Computational Metrics for Soccer Analysis Filipe Manuel Clemente, João Bernardo Sequeiros, Acácio

F.P.P. Correia,Frutuoso G. M Silva,Fernando Manuel Lourenço Martins,2017-10-20 This book provides an account of the use of computational tactical metrics in improving sports analysis in particular the use of Global Positioning System GPS data in soccer As well as offering a practical perspective on collective behavioural analysis it introduces the computational metrics available in the literature that allow readers to identify collective behaviour and patterns of play in team sports These metrics only require the bio dimensional geo referencing information from GPS or video tracking systems to provide qualitative and quantitative information about the tactical behaviour of players and the inter relationships between teammates and their opponents Exercises experimental cases and algorithms enable readers to fully comprehend how to compute these metrics as well as introducing them to the ultimate performance analysis tool which is the basis to run them on The script to compute the metrics is presented in Python The book is a valuable resource for professional analysts as well students and researchers in the field of sports analysis wanting to optimise the use of GPS trackers in soccer *Official Basket Ball Rules* ,1909
