Stand in the Trench, Achilles Elizabeth Vandiver, 2010-02-18 Elizabeth Vandiver examines the ways in which British poets of the First World War used classical literature, culture and history as a source of images, ideas and even phrases for their own poetry. Vandiver argues that classics was a crucial source for writers from a wide variety of backgrounds from working class poets to those educated in public schools and for a wide variety of political positions and viewpoints. Poets used references to classics both to support and to oppose the war from its beginning all the way to the Armistice and after. By exploring the importance of classics in the poetry of the First World War Vandiver offers a new perspective on that poetry and on the history of classics in British culture.

Things go well at first. Along with Veil, Charlene Thompson, Matter Man, Anders Nixon, and Monolith, Martin Bollock, the other members of the group, they dispense justice wherever it's needed. However, Matter Man's insistence on getting paid for a job well done doesn't sit well with Bill, and he becomes jaded and cynical about working for the Collective. To Matter Man and to the other members of the group, it's all about the coin. As well, more and more super-criminals start to appear, and when Bill discovers who's coming and, more importantly, why, he learns that being a hero involves more than simply dispensing justice. It's all about living up to the ideals of being one something that could cost him his life. **Last Stand in Lychford** Paul Cornell, 2024-03-26.
