of the Eastern Mediterranean and into Western Europe The author uses the full range of source material available including liturgical texts hagiographies chronicles and iconographical evidence bringing together these often disparate sources to map the way in which the cult of St Katherine grew from its early stages in the Byzantine Empire up to c 1100 its transmission to Italy and the introduction and development of the cult in Normandy and England up to c 1200 The book also includes appendices listing early manuscripts containing Katherine s Passio and including key original texts on St Katherine of the period This study will be welcomed by scholars of medieval history and the history of medieval art and as a case study for all those with an interest in the development of medieval saint s cults

St Katherine of Alexandria Jacqueline Jenkins, Katherine J. Lewis, 2003 Medievalists from the US and Britain examine evidence of the third century saint's popularity across Europe throughout the Middle Ages and suggest some reasons for it Prominent questions they address are whether she was popular because she was powerful or powerful because she was popular and what made her image so much more open than that of other saints to appropriation by such a variety of medieval saints The ten essays are from international gatherings in Kalamazoo and Leeds in 1999
