unceasing interest and mystery La the white man This was the age of discovery the decades before the fascination wore off and the scramble for Africa began in earnest Explorers such as Burton Speke and Livingstone were the names on everyone s

lips In this climate Albrecht Roscher grew up to be an outstanding young scholar whose interest in the works of classical writers such as Ptolemy and Herodotus inspired in him a love of geography science and biology which the achievements of Burton and others only served to inflame Africa beckoned However little did he imagine as he left Germany for the shores of East Africa that he would never return His murder before he managed to fulfill his ambitions has ensured that he has been largely consigned to a footnote in the history of African exploration In *The Killing of Dr Albrecht Roscher* Haldred sets out to redress the balance in what is a fitting tribute to a man who had he lived longer might have gone on to rival the achievements of Burton Livingstone and the other great explorers of that age

Science, Empire and the European Exploration of the Pacific Tony Ballantyne, 2018-10-24 This collection of essays assesses the interrelationship between exploration empire building and science in the opening up of the Pacific Ocean by Europeans between the early 16th and mid 19th century It explores both the role of various sciences in enabling European imperial projects in the region and how the exploration of the Pacific in turn shaped emergent scientific disciplines and their claims to authority within Europe Drawing on a range of disciplines from the history of science to geography imperial history to literary criticism this volume examines the place of science in cross cultural encounters the history of cartography in Oceania shifting understandings of race and cultural difference in the Pacific and the place of ships books and instruments in the culture of science It reveals the exchanges and networks that connected British French Spanish and Russian scientific traditions even in the midst of imperial competition and the ways in which findings in diverse fields from cartography to zoology botany to anthropology were disseminated and crafted into an increasingly coherent image of the Pacific its resources peoples and histories This is a significant body of scholarship that offers many important insights for anthropologists and geographers as well as for historians of science and European imperialism

Science and Exploration in the Pacific Margarette Lincoln, 1998 This volume contains studies of scientific and cultural discoveries made on Cook's 1768-7 voyage to the South Sea in Endeavour and issues emerging from this and successive Pacific voyages

Strangers in the South Seas Richard Lansdown, 2006-04-30 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaic islands at the far ends of the earth First set down by Egyptian storytellers Greek philosophers and Latin poets such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences as the region revealed gaps and anomalies in the great chain of being that Charles Darwin would begin to address after his momentous visit to the Galapagos Islands The Pacific produced similar challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe Although most missionary efforts ultimately met with success others ended in ignominious retreat As the century wore on the

region presented opportunities and dilemmas for the imperial powers leading to a guilty desire on the part of some to pull out along with an equally guilty desire on the part of others to stay and help This process was accelerated by the Pacific War between 1941 and 1945 After more than two millennia of fantasies the story of the West's fascination with the insular Pacific graduated to a marked sense of disillusion that is equally visible in the paintings of Gauguin and the journalism of the nuclear Pacific Strangers in the South Seas recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It begins in 1521 with an account of Guam by Antonio Pigafetta one of the few men to survive Magellan's circumnavigation voyage and ends in the late 1980s with the writing of an American woman Joana McIntyre Varawa as she faces the personal and cultural insecurities of marriage and settlement in Fiji It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance Comprehensively illustrated and annotated this anthology will introduce readers to a region central to the development of modern Western ideas This is a carefully conceived anthology covering an excellent range of subjects The selections are well chosen and interesting and the introductory materials are both scholarly and accessible It should be widely used in university courses dealing with almost any aspect of the Pacific Rod Edmond University of Kent at Canterbury

Damião de Gois Elisabeth Feist Hirsch, 2012-12-06 Scholars have given relatively little attention to sixteenth century Portuguese humanism although Portugal's vital influence on the humanistic thirst for learning has been readily acknowledged Through her heroic explorations of distant lands and dangerous sea routes Portugal infected many humanists with the excitement of discovery none more than Damiao de Gois Portuguese student of history Gois although generally little known was in his life and finally as a victim of the Inquisition in Portugal thoroughly representative of the course of sixteenth century Erasmian humanism in Portugal in addition he deserves recognition in his own right as a contributor to modern historiography Portugal's explorations and the atmosphere of passion for discovery that prevailed in Lisbon had as strong an influence on Gois during his early years as that of the school of Erasmus the prince of humanists who was eventually to become his personal friend and guide Gois's two great chronicles of the Portuguese kings John II and Manuel I culminated a life spent as diplomat composer art collector articulate pleader for religious tolerance and scrupulous student of history A factual report of Gois's life in the main outlines accurate but not complete exists in Portuguese and a short resume of his life has been published in English but so far no full study has been available in any language

India's Shakespeare: Translation, Interpretation and Performance Poonam Trivedi, Dennis Bartholomeusz, 2005 India's Shakespeare Translation Interpretation and Performance is ideal for English literature performance translation studies This collection of essays examines the diverse aspects of

Shakespeare's interaction with India since two hundred years ago when the British first introduced him here. While the study of Shakespeare was an imperial imposition, the performance of Shakespeare was not. Shakespeare translated and adapted on the commercial stage during the late nineteenth century was widely successful and remains to this day the most published and performed western author in India. The important role Shakespeare has played in allowing cultures to speak with each other forms the center of this volume with contributions examining presence of Shakespeare in both colonial and post colonial India. The essays discuss the several contexts in which Shakespeare was read, taught, translated, performed and absorbed into the cultural fabric of India. The introduction details the history of this induction, its shifts and developments and its corresponding critical discourse in India and the west. This collection of essays emerging from first hand experience is presented from a variety of critical positions: performative, textual, historicist, feminist and post colonialist, as befits the range of the subject.

A World Lit Only by Fire William Manchester, 2009-09-26. A lively and engaging history of the Middle Ages. Dallas Morning News. From the acclaimed historian William Manchester, author of *The Last Lion*. From tales of chivalrous knights to the barbarity of trial by ordeal, no era has been a greater source of awe, horror and wonder than the Middle Ages. In handsomely crafted prose and with the grace and authority of his extraordinary gift for narrative history, William Manchester leads us from a civilization tottering on the brink of collapse to the grandeur of its rebirth, the dense explosion of energy that spawned some of history's greatest poets, philosophers, painters, adventurers and reformers, as well as some of its most spectacular villains. Manchester provides easy access to a fascinating age when our modern mentality was just being born.

Chicago Tribune [Christianity and Missions, 1450-1800](#) J. S. Cummins, 2016-12-05. The theme of this volume is the transformation of European Christianity into a world wide religion. The spirit of crusade against Islam was one impulse driving the early expansion; these essays show how new ideologies of mission were developed and how perceptions have continued to evolve, notably in the light of Vatican II. They reveal the differing attitudes and roles of missionaries in such radically different environments as America and China and the equally varied ways in which this activity was received with the many problems of accommodation and syncretism. Topics covered include the development of new institutions to control missionary activity, notably the Roman Propaganda; Fidei tensions around race and the role of women; and the stimulus given for instance to linguistic studies by the need to communicate. Finally they examine the belated awakening of the Protestant churches to the need to compete with Rome in the evangelization of the world.
