Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers

*Christian Worldview* Philip Graham Ryken, 2013-10-31 Everything we do say and think reflects our fundamental worldview Whether we realize it or not basic beliefs about God man good and evil history and the future inevitably shape how we view and interact with the world In this accessible student s guide Phil Ryken author and current president of Wheaton College explains the distinguishing marks of a distinctly Christian worldview exploring the existence of God the nature of creation the role of grace and God s plan for the future Written for both Christians and non Christians this handy resource will help believers develop a cohesive worldview while offering unbelievers a succinct introduction to the foundational tenets of the Christian faith **Suffering in Ancient Worldview** Brian J. Tabb, 2017-04-20 Suffering in Ancient Worldview

investigates representative Christian Roman Stoic and Jewish perspectives on the nature problem and purpose of suffering Tabb presents a close reading of Acts Seneca s essays and letters and 4 Maccabees highlighting how each author understands suffering vis vis God humanity the world s problem and its solution and the future Tabb s study offers a pivotal definition for suffering in the 1st century and concludes by creatively situating these ancient authors in dialogue with each other Tabb shows that despite their different religious and cultural positions these ancient authors each expect and accept suffering as a present reality that is governed by divine providence however defined Luke Seneca and the author of 4 Maccabees each affirm that suffering is not humanity s fundamental problem Rather suffering functions as a cipher for other things to be displayed For Seneca suffering provides an opportunity for one to learn and show virtue The author of 4 Maccabees presents the nation s suffering as retribution for sin while the martyrs virtuous suffering leads to Israel s salvation For Luke the Lord Jesus suffers to accomplish salvation and restoration for the world marred by sin and suffering and the suffering of his followers is instrumental for Christian mission **The Worldview of the Word of Faith**

**Movement: Eden Redeemed** Mikael Stenhammar, 2021-12-16 This volume approaches the Word of Faith as a worldview

and analyses the movement through N T Wright's model for worldview analysis in order to provide necessary nuance and complexity to scholarly interpretations of the Word of Faith. The reader receives insights into the movement's narrative, semiotic, practical, and propositional dimensions which cumulatively offer a multifaceted understanding of how the Word of Faith interprets reality and engages with the world. The analysis shows that there is a narrative core to Word of Faith beliefs in the form of a unique theological story with focus set on the present restoration of Eden's authority and blessings. This study demonstrates how the Word of Faith operates as a distinct worldview that parses the world through the lens of faith's causative power to affect a direct correspondence between present reality and Eden's perfection. The findings advance a critical and therapeutic approach that acknowledges how the worldview both strengthens and subverts Pentecostalism.

Evolution, Cognition, and the History of Religion: A New Synthesis Anders Klostergaard Petersen, Gilhus Ingvild Sælid, Luther H. Martin, Jeppe Sinding Jensen, Jesper Sørensen, 2018-10-08. Evolution, Cognition and the History of Religion: A New Synthesis comprises 41 chapters that push for a new way of conducting the study of religion, thereby transforming the discipline into a genuine science of religion. The recent resurgence of evolutionary approaches on culture and the increasing acknowledgement in the natural and social sciences of culture's and religion's evolutionary importance calls for a novel epistemological and theoretical framework for studying these two areas. The chapters explore how a new scholarly synthesis founded on the triadic space constituted by evolution, cognition, cultural and ecological environment may develop. Different perspectives and themes relating to this overarching topic are taken up with a main focus on either evolution, cognition, and/or the history of religion.

**Beyond Homelessness, 15th Anniversary Edition** Steven Bouma-Prediger, Brian J. Walsh, 2023-09-12. What would the world look like if everyone had a home? The rise in homeless encampments. The destruction of our planet. The disconnection from place caused by capitalism and technology. Beyond the unavailability of housing, our culture is experiencing a devastating loss of home. In *Beyond Homelessness*, Steven Bouma-Prediger and Brian Walsh explore the relationship between socioeconomic, ecological, and cultural homelessness. Bouma-Prediger and Walsh blend groundbreaking scholarship with stirring biblical meditations while enriching their discussion with literature, music, and art. Offering practical solutions and a hope-filled vision of home, they show how to heal the deep dislocations in our society. In this fifteenth anniversary edition, the authors return to their work with a new postscript in which they discuss the evolution of their ideas and share true stories of home and community built anew. **Worldview Theory, Whiteness, and the Future of Evangelical Faith** Jacob Alan Cook, 2021-09-28. The twenty-first century has seen energy passing between religious and political worldviews, kicking up dust around the identity and conviction-based fault lines in American society. While many evangelical Christians have developed and deployed a worldview theory to describe and locate themselves within the world's ideological strife, Jacob Cook argues this approach has in effect compelled those listening to adopt the world's divisive modes

of dealing with difference rather than living out a compelling alternative As a popular framework for theology in recent history world viewing has driven its white evangelical adherents to narrate human lives in this world including their own in ways that warp Christian identity as a personal social and theological reality Through close studies of key white evangelical leaders who utilized the worldview concept for political engagement and cultural transformation over the last century Cook reveals why worldview theory is inept for grasping real human complexity and moreover how it forms a barrier to genuine life together as creatures in a world only the living God can really view In between these studies he draws from current conversations in psychology sociology critical race studies and other fields to deliver a vigorous critique of the worldview concept and its use as well as its underlying impulse and to unmask what world viewing shares with the history and spirit of whiteness This book is for those wrestling with the relationship between Christianity and whiteness in America how the dynamics of whiteness have become transparent and thus contentions and where to go from here if one is to follow Jesus
