Luhan earlier that year *Stalking the Subject* Carrie Rohman, 2009 Human and animal subjectivity converge in a historically unprecedented way within modernism as evolutionary theory imperialism antirationalism and psychoanalysis all grapple with the place of the human in relation to the animal Drawing on the thought of Jacques Derrida and Georges Bataille Carrie Rohman outlines the complex philosophical and ethical stakes involved in theorizing the animal in humanism including the difficulty in determining an ontological place for the animal the question of animal consciousness and language and the paradoxical status of the human as both a primate body and a human mind abstracting itself from the physical and material world Rohman then turns to the work of Joseph Conrad D H Lawrence H G Wells and Djuna Barnes authors who were deeply invested in the relationship between animality and identity *The Island of Dr Moreau* embodies a Darwinian nightmare of the evolutionary continuum *The Croquet Player* thematizes the dialectic between

evolutionary theory and psychoanalysis and *Women in Love* *St Mawr* and *Nightwood* all refuse to project animality onto others inverting the traditional humanist position by valuing animal consciousness A novel treatment of the animal in literature *Stalking the Subject* provides vital perspective on modernism's most compelling intellectual and philosophical issues *Literature along the Lines of Flight* Hidenaga Arai, 2014-09-15 This book presents new readings of D H Lawrence's later novels from the perspective of established critical theory and contemporary thought a specific critical theory or critical perspective is selected and applied to each novel in order to present particular interpretations of each Although remaining faithful to one's personal desires without being unduly concerned with the outside world is considered a Lawrentian virtue I would like to show another Lawrence who was sensitive enough to the outside world and to the social discourses of his time to employ elements of them in his novels although subtly and with critical shifts and displacements Lawrence is a writer who continually draws lines of flight to escape from capitalist societies that ascribe essential value and power to money *D. H. Lawrence* Simonetta de Filippis, 2016-08-17 In recent decades critical and theoretical debate in the field of culture and literature has called into question many literary categories has re-discussed the literary canon and has totally renovated critical approaches in the wake of major changes in western society such as the irruption of new cultural identities the disruption of the well-established Euro-centric conception and the need to establish new world visions D H Lawrence has been a focus for critical debate since his early publications in the first decades of the 20th century The force of his thought his courageous challenge against the most important values of western industrial society his rejection of England and its bourgeois values his choice to live in exile his never-ending quest for lost vital meanings his open-mindedness in coming into contact with different worlds and cultures and the revolutionary impact of his writing have all provided critics with important issues for discussion Most of Lawrence's works are still being read and analysed through ever new critical lenses and approaches This volume brings together a selection of papers delivered at the 13th International D H Lawrence Conference *D H Lawrence New Life New Utterance New Perspectives* held in Gargnano in 2014 on Lake Garda the place of Lawrence's first Italian sojourn where he started a new life with Frieda and a new phase as a writer The essays selected for Part I of this volume offer new readings of Lawrence's work and ideology through various theoretical and philosophical approaches drawing comparisons with philosophers and thinkers such as Bataille Darwin Derrida Heidegger and Benjamin among others Part II focuses on translation a concept which can be extended to cultural mediation as it can be applied not only to the proper translation of texts from one language into another but also to travel writing and to transcodification as is the case of film versions of Lawrence's novels
