Extreme North: A Cultural History Bernd Brunner,2022-02-15 An entertaining and informative voyage through cultural fantasies of the North from sea monsters and a mountain sized magnet to racist mythmaking Scholars and laymen alike have long projected their fantasies onto the great expanse of the global North whether it be as a frozen no man s land an icy realm of marauding Vikings or an unspoiled cradle of prehistoric human life Bernd Brunner reconstructs the encounters of adventurers colonists and indigenous communities that led to the creation of a northern cabinet of wonders and imbued Scandinavia Iceland and the Arctic with a perennial mystique Like the mythological sagas that inspired everyone from Wagner to Tolkien *Extreme North* explores both the dramatic vistas of the Scandinavian fjords and the murky depths of a Western psyche obsessed with Nordic whiteness In concise but thoroughly researched chapters Brunner highlights the cultural and political fictions at play from the first discoveries of northern landscapes and stories to the eugenicist elevation of the Nordic phenotype which in turn influenced America s limits on immigration to the idealization of Scandinavian social democracy as a post racial utopia Brunner traces

how crackpot Nazi philosophies that tied the Aryan race to the upper latitudes have influenced modern pseudoscientific fantasies of racial and cultural superiority the world over The North Brunner argues was as much invented as discovered Full of glittering details embedded in vivid storytelling Extreme North is a fascinating romp through both actual encounters and popular imaginings and a disturbing reminder of the power of fantasy to shape the world we live in

A Cultural History of the Modern Age Egon Friedell, 2017-07-12 Volume three of A Cultural History of the Modern Age finishes a journey that begins

with Descartes in the first volume and ends with Freud and the psychoanalytical movement in the third volume Friedell describes the contents of these books as a series of performances starting with the birth of the man of the Modern Age followed by flowering of this epoch and concludes with the death of the Modern Age This huge landscape provides an intertwining of the material and the cultural the civil and the military from the high points of creative flowering in Europe to death and emptiness The themes convey multiple messages romanticism and liberalism opens the cultural scene encased in a movement from The Congress of Vienna and its claims of peaceful co existence to the Franco German War The final segment covers the period from Bismarck s generation to World War I In each instance the quotidian life of struggle racial religious and social class is seen through the lens of the mighty figures of the period The works of the period s great figures are shown in the new light of the human search for symbolism the search for superman the rise of individualism and decline of history as a source for knowledge This third volume is painted in dark colors a foreboding of the world that was to come of political extremes and intellectual exaggerations The author looks forward to a postmodern Europe in which there is a faint gleam of light from the other side What actually appeared was the glare of Nazism and Communism each claiming the future
