St Michaels Grammar School A Study In Educational Change:

St Michael's Grammar School Victoria Peel, 1999 A history of a prominent Melbourne school *Women Educators, Leaders and Activists* Tanya Fitzgerald, Elizabeth M. Smyth, 2014-07-23 This collection traces women educators professional lives and the extent to which they challenged the gendered terrain they occupied The emphasis is placed on women's historical public voices and their own interpretation of their selves and lives in their struggle to exercise authority in education *Questioning Leadership* Gabriele Lakomski, Scott Eacott, Colin W. Evers, 2016-11-10 Questioning Leadership offers a diverse mix of cutting edge research in the field of educational leadership with contributions from expert and emerging leadership scholars It contextualises school leadership within broader social and historical contexts and traces its influence on school performance through time from its relatively modest role within a systems theory paradigm to its growing influence from the 1980s onwards as exercising leadership came to be perceived as being largely responsible for improving educational outcomes This book invites the reader to challenge the current orthodoxy of leader centrism and instead reflect more broadly on the various structural and institutional interrelationships that determine how a school functions successfully It poses challenging questions such as Is leadership really necessary for high quality school performance Can schools function effectively without leadership Is it possible to describe the work that principals do without using the word leadership How do we challenge the assumption that leadership simply exists and that it is seen as the appropriate default explanation for school performance This book does not assume that leadership is the key to organisational performance although it acknowledges the work that principals do It goes against current orthodoxy and offers varied perspectives on how leadership might be repositioned vis vis organisational and institutional structures It also suggests some new directions for leading and learning and throws open a discussion on leadership that for too long has been captured by the assumption that the leader is the cause of organisational performance and learning outcomes in schools At a time when leadership's dominance seems unshakeable this is a bold book that should appeal to postgraduate students of educational leadership and management those undertaking training in educational administration and current school leaders interested in exploring the value of leadership for educational organisations **Religious Communities of the Anglican Communion** Tom W. Interior Department Appropriation Bill for 1941 United States. Congress. House. Committee on Appropriations,1940

Individual Agency and Policy Change at the United Nations Ingvild Bode,2015-03-24 This book highlights how temporary international civil servants play a crucial role in initiating processes of legal and institutional change in the United Nations system These individuals are the missing creative elements needed to fully understand the emergence and initial spread of UN ideas such as human development sovereignty as responsibility and multifunctional peacekeeping The book Shows that that temporary UN officials are an actor category which is empirically crucial yet usually neglected in analytical studies of the UN system Focussing on these particular individual actors therefore allows for a better understanding of complex UN decision making Demonstrates how these civil servants matter looking at what their agency is based on Offering a new and distinctive model Bode seeks to move towards a comprehensive conceptualisation of individual agency which is currently conspicuous for its absence in many theoretical approaches that address policy change Uses three key case studies of international civil servants Francis Deng Mahbub ul Haq and Marrack Goulding to explore the possibilities of this specific group of UN individuals to act as agents of change and thereby test the prevailing notion that international bureaucrats can only act as agents of the status quo This book will be of great interest to students and scholars of international organizations and the United Nations
