Sri Lanka Ethnic Fratricide The Dismantling of Democracy

Sri Lanka--Ethnic Fratricide and the Dismantling of Democracy Stanley Jeyaraja Tambiah, 1986 Focusing on the historical events of post independence Sri Lanka S J Tambiah analyzes the causes of the violent conflict between the majority Sinhalese Buddhists and the minority Tamils He demonstrates that the crisis is primarily a result of recent societal stresses educational expansions linguistic policy unemployment uneven income distribution population movements contemporary uses of the past as religious and national ideology and trends toward authoritarianism rather than age old racial and religious differences In this concise informative lucidly written book scrupulously documented and well indexed Tambiah trains his dispassionate anthropologist s eye on the tangled roots of an urgent present day problem in the passionate hope that enlightenment understanding and a generous spirit of compromise may yet be able to prevail Merle Rubin Christian Science Monitor An incredibly rich and balanced analysis of the crisis It is exemplary in highlighting the general complexities of ethnic crises in long lived societies carrying a burden of historical memories Amita Shastri Journal of Asian Studies Tambiah makes an eloquent case for pluralist democracy in a country abundantly endowed with excuses to abandon such an approach to politics Donald L Horowitz New Republic An excellent and thought provoking book for anyone who cares about Sri Lanka Paul Sieghart Los Angeles Times Book Review

Relocation Failures in Sri Lanka Robert Muggah, 2009-05-15 Each year millions of people are internally displaced and resettled in the wake of wars and floods or to make way for large scale development projects and this number is increasing Humanitarian and development specialists continue to struggle with designing and executing effective protection strategies and durable solutions Relocation Failures explains how internal displacement and efforts to engineer resettlement are conceived and practiced by policy makers and practitioners The author argues that policies for internally displaced peoples are weak and diluted by narrow interpretations of state sovereignty and collective action dilemmas and in the case of Sri Lanka unintentionally intensified ethnic segregation and ultimately war This unique new book considers the origins and parameters of internal displacement and resettlement policy and practice and proposes an explanation for why it often fails In highlighting the ways that development assistance can exacerbate smoldering conflicts the volume provides an important caution to the aid community

Architecture, Power, and National Identity Lawrence J. Vale, Professor Urban Studies and Planning Lawrence J Vale, 1992-01-01 Explores parliamentary complexes in capital cities on six continents showing how the buildings that house national government institutions are products of the political and cultural balance of power within pluralist societies *The Cauldron of Ethnicity in the Modern World* Manning Nash, 1989 The melting pot metaphor conveys an image of individuals from varied origins blending imperceptibly together But when such ingredients as inequality nationalism or perceived injustice are added to the mix the melting pot can become a seething cauldron Manning Nash s examination of ethnicity in the postcolonial world offers insights into the ways that ethnic tensions are engendered and sustained Ethnicity Nash suggests is formed by historical

processes based on preexisting elements of society and culture. Notions of ethnicity have at their core the recursive metaphor of blood bed and cult body substance kinship and religious belief. When individuals who perceive themselves bound by these ties are threatened in some way, ethnicity becomes a unifying call to action. Nash identifies a number of concepts: political self rule, economic opportunity, cultural identity, religious freedom, that have been rallying cries for ethnic struggles in the twentieth century. He offers a novel analysis of the ways that ethnic groups identify themselves and maintain boundaries and he assesses the circumstances under which ethnicity may be relevant or nearly irrelevant to political, economic and cultural dynamics. Nash presents three case studies that highlight the multifaceted nature of ethnicity and that each demonstrate a particular mode of comparative method. He compares a situation of conquest: Ladino and Maya in Mexico and Guatemala, a new excolonial nation with nearly equally sized groups: Chinese and Malays in Malaysia, and a small immigrant group in a large nation: Jews in the United States, pointing out the many possible combinations of political, economic or cultural struggles in ethnic conflicts. Even in nations where such conflict is minimal, Nash warns, ethnicity remains a reservoir of turbulence in a world where power, wealth and dignity are unevenly and illegitimately distributed.

The Clash of Civilizations and the Remaking of World Order Samuel P. Huntington, 1997. An insightful and powerful analysis of the forces driving global politics today and into the next century. In the summer of 1993, *Foreign Affairs* published an article entitled *The Clash of Civilizations* by Samuel Huntington. No article according to the editors of that distinguished journal had generated more discussion since George Kennan's 1940 article on containment. Now Huntington expands on his article, explores further the issues he raised then, and develops many new penetrating and controversial analyses. In the article, he posed the question: whether conflicts between civilizations would dominate the future of world politics. In the book, he gives his answer, showing not only how clashes between civilizations are the greatest threat to world peace, but also how an international order based on civilizations is the best safeguard against war.

Dragons and Tigers Barbara A. Weightman, 2011-03-15. *Dragons and Tigers: A Geography of South East and Southeast Asia* Third Edition explores and illustrates conditions, events, problems and trends of both larger regions and individual nations. Using a cross disciplinary approach, the author discusses evolving physical and cultural landscapes. Nature, society relations provide the foundation for social, economic, political and environmental problems. *Dragons and Tigers* is the only textbook that covers all three regions: South Asia, East Asia and Southeast Asia in one textbook. It is the most comprehensive book on the market about the geography of Asia.
