Arno Schmidt's Zettel's Traum: An Analysis (Studies in German Literature, Linguistics, and Culture) Volker Max Langbehn, 2003 Arno Schmidt 1914 1979 is considered one of the most daring and influential writers of postwar Germany the Germanist Jeremy Adler has called him a giant of postwar German literature Schmidt was awarded the Fontane Prize in 1964 and the Goethe Prize in 1973 and his early fiction has been translated into English to high critical acclaim but he is not a well known figure in the English speaking

world where his complex work remains at the margins of critical inquiry Volker Langbehn's book introduces Schmidt to the English speaking audience with primary emphasis on his most famous novel *Zettel's Traum* One reviewer called the book an elephantine monster because of its unconventional size folio format length 1334 pages and over 10 million characters and unique presentation of text in the form of notes typewritten pages parallel columns and collages The novel narrates the life of the main characters Daniel Pagenstecher Paul Jacobi and his wife Wilma and their teenage daughter Franziska In discussing the life and works of Edgar Allan Poe the four engage in the problems connected with a translation of Poe Langbehn's study investigates how literary language can mediate or account for the world of experiences and for concepts Schmidt's use of unconventional presentation formats challenges us to analyze how we think about reading and writing literary texts Instead of viewing such texts as a representation of reality Schmidt's novel destabilizes this unquestioned mode of representation posing a radical challenge to what contemporary literary criticism defines as literature No comprehensive study of *Zettel's Traum* exists in English Volker Langbehn is assistant professor of German at San Francisco State University [Towards a Poetics of the Mental Health Play](#) Anja Drautzburg, 2020 This study traces key developments in theatre's engagement with mental health since the 1970s It introduces and applies the concept of the mental health play as accurate and timely in addressing the way mental distress and mental illness have been brought to the stage The study argues that the theatre is a central calibrator for reflecting developments and tensions in as well as attitudes towards mental health care and thus opens up a domain that still has stereotypes and myths attached to it Theatre's representations of mental distress inform and shape cultural production and vice versa Mental health plays are central in encouraging and fostering conversations about mental health and they thus intervene in ongoing debates Due to its interdisciplinary approach this study contributes to and extends existing research in multiple fields including theatre and science performance studies and the medical humanities
