Preaching of the Scriptures in the Worship of the Christian Church, Volume 2 Hughes Oliphant Old, 1998 Hughes Oliphant Old surveys the history of preaching in the Greek schools of Alexandria and Antioch in the Syriac church and throughout the Christian Empire concluding with the preaching of Leo the Great Peter Chrysologos and Gregory I John Chrysostom on Divine Pedagogy David Rylaarsdam, 2014-10-30 Contrary to the portrayals of Chrysostom as a theologically

impaired moralizing sophist this book argues that his thinking is remarkably coherent when it is understood on his own terms and within his culture Chrysostom depicts God as a teacher of philosophy who adaptably guides people toward salvation Since the theme of divine adaptability influences every major area of Chrysostom's thought tracing this concept provides a thorough introduction to his theology It also explains at least in part several striking features of his homilies including his supposed inconsistencies his harsh rhetoric and apparent political naiveté his intentionally abridged and exoteric theological discussions and his lack of allegiance to an Antiochene school In addition to illuminating such topics the concept of adaptability stands at one of the busiest intersections of Late Antique culture for it is an important idea found in rhetoric and discussions about the best methods of teaching philosophy Consequently adaptability is an ingredient in the classical project of paideia and Chrysostom is a Christian philosopher who seeks to transform this powerful tradition of formation He gives his Christianized paideia a theological foundation by adapting and seamlessly integrating traditional pedagogical methods into his reading and communication of Scripture David Rylaarsdam provides an in depth case study of one prominent leader's attempt to transform culture by forming a coherent theological discourse that was adapted to the level of the masses

Politics in the Pulpit Eric Ayala, 2023-05-16 Our nation is becoming ever more politicized Everything from the environment to human gender have become political issues While the old sentiment of not preaching politics from the pulpit may have once been good advice it is increasingly more difficult not to The problem preachers have is knowing how to wade through political issues without becoming a political pundit A preacher can end up either merely repeating party talking points or retreating into avoiding biblical topics to avoid dealing with political hot button issues Thankfully our age is not the only one to have ever suffered political crises and we can learn from the preachers of the past One such preacher was John Chrysostom He was not just a preacher but also a man steeped in a sensitive political climate Through the work of a dedicated sermon series Chrysostom was able to calm tensions in a city who had rioted and destroyed statues of the emperor These Homilies on the Statues proved to be a pivotal and powerful example of political preaching By examining the homiletical methods of John Chrysostom's Homilies on the Statues we can learn how to responsibly and powerfully engaging political topics in our own day

Contextualization of the Gospel Andrew James Prince, 2017-06-07 There has been heightened interest and prolific publication by missiologists about contextualization since the term was first coined in 1972 There has been ongoing debate particularly amongst evangelicals themselves regarding which of these meanings methods and models of contextualization are acceptable to use Much of the debate has been carried out by academics and practitioners whose observations and conclusions have been largely shaped by the social sciences and practical theology In contrast the disciplines of biblical studies and Christian thought have not featured significantly in the debate The purpose of this research is to establish that biblical studies and Christian thought in general and Scripture and the church fathers in particular have an essential contribution to make in the contextualization debate and should form part of an evangelical

approach to contextualization of the gospel alongside the social sciences and practical theology Following a review of the literature on contextualization over the past forty years the research examines the book of Acts as representative of Scripture and the work of John Chrysostom as a representative church father Contextual principles that are consistent with an evangelical approach to contextualization of the gospel are drawn from each work establishing the value of biblical studies and Christian thought in contextualization

Social Control in Late Antiquity Kate Cooper, Jamie Wood, 2020-10-01 Social Control in Late Antiquity The Violence of Small Worlds explores the small scale communities of late antiquity households monasteries and schools where power was a question of personal relationships When fathers husbands teachers abbots and slave owners asserted their own will they saw themselves as maintaining the social order and expected law and government to reinforce their rule Naturally the members of these communities had their own ideas and teaching them to obey their betters was not always a straightforward business Drawing on a wide variety of sources from across the late Roman Mediterranean from law codes and inscriptions to monastic rules and hagiography the book considers the sometimes conflicting identities of women slaves and children and documents how they found opportunities for agency and recognition within a system built on the unremitting assertion of the rights of the powerful
