## **Stalins Generals Phoenix Giants S:**

*The British Political Elite and the Soviet Union* Louise Grace Shaw, 2013-06-17 Private papers diaries and government and Foreign Office records are used within this book to produce an analysis of the attitudes of the British political elite towards the Soviet Union assessing the influence such attitudes had upon British foreign policy between May 1937 and August 1939 Stalin's Generals Harold Shukman, 1997 **Clash of Empires in South China** Franco David Macri, 2015-06-05 Japan's invasion of China in 1937 saw most major campaigns north of the Yangtze River where Chinese industry was concentrated. The southern theater proved a more difficult challenge for Japan because of its enormous size, diverse terrain and poor infrastructure but Generalissimo Chiang Kai shek made a formidable stand that produced a veritable quagmire for a superior opponent, a stalemate much desired by the Allied nations. In the first book to cover this southern theater in detail, David Macri closely examines strategic decisions, campaigns and operations and shows how they affected Allied grand strategy. Drawing on documents of U.S. and British officials, he reveals for the first time how the Sino-Japanese War served as a proxy war for the Allies by keeping Japan's military resources focused on southern China; they hoped to keep the enemy bogged down in a war of attrition that would prevent them from breaching British and Soviet territory. While the most immediate concern was preserving Siberia and its vast resources from invasion, Macri identifies Hong Kong as the keystone in that proxy war, vital in sustaining Chinese resistance against Japan as it provided the logistical interface between the outside world and battles in Hunan and Kwangtung provinces, a situation that emerged because of its vital rail connection to the city of Changsha. He describes the development of Anglo-Japanese low intensity conflict at Hong Kong; he then explains the geopolitical significance of Hong Kong and southern China for the period following the German invasion of the Soviet Union. Opening a new window on this rarely studied theater, Macri underscores China's symbolic importance for the Allies, depicting them as unequal partners who fought the Japanese for entirely different reasons: China for restoration of its national sovereignty, the Allies to keep the Japanese preoccupied. And by aiding China's wartime efforts, the Allies further hoped to undermine Japanese propaganda designed to expel Western powers from its Greater East Asia Co-Prosperity Sphere. As Macri shows, Hong Kong was not just a sleepy British colonial outpost on the fringes of the empire but an essential logistical component of the war, and to fully understand broader events, Hong Kong must be viewed together with southern China as a single military zone. His account of that forgotten fight is a pioneering work that provides new insight into the origins of the Pacific War. **Retreat from Moscow** David Stahel, 2019-11-19 An authoritative revisionist account of the German Winter Campaign of 1941-1942 with maps. Hair-raising, a page-turner. Kirkus Reviews. Germany's winter campaign of 1941-1942 is commonly seen as its first defeat. In *Retreat from Moscow*, a bold, gripping account of one of the seminal moments of World War II, David Stahel argues that instead it was its first strategic success in the East. The Soviet counteroffensive was in fact a Pyrrhic victory. Despite being pushed back from Moscow, the Wehrmacht lost far fewer men

frustrated its enemy's strategy and emerged in the spring unbroken and poised to recapture the initiative Hitler's strategic plan called for holding important Russian industrial cities and the German army succeeded. The Soviets as of January 1942 aimed for nothing less than the destruction of Army Group Center yet not a single German unit was ever destroyed. Lacking the professionalism, training and experience of the Wehrmacht the Red Army's offensive attempting to break German lines in countless head-on assaults led to far more tactical defeats than victories. Using accounts from journals, memoirs and wartime correspondence Stahel takes us directly into the Wolf's Lair to reveal a German command at war with itself as generals on the ground fought to maintain order and save their troops in the face of Hitler's capricious increasingly irrational directives. Excerpts from soldiers' diaries and letters home paint a rich portrait of life and death on the front where the men of the Ostheer battled frostbite nearly as deadly as Soviet artillery. With this latest installment of his pathbreaking series on the Eastern Front David Stahel completes a military history of the highest order. An engaging fine-grained account of an epic struggle Mr Stahel describes these days brilliantly switching among various levels of command while reminding us of the experiences of the soldiers on the ground and the civilians caught up in the Nazi war of annihilation. *The Wall Street Journal*

**The German-Soviet War** Jeff Rutherford, Robert von Maier, 2025-06-15 *The German Soviet War* revises the conflict's generally accepted understanding through case studies demonstrating the complexity of the war at the local level. The contributors assembled by Jeff Rutherford and Robert von Maier examine the multiplicity of experiences of individuals caught in this savage war starting with the German war of annihilation launched against Soviet state and society in June 1941. This detailed collection shows that the particular nature of the war in the east resulted from an intertwining of military, ideological and economic motives. *The German Soviet War* puts Germany's murderous policies toward Soviet Jews and prisoners of war and the justification for these policies and actions within the ranks of the army into the larger context of battlefield events. The neglected topic of the destructive German scorched earth retreats receives detailed analysis demonstrating the importance of ideology and economic thinking in the German army's war. The difficulty in reconciling economic and ideological considerations also played a prominent role in Soviet attempts to rebuild after the war. *The German Soviet War* not only brings attention to these devastating events but also revises the general narrative of the war. By internationalizing the conflict through examinations into the various Axis and Allied nations and peoples who participated in the fighting this volume provides new ways of conceptualizing their motivations, actions and importance in its eventual outcome. Together the contributions to *The German Soviet War* provide new ways of examining the defining conflict of the Second World War.

[The Battle of Prokhorovka](#) Christopher A. Lawrence, 2019-06-01 The Battle of Kursk was one of the defining moments of World War II. In July 1943 German forces under Erich von Manstein, one of Germany's best generals, launched a massive attack in an offensive code-named Citadel. A week later the Soviets counterattacked, sparking a huge clash of tanks at Prokhorovka, the largest armor battle in history pitting more than 600 Soviet tanks against some 300 German panzers. Though

the Germans gained a tactical victory destroying huge numbers of Soviet tanks they failed to achieve their objectives and in the end the battle marked a turning point on the Eastern Front The Red Army gained the strategic initiative and would not lose it

**Phoenix Assurance and the Development of British Insurance: Volume 2, The Era of the Insurance Giants 1870-1984** Clive Trebilcock, 1985 This is the second and final volume of the business history of one of the UK's oldest and largest insurance offices based upon probably the best archive in the business This volume covers the period from 1870 to the absorption of the Phoenix by Sun Alliance now Royal and Sun Alliance in 1984 The Phoenix papers are used to analyse the triumphs and trials not only of a single insurance venture but of an entire financial sector in a notably turbulent century Insurance is concerned with the way people drive the way they retire or buy their houses or invest or educate their children or go to war It follows that a major insurance history also throws light on many aspects of modern British social history As the great composite offices expanded to offer fire accident marine and life insurance across a single counter so they caught within their dealings an increasingly representative slice of British commercial and social life
